National Symposium
on

"A SUSTAINABLE ENVIRONMENT FOR THE NEXT GEN"

30th SEPTEMBER & 1st OCTOBER 2024

Organised by

WOMEN'S CHRISTIAN COLLEGE, CHENNAI

AN AUTONOMOUS INSTITUTION AFFILIATED TO THE
UNIVERSITY OF MADRAS
RE-ACCREDITED BY NAAC IN JULY 2019 WITH GRADE A+
COLLEGE WITH POTENTIAL FOR EXCELLENCE

Sponsored By

TAMIL NADU STATE COUNCIL
FOR SCIENCE AND TECHNOLOGY

About the College

Women's Christian College, placed first among all women's colleges in south India by the MHRD in the NIRF rating in 2017, is known for its high standards of education and outstanding achievements in teaching-learning, research and extension activities. WCC was founded in 1915 by the combined effort of 12 Missionary Societies from Britain, Canada and the United States of America. The mission of the college is to provide "a complete, meaningful and relevant education to women so that they are intellectually well-trained, morally upright, socially aware and spiritually inspired."

About the Symposium

Environmental sustainability is a critical global concern that addresses the preservation of natural resources and the health of our planet for future generations. This symposium is designed to explore various aspects of sustainability, covering essential topics like the greenhouse effect, waste management, renewable energy, organic farming, eco-friendly transportation, responsible tourism, sustainable living, media's role, and the environmental impact of our food choices.

Sustainable Development Goals (SDGs) provide a comprehensive framework for achieving a better and more sustainable future. These goals address global challenges, including poverty, inequality, climate change, environmental degradation, peace and justice. This symposium will provide an overview of each goal, highlighting their interconnected nature and how they collectively contribute to global sustainability. The sessions will delve into the principles of reducing waste generation, reusing materials, and recycling products to promote a circular economy and reduce the environmental footprint.

Call for Poster Presentation

Thrust areas for poster presentation

- Sustainable development trends in India
- Social accountability towards environment
- Climate change mitigation and adaptation
- Environmental economics and sustainable development
- The benefits of organic farming
