Parent Feedback on Curriculum
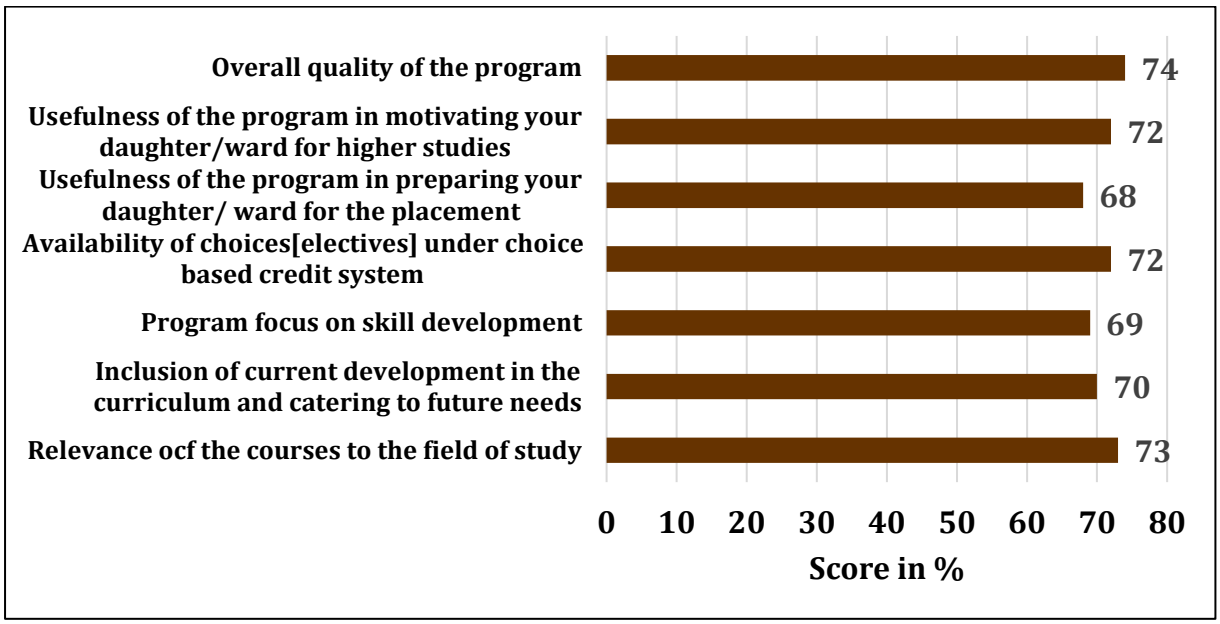
&
Action Taken Report

2022-2023

Parent Feedback on Curriculum
February 2023

I B.A. History



What was the most useful part of the Curriculum?

- Encouragement of students in extra activities
- English
- Relevance of the course to the field of study
- Being the undergraduate course I realise the curriculum being followed is very foundational
- Relevance of the courses to the field of study
- For her better career life
- Important subjects are there
- Syllabus and extracurricular activities
- Seminars, education field trip
- Overall Quality of The Program.
- Field trip and seminars
- Improve students knowledge and confidence
- Teaching students with good example and making them to understand the subject
- UPSC based curriculum
- Apart from studies, i really like the college encourage girl students leaning martial arts
- Exposure to different aspects
- Everything in the curriculum filled my expectation.
- Assignments and seminar done
- Overall quality of the degree program

- Project works helped in understanding the curriculum
- Skill development
- Acquiring knowledge
- Field trips
- Relevance of the courses to the field of study.
- Overall Quality of degree program
- Studies
- Fulfillment of expectations
- Very much to what I need

What was the least useful part of the Curriculum?

- Lack of notes
- Other languages
- More development in curriculum studies
- Not sure if it's least useful.
- Developments in curriculum and catering to future needs
- Improving extra knowledge
- None
- Teaching
- Program focus on skill development.
- Oral teaching
- In education curriculum is the best. So everything in education is useful to the students
- Nothing
- Nothing
- Nothing
- Nothing
- Physical activity
- Program preparing
- Field study
- Physical education
- Usefulness of the programme in preparing for placement.
- Nothing
- Nothing to be specific
- Nothing

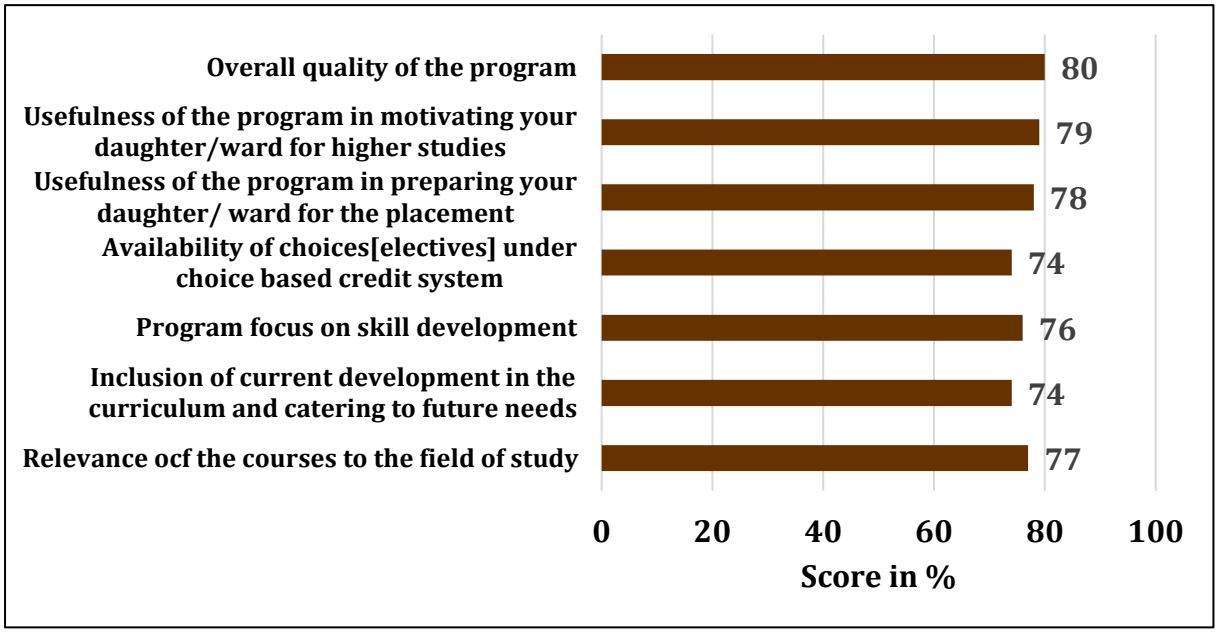
What changes do you suggest to improve the Curriculum?

- To encourage student in the upcoming exams and to give them some ideas for their improvement
- Nothing
- Program focus on skills developments

- Perhaps the University could take away languages for more on the chosen discipline.
- Program focus on skills developments
- No changes
- None
- None
- Field trip for education
- Nil
- More practical & pictograms & field trip
- No changes. It's good to the students
- More interaction between students and teachers
- Aptitude content should be added more into the curriculum
- Apart from regular studies of subject related to the course, efforts may please be made to mould/prepare students to face competitive exams, by offering special classes for coaching them. So that they could get ready to face exams, once they complete their degree/courses. It shall be highly appreciated please
- I don't have any suggestions. It is already good
- Present curriculum is best so there is nothing to change.
- Reduced number of hours for attendance percentage and physical activity
- More
- Good
- More interactions
- All good
- Not implementing fine for re-open days. As we are from Andhrapradesh , she needs to travel based on the availability of transport sometimes it's hard to her to reach on re-open days. This needs to be considered.
- All was perfect
- Nothing
- Addition of co-related subjects
- More site visits

* * * * *

II B.A. History



What was the most useful part of the Curriculum?

- Teacher talking to students
- Every subject gives wise lessons to our children
- The syllabus is relative for future needs ofy daughter
- Economic
- It was useful for her to improve her knowledge and skills was able to learn more about historical event
- Subjects
- Offering skill based electives
- Subject, dance
- Good selection of subjects and teaching style
- Courses offered by dept is good
- Teaching students by ppt and field study
- It was useful for her to improve her knowledge and skills was able to learn more about historical event
- knowledge
- relevance of the courses to the field of study
- The exposure to all the aspects of history.
- Elective courses and the useful subjects
- The curriculum covers all the topics for competitive exams.
- UPSC based curriculum
- Very vast
- Education
- Discipline, communication skills, education

What was the least useful part of the Curriculum?

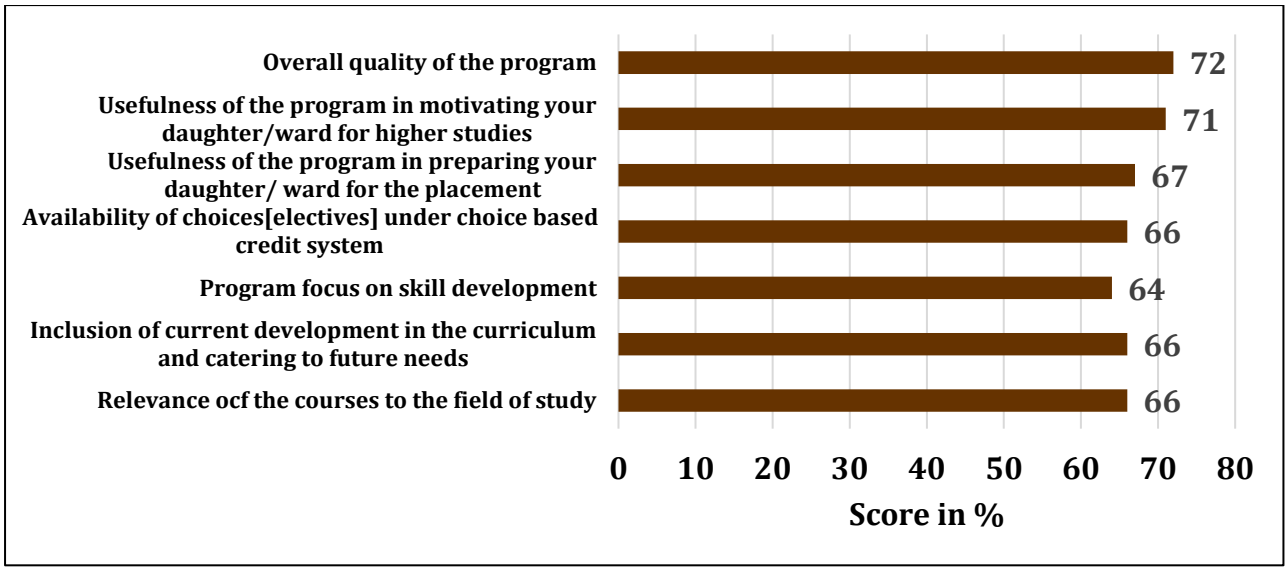
- Nothing
- Every subject is useful
- Everything was satisfactory
- No
- The syllabus should be modified so that the student will find it easy to learn
- MOOC Component
- Nil
- Drama
- MOOC course
- Nothing as such least useful
- Nil
- The syllabus should be modified so that the student will find it easy to learn
- No idea
- The study of economics
- None
- Nothing
- I don't think there is something not neede in the curriculum as such.
- Nothing
- Fees structure
- Nothing

What changes do you suggest to improve the Curriculum?

- Nothing all is good
- Nothing as such required
- No changes required
- Study of the books
- Nothing
- Total change in the approach of education
- Nil
- Nothing
- More educational trips is suggested
- Nothing to improve
- Please keep more than 2 assessment
- Nothing
- Study and knowledge
- Need expository of every chapters taught in the classroom
- Regular tests to monitor students grades.
- Nothing
- I am very much happy with the curriculum.
- Aptitude section can be added to the curriculum
- Nothing
- Nothing everything is good

* * * * *

III B.A. History



What was the most useful part of the Curriculum?

- The updated part of the syllabus and the syllabus application for attending various competitive examinations are the most useful part of the Curriculum
- Field studies like taking students to take survey.
- Establishing Elective programs for students from different fields
- Exposure to different kinds of study fields
- Learned to tackle stress
- The workshop and the practical method of teaching.
- Program focus on skills development
- Availability of choices
- Electives
- Syllabus is up to date
- Nothing
- No
- Discipline
- Aim - which is the most general level
- Goals _ which reflect purpose with some out comes in once mind "
- To express our feedback how WCC performing
- Studying history along with economics
- Teaching skills of teachers
- Everything

What was the least useful part of the Curriculum?

- MOOC component included in the curriculum is the least useful part of the curriculum
- MOOC -it seems least useful because many of the MOOC courses getting closed. Students sometimes have access to the study the materials and attend the test, but

most of the times its not possible as there were specified due dates .If they have to attend test means they need to pay exam fee.

- Nil
- 50:50 – internal : external paper pattern
- The syllabus is not useful and could be more efficient and resourceful
- None
- All these
- Value ed courses are important but they are not getting required importance
- MOOC
- Nothing
- No
- Cleanliness
- Almost all of the maths that I learned at school is useless to me now.
- Nothing
- Nothing

What changes do you suggest to improve the Curriculum?

- More practical application through field trips is recommended. Certain papers like political science, sociology and geography can be introduced
- "Practical way of teaching .Instead of teaching only in class by projecting , students can be taken to places like government offices and industries and specialised areas to understand the working mechanism there and they should be allowed to interact with the people there(apart from tours).
- Ex: If they are studying about SHRC means they should visit that particular head quarter and should have meetings with the officers .
- It will help them to gain immense knowledge and it will increase their exposure.
- Thus ,studying within four walls is different from practical learning"
- More relevant practical opportunities
- 50:50 paper pattern - it could have been better by having 40% internals and 60% externals
- Change in the syllabus and the method of teaching
- More workshops and interaction with historians.
- No change
- Include some more interesting courses for elective choosing
- Add more subjects that are useful in the field of history
- No
- No
- More studies
- Re-evaluate goals or objectives
- Keep a track of employee skills that are sought after
- Take job trends into consideration"
- No
- Nothing
- It doesn't need any changes

* * * * *

Parents' Feedback Report: Department of History
2022-2023

- Suggestion of the Department: As most of the parents are 1st generation and also have language problem they are not able to comprehend the questions asked. So the feedback would be more accurate only when the questions are given in bilingual (Tamil and English)
- Many have raised question on field trip – the department has started conducting field trips. Apart from the regular field trips the department will organise more industry visits.
- Majority of the parents felt that MOOC courses are the least useful – but it cannot be removed as it is the requirement of the College and university
- Parents also felt that physical education need not be offered but it is mandatory as per university regulations
- They have raised query regarding decrease in fees – Department is not in control of the fees as it is as per College structure and government norms.

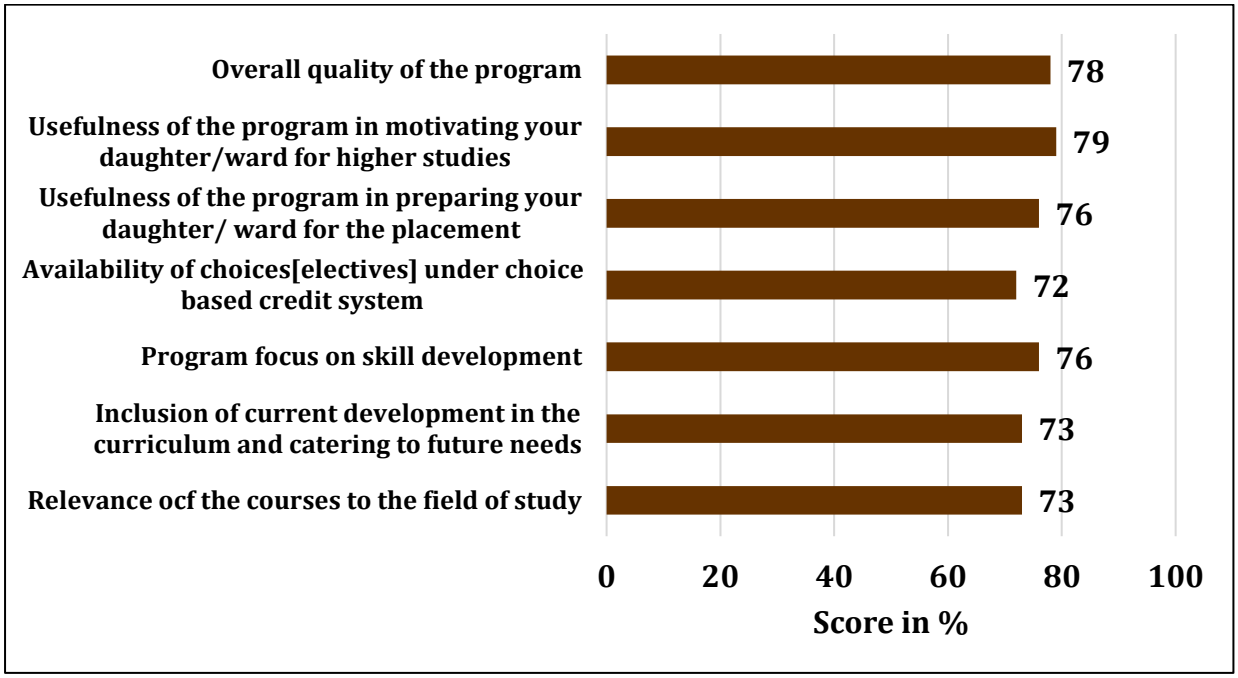
Parent Feedback on Curriculum
February 2023

I B.Sc. Computer Science



What was the most useful part of the Curriculum?

- program focus on skill development
- Skill based learning
- Application and career based curriculum
- Nothing
- A robust and updated curriculum.
- To improve
- Lab session
- Lab session
- Program in preparing of ward placement
- More practical based education
- Giving more lab and Practical hands on Programing language in Core subject
- Learning python
- Lab session
- Gains more knowledge
- Nothing
- Program focus on skill development
- Able to think
- Program focus on skill development
- Program focus on skills development
- Coding

- The most useful part is making them more skillfull to work in this busy environment.
- Teaching about current development
- Developing fundamental coding skills
- Skill and language
- Practical
- The focus on skill development
- LAB SESSIONS
- Overall quality of the degree program
- Learnt basics of python
- Usefulness of the program that motivates my daughter
- Programming languages
- It was designed in such a way that it moulds the students day by day to a better person. All the activities were designed well for the students betterment
- THE SYLABUS COVERING INFORMATION TECHNOLOGY
- Computer Programming Languages

What was the least useful part of the Curriculum?

- Nothing
- Nil
- No such part.
- Nothing
- Having no library hours/mini projects as part of skill development.
- None
- Second language
- Second language
- Electives under choice based credit system
- Nothing
- More focus can be given on Core Subjects
- No
- Second language
- Under pressure
- Noting
- Availability of choices under choice based credit system
- Tough
- Relevance of the courses to the field of study
- Nothing
- Nothing
- Nil
- To know the interest of student
- LESS PRACTICALS
- NA
- Couldn't able to create own programs by ourselves
- Relevance of the courses to the field of study

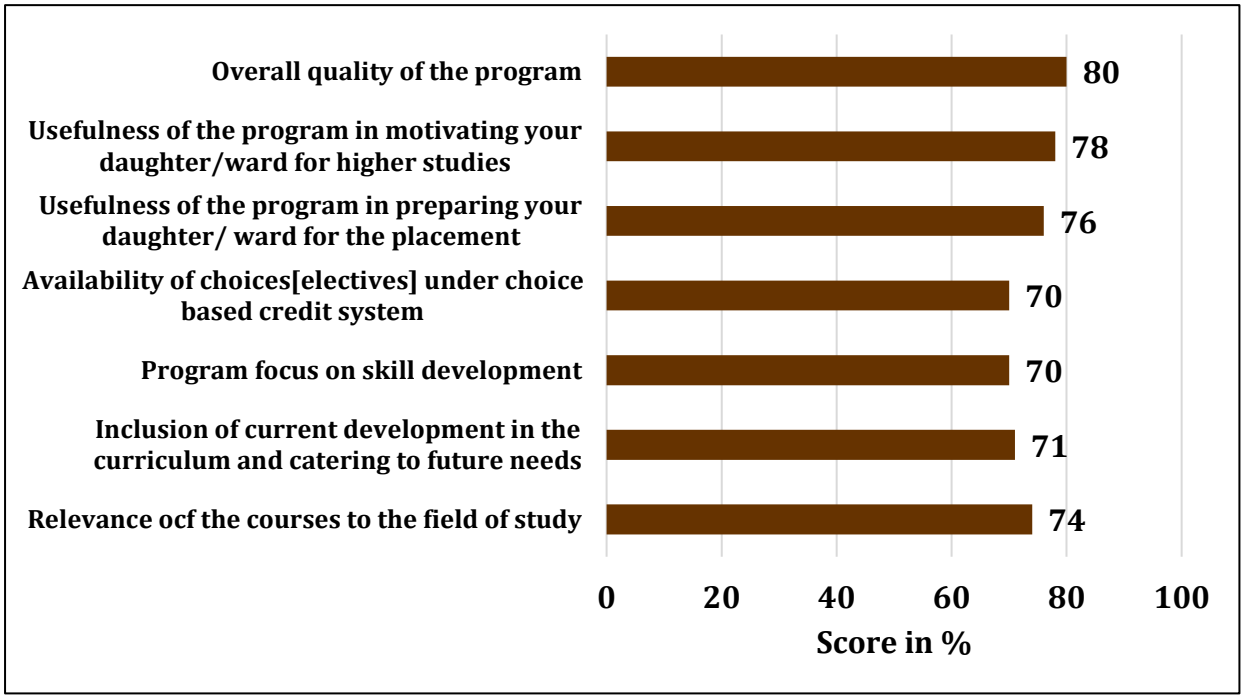
- Nil
- SECOND LANGUAGE
- Nothing

What changes do you suggest to improve the Curriculum?

- need to have more skill based programs than information learning
- More techniques to improve skills.
- The current curriculum is good. There can be far more concepts like machine learning,data mining.
- Nothing
- The curriculum including teaching methods & evaluation pattern etc. could be modified utilizing the academic freedom/autonomy of the College, so as to give more weightage to formative assessment & skill components.
- None
- No need of second language
- No need of second language
- Improvement of skills development
- Maintain the same
- Need to train student in Programming skills based on their interest with additional materials as required
- No
- No need of second language
- Can Less the collage timing
- Nothing
- Improve more on skill development
- More implementation
- Improve overall quality of the degree program
- No suggestion
- Nothing
- Nil
- Give chance all student from the placement
- Nothing
- Should include more concepts from the current situation
- TECHNOLOGY AT PAR WITH THE MARKET TODAY
- Presently good
- To teach how to create own programs in our daily lifestyle..
- Just make sure that students are not stressed and comfortable with studies
- Nil
- No changes
- SINCE IT IS COMPUTER SCIENCE COURSE, YOU CAN CUT SHORT TAMIL(SECOND LANGUAGE) AND ADD SOME RELEVENT TECHNICAL COURSE
- Practical based studies will improve students

* * * * *

II B.Sc. Computer Science



What was the most useful part of the Curriculum?

- Creative thinking
- Practical knowledge and skill development
- Exploring
- Teachers and teaching helps my ward to motivate her to study
- To explore more knowledge
- Application type questions
- inclusion of new updated topics
- Program focuses on skill development
- Value education class
- Life skills development and effective courses.
- Relevant on the courses to the field of study
- All the teaching was good
- To improve her skills and knowledge
- Bringing up students to live better life by being strict and also by attendance..
- Computer knowledge
- Teaching Practically and not only for the sake of exams
- Young India
- It helps the student to get ready for the placement and develops their own learning skills.
- The curriculum is focused on future needs.
- Exploration
- Skill based programs

- Good education
- OBE pattern makes students to understand and get good marks
- Outcome based education
- The international conference

What was the least useful part of the Curriculum?

- None
- The staff should teach their course in practical way
- Nothing like that
- less time
- Nil
- Extension activity
- Less course hours for vast subject.
- None
- No
- Very difficult to her in starting stage
- Nothing
- Sometimes stressed
- Nil
- It does not develop their thinking knowledge.
- No extra curricular activities
- Nothing
- Nothing

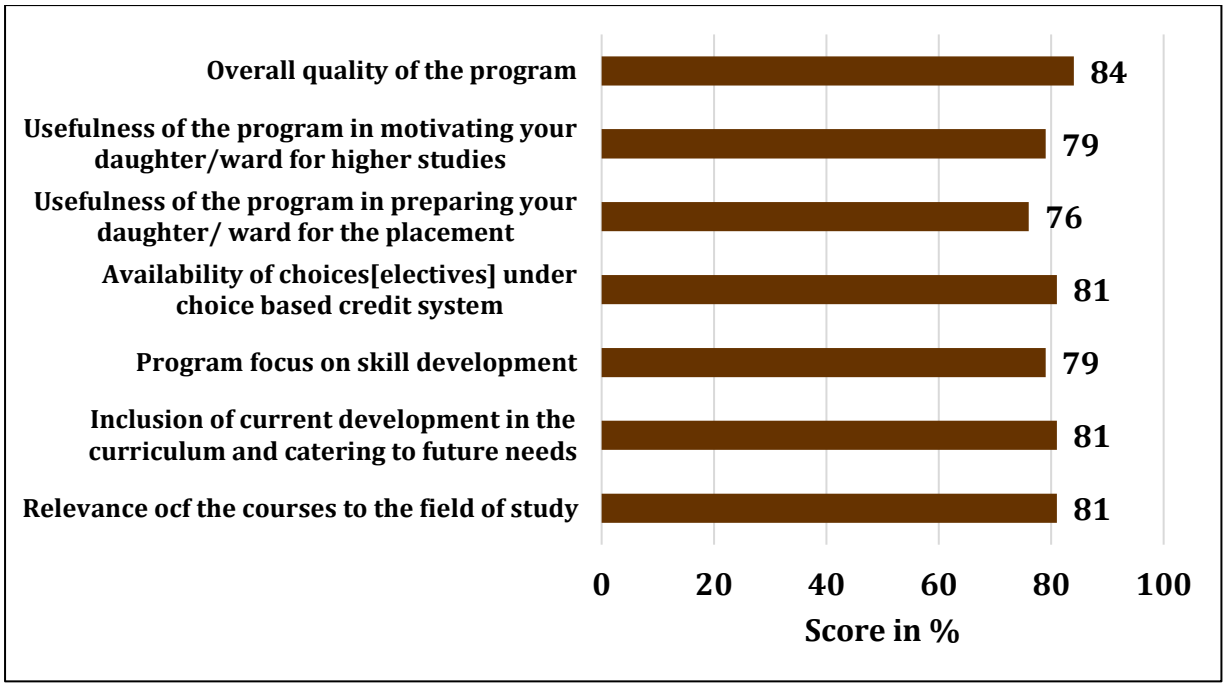
What changes do you suggest to improve the Curriculum?

- None
- You should give holiday to students for every CIA exams not having classes after 10 a.m
- 75% is enough
- Internship provided by college will be useful.
- Conduct some IV and other practical methods/workshop to improve the interest in their studies.
- Keep doing
- Nothing
- Extra counselling regarding the future career
- Nil
- Increasing course hours so that every student will take enough time to understand and study.
- No changes
- Nothing
- Nothing
- Best as of now.

- Practicals are always the best solution
- To increase more number of registrations in SKB and NME for the students so that everyone can select their interested courses rather than just selecting which are not filled
- Nil
- Nothing
- More opportunities should be given to the students to be more confident and bold towards their placement and for higher education.
- To improve and explore extra activities
- We need to include latest developments for the upcoming students to introduce courses on mobiles, Analytics with various domains (like banking, insurance...etc) Industry visits are missing but I guess it will be there in the upcoming semester to visit corporate companies to understand their day to day activities
- More application oriented
- By adding interested courses under students need.

* * * * *

III B.Sc. Computer Science



What was the most useful part of the Curriculum?

- Supporting subjects were really useful career wise and enabled my daughter to apply for a lot more job vacancies
- Campus placement
- Course outcomes and the OBE pattern
- Course outcomes and OBE pattern
- CLASSES FOR FOREIGN LANG
- The knowledge of students
- Outcome based learning is most useful
- Education
- helping her to gain more knowledge towards the reality
- all the subjects taught are really useful in today's IT industries to be more clear software engineering paper is very useful for the product based IT companies.
- Bringing course in trend that are scope for future
- Electives
- quality of degree program
- Having internals
- Choice of courses offered
- Artificial intelligence

- Lab sessions provided for the required subjects
- Exposure of relevant subjects like cloud computing, cyber security and also practical classes on multimedia was all so useful
- Inclusion of latest developments in technology in the syllabus (Data Mining and Cyber Security)
- Overall quality of the degree program.
- logical thinking
- Motivating programs, teaching and placement opportunities
- Learning new things

What was the least useful part of the Curriculum?

- NIL
- Events
- NME courses like out of the degree eg. Science students learning courses that are not related to them. Make sure let them learn courses related to their degree
- Nothing
- Nothing
- Nothing
- None
- Outdated courses
- Value education class on 3rd year was not mandatory
- Nothing
- Timing

What changes do you suggest to improve the Curriculum?

- Provide more workshops related to the subjects
- Provide more workshopa to related subjects
- NIL
- Preparing students and giving more insights on placements and higher studies
- Nothing
- Nothing
- Nothing
- Nothing
- None
- Spaced out courses and sessions
- Include more elective course papers
- Offering subjects to students for creating real time applications
- Can have more practical sessions and much knowledge on current subjects can be taught to students
- It would be great if block chain technology is included in the curriculum
- Nothing

* * * * *

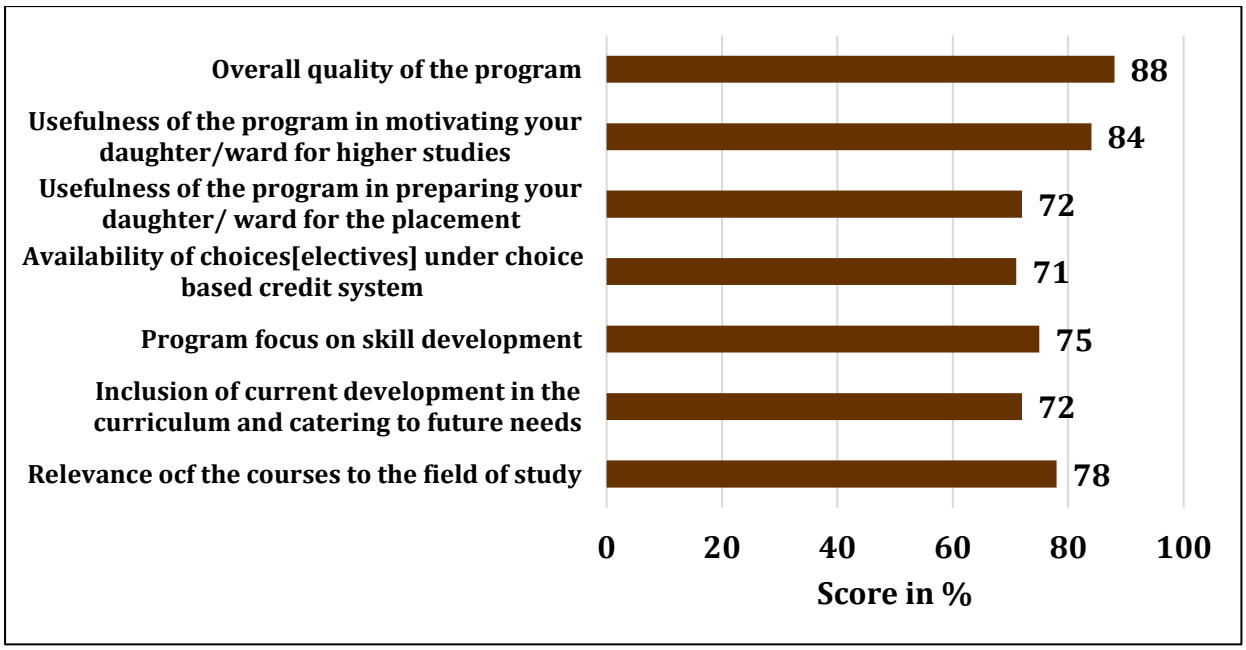
Department of Computer Science
Action Taken Report on Parent's Feedback Curriculum-2023

1. Value-added Certificate courses will be offered from next academic year
2. Faculty are requested to make the courses more interactive with more participation from students
3. Choices are offered in Core Elective Courses in Semester V.
4. Industrial Visits & Field Trips are arranged for the final year classes.
5. More skill courses specific to the discipline will be offered.

* * * * *

Parent Feedback on Curriculum
February 2023

I B.Sc. Psychology



What was the most useful part of the Curriculum?

- Usefulness of program in preparing for placement
- Credited courses
- Latest information given by course teachers in an understandable format is the highlight of all core papers offered
- Everything
- The inclusion of current developments
- Phone banned
- Getting to know about new things
- Physical education because it keeps my body flexible as well as regulates my metabolism. Its really a healthy mechanism that our curriculum is following. According to me this is the most useful part of the curriculum
- Relevant and updated
- Every thing that the college has provided seems very good especially scripture class and physical education.
- Students achievement
- Practical and experiments apart from the theories
- Application of theory to everyday life
- Skill development
- Interactive learning
- International study programs
- Learning new things

What was the least useful part of the Curriculum?

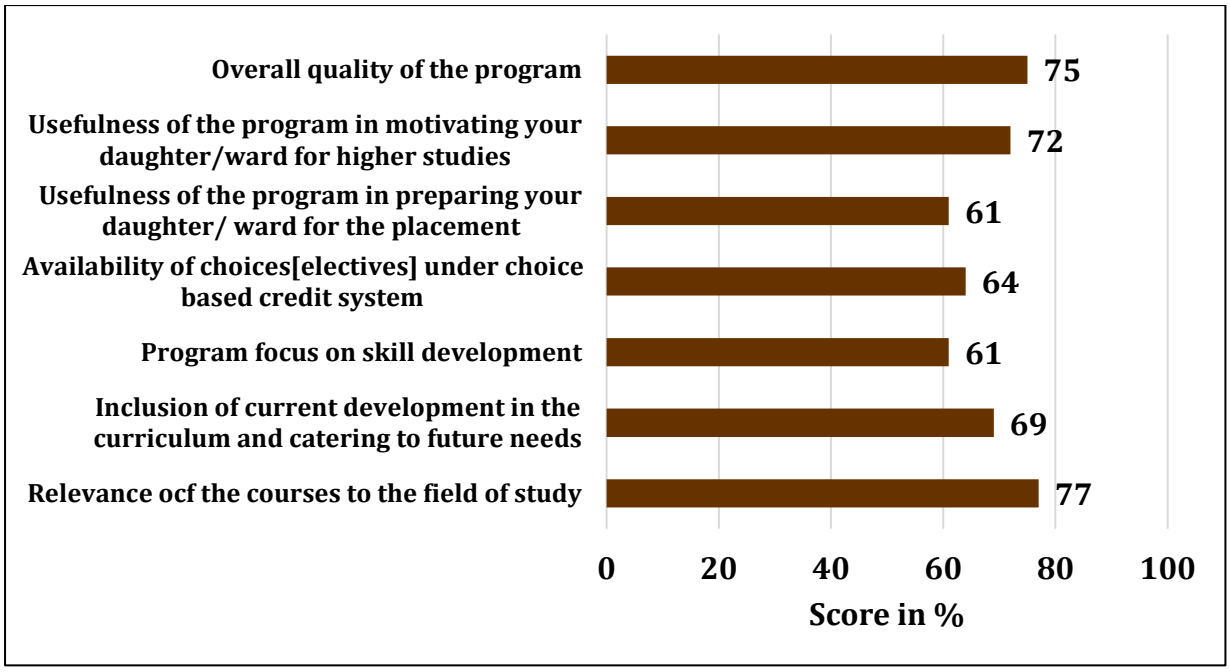
- Availability of choices under choice based credit system
- Nil
- Zoology department offered a course on Human Heredity and Applied Genetics in Semester I; it was extremely tough for students coming from a nanoscience background.
- Nothing
- Practical knowledge
- None
- N/A
- Lot of theory and less of practicals
- I shall say nothing
- Students behavior
- Portions related to biology with greater depth
- All materials were based on Western culture
- Attendance system
- Compulsory physical education

What changes do you suggest to improve the Curriculum?

- NIL
- Add more hands on experience
- Behavioural genetics could be more helpful for Psychology students.
- Nothing
- Give the students to have some practical knowledge, as it will be easy for them to understand. It is important for psychology students as well as other students to have some practical knowledge. They should not know only theory but also how to apply those theory.
- Educational field trips to explore a lot about the concepts and ideas of our course
- N/A
- Internship facilities to be provided and children should be guided accordingly. Virtual student exchange program to be facilitated.
- The department can provide good materials so that they can easily accessible to there materials.
- To support and help for their achievement
- There could be more practical learning added to the curriculum along with the theoretical learning
- Can update textbooks to latest editions and include more Indian context in lessons.
- More textbooks based on Indian culture in psychology
- Introducing more cultural events
- I suggest to keep the college timings for the first shift a little later
- Initiating a field trip might help them to muster all the knowledge about their subjects
- Improve good circulation

* * * * *

II B.Sc. Psychology



What was the most useful part of the Curriculum?

- The whole curriculum is structured well in the syllabus.
- Activity based learning
- Assignments, student - teacher interaction, campus
- Diversity in core papers
- Basic understanding of the topics relevant to courses.
- Skill development
- Value education
- The teacher's expertise shared in the class
- Seminars, projects
- Being able to connect every aspect of the subject with everyday events and advancements
- The detailed three part teaching method of teaching the curriculum is ambient
- Introduction to Human services
- The syllabus is informative and beneficial for the student.

What was the least useful part of the Curriculum?

- The assignments given can be more interesting which engages students in field work or by applications of the learning.
- 4 semesters of Language
- Nothing
- PPT, webinar
- Practical

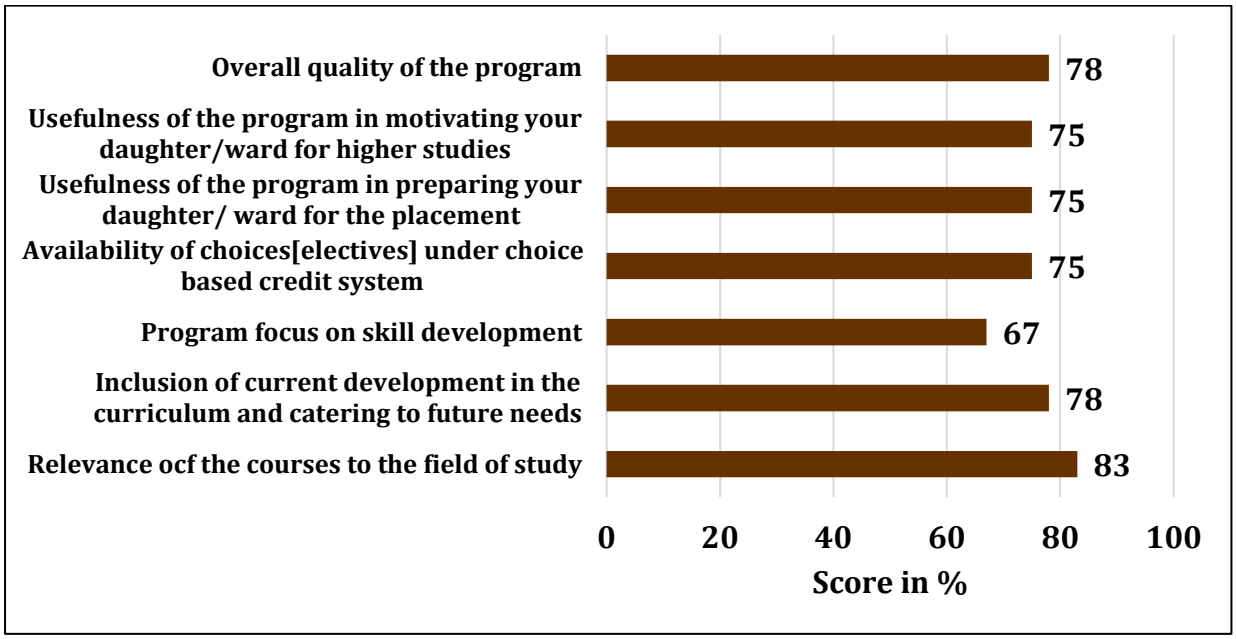
- Rotary
- Value education
- None
- Value education
- Value Education

What changes do you suggest to improve the Curriculum?

- The weightage of internal theory exams can be reduced and the project or assignment works can be increased which helps the students to think critically when it comes to the applications of the subject.
- More practical, field visits, exposure to seminars, inter college activities, to re analyse the rule of suspension!!for phone use if caught first time
- Nothing
- Not anything in particular
- More interactive interns, practical sessions
- More internships
- To include more recent researches and studies
- Internship and practical opportunities
- None
- To include more recent researches and more hands on experience earning classes and sessions. More involvement of current affairs and topics is needed.
- More involvement of current affairs and topics for all parts of the syllabus
- More practical and interactive sessions.

* * * * *

III B.Sc. Psychology



What was the most useful part of the Curriculum?

- Structured syllabus
- In depth knowledge sharing on all subjects
- Relevance of the course and broad based curriculum
- Management Exposure
- Giving ideas about their PG program, giving extra information about the course, value about the course, how can they improve in that field
- Focussing on the core subjects
- Exposure

What was the least useful part of the Curriculum?

- Nil
- Industry student interaction
- Nil
- Couldn't find the least
- Nothing
- Placement opportunities

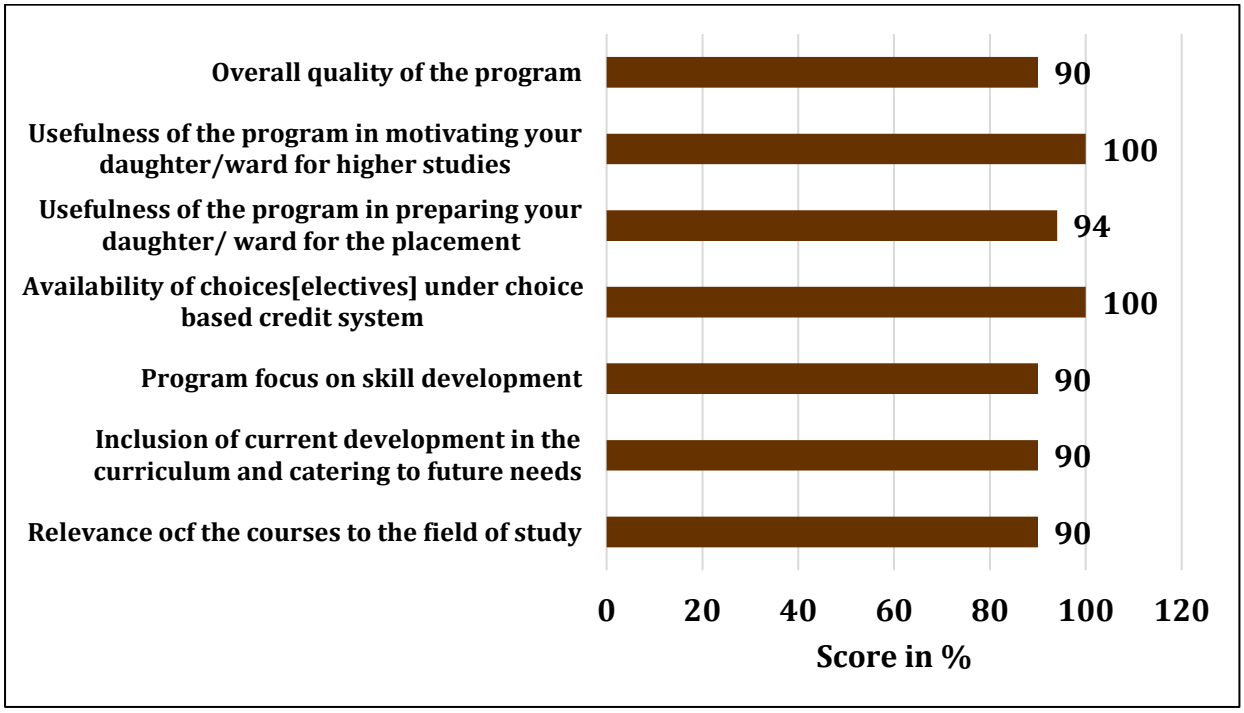
What changes do you suggest to improve the Curriculum?

- Nil
- More industry aligned subjects/topics to be introduced so that students would have an edge during placements
- Nil
- More case studies would help
- Can have lot of tests
- More internships and placement opportunities

* * * * *

Parent Feedback on Curriculum
February 2023

I M.Sc. Applied Psychology



What was the most useful part of the Curriculum?

- syllabus was good
- Gave new insights about the course
- Counselling session
- skills paper

What was the least useful part of the Curriculum?

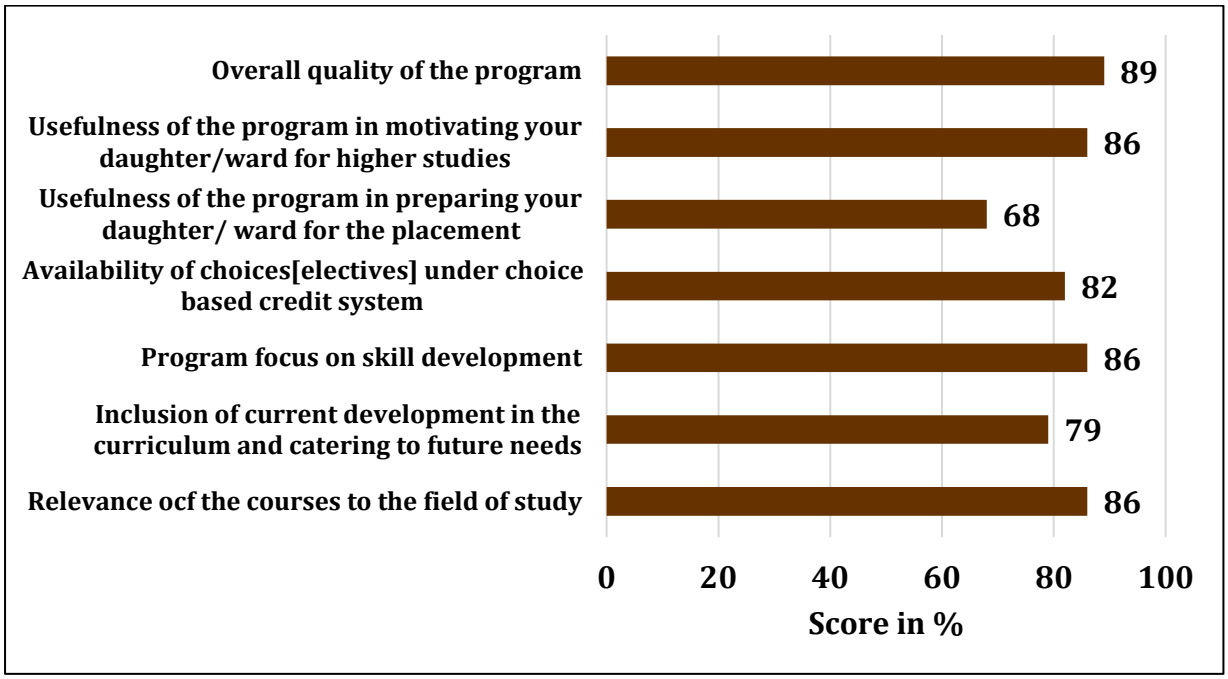
- Nothing
- Nil

What changes do you suggest to improve the Curriculum?

- Cultural
- More institutional visits
- NA

* * * * *

II M.Sc. Applied Psychology



What was the most useful part of the Curriculum?

- The lectures, internships and projects where she could get ready for the actual experience outside.
- Internship in different fields and case studies.
- Practical session
- The practical experience

What was the least useful part of the Curriculum?

- None
- Nothing
- English course for research

What changes do you suggest to improve the Curriculum?

- More workshops to highlight the scope of the field.
- Some theory papers have vast syllabus so that can be considered.
- Nothing
- None

* * * * *

Action Taken Report on Feedback on curriculum from parents (received on Open day 4th Feb 2023) –Psychology Department (shift I)

I.B.Sc	**Feedback-Least useful part of the curriculum**	**Action Taken**
	1.Supporting course offered by Zoology Dept. on Human Heredity &Applied Genetics was extremely tough for non science students.	1. The Department was given the feedback and the syllabus for the incoming batch 2023-2024 has been revised.
	2. All materials were based on western culture	2. Reference books with Indian co authors have been introduced
	3. Compulsory physical education	3. University regulation/ template
	Feedback- changes suggested	**Response**
	1.Behavioural genetics would be more useful for Psychology students	1. Course has been revised
	2. Students should have practical knowledge in addition to theoretical knowledge	2.Course teachers are incorporating practical application examples in their lectures; classroom activities; and in question papers
	3.Internship program to be provided	3. Compulsory internship after semester IV
	4. Department to provide good materials	4. Main library is well equipped and accessible
	5. to support students &help them in their achievement	5.Remedial classes are held for students who score below 40%in CIA
	6.To update textbooks to latest edition	6. Has already been updated
	7. To introduce more cultural events	7. Students can be part of the several clubs across college and be part of such events.
	8. College starting time for the first hour to be little later	8. This is based on the decision of the college
	9. Field trip	9. Students were taken on a field visit
	II B.Sc	
	Feedback-Least useful part of the curriculum	**Action Taken**
	1.Assignments given can be more interesting which engages students in field work.	1. Empirical survey was conducted as part of supporting-statistics course
	2.Rotary &value education	
	Feedback- changes suggested	**Response**
	1.More practical &interactive sessions	1. Most courses have group work and discussion and students are

		encouraged to be interactive in class
	2. Field work	2.
	3.To include recent researches	3. Prescribed textbooks and reference books are latest editions. In addition mostly latest findings are supplemented in class.
III B.Sc		
	Feedback-Least useful part of the curriculum	**Action Taken**
	1.Industry – student interaction	1.Expert lectures pertinent to application oriented courses can be enhanced
	Feedback- changes suggested	**Response**
	1.More internship and placement opportunities	1.Students who are doing Project course UPS/CE/01 get to do field work like internships, case studies/ survey,community service. 2. In addition some other students are doing internships on their own.
I M.Sc		
	Feedback-Least useful part of the curriculum	**Action Taken**
	1. Nil	
	Feedback- changes suggested	**Response**
	1. More institutional visits	1. Students would do this as part of project in their respective courses and in semester IV students go on internships and conduct research/ projects.
II M.Sc		
	Feedback-Least useful part of the curriculum	**Action Taken**
	1.English course for research	1. Feedback to be shared with the concerned department
	Feedback- changes suggested	**Response**
	1. More workshops to highlight the scope of the field	**1.**Several workshops are conducted for students of counseling specialization In semester II. 2. Students of OB Specialization can be given more workshops realted to what they learn.

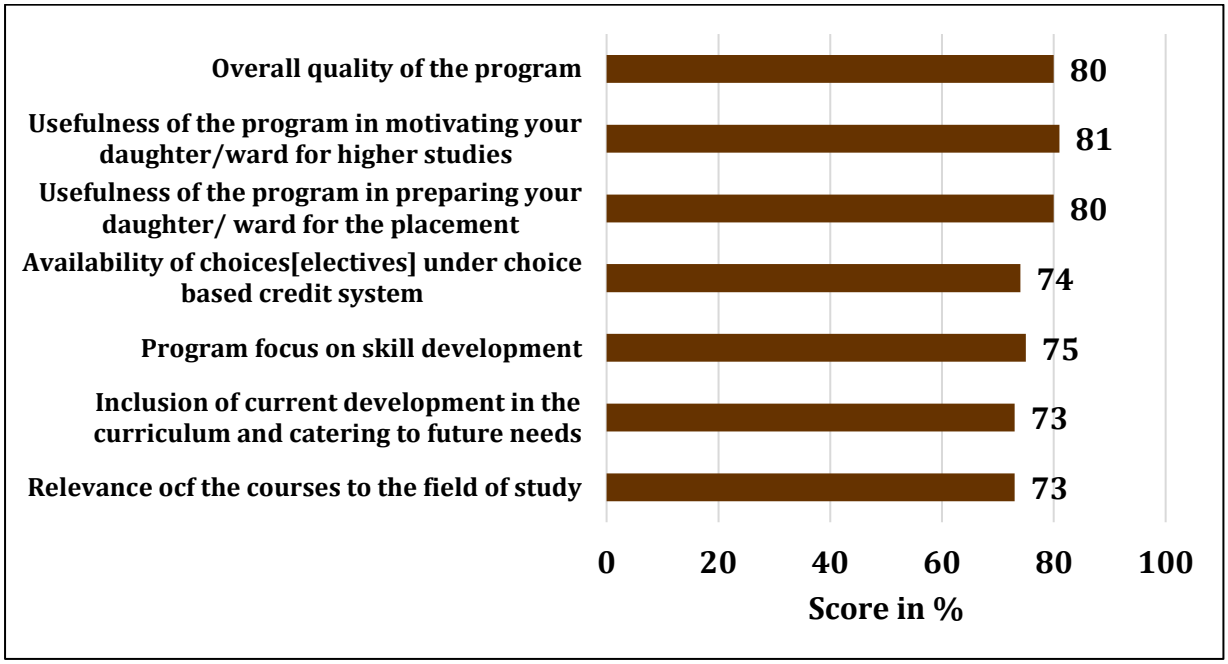
Parent Feedback on Curriculum
February 2023

I B.A. Corporate Economics



What was the most useful part of the Curriculum?

- Sports
- It's very important curriculum
- good attendance of teachers and students
- All
- The way the teachers observe every child and support them in their studies
- The overall curriculum seems good
- Skill development
- CIA test
- Gives a clear idea of the entire semester.
- Placement
- Because of this curriculum, they come and study well ,now the teachers come and encourage them
- Activities conducted on the base of study
- Relevance of the courses to the field of study
- Learning economics
- English speaking
- Program focus on skill development
- Everything
- Academics
- Studies

What was the least useful part of the Curriculum?

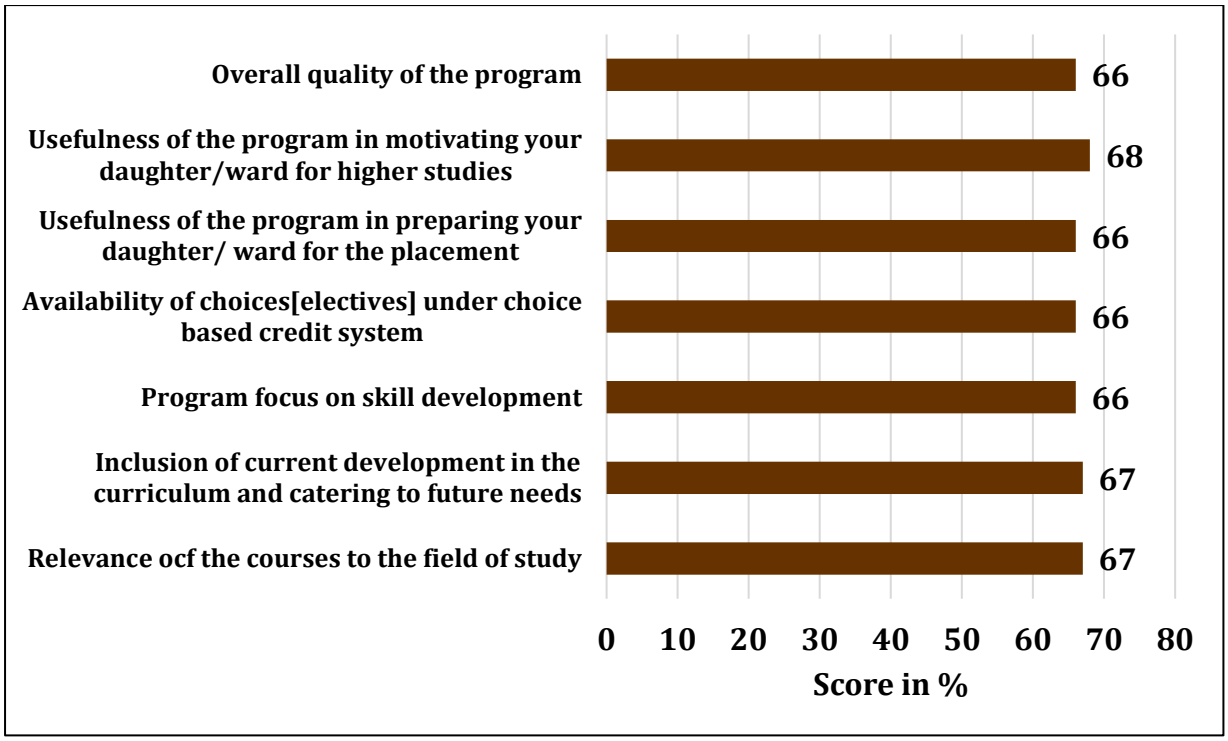
- NSS
- She is always studying
- Sports
- Everything is useful
- Nothing
- Credit system
- Nothing
- Nil
- Nothing
- Nothing
- Should prefer students more economics books
- Overall quality of the degree program
- Nothing
- Physical education
- Nil

What changes do you suggest to improve the Curriculum?

- Nothing
- To avoid unnecessary things!! Focus on studies
- Nothing
- None
- Satisfactory
- Nothing
- Nil
- The goal today, for every University needs to be the equipment of students to hone their skills and talents through knowledge in a bid to make something of themselves where their career is concerned
- Giving opportunity to everyone not only the toppers
- All good
- Should prefer both foreign and country author books. To stand best in every aspect of the curriculum
- Nothing it's perfect
- More community skills
- Need for skill
- No
- We suggest to change the timings of the college
- Change the break timing 15mins is not enough.

* * * * *

II B.A. Corporate Economics



What was the most useful part of the Curriculum?

- Nothing
- Core Subjects
- skill and education
- Relevance to the corporate world
- Placement
- Syllabus are set in good standard level and proper coaching for the kids
- Improvement in studies
- All quantitative subjects
- Library
- Skill development and knowledge development
- It is helpful to gain knowledge
- Nil
- Skill and education
- Teaching
- Can able to gain the economic knowledge
- Active participation

What was the least useful part of the Curriculum?

- Nil
- Nil

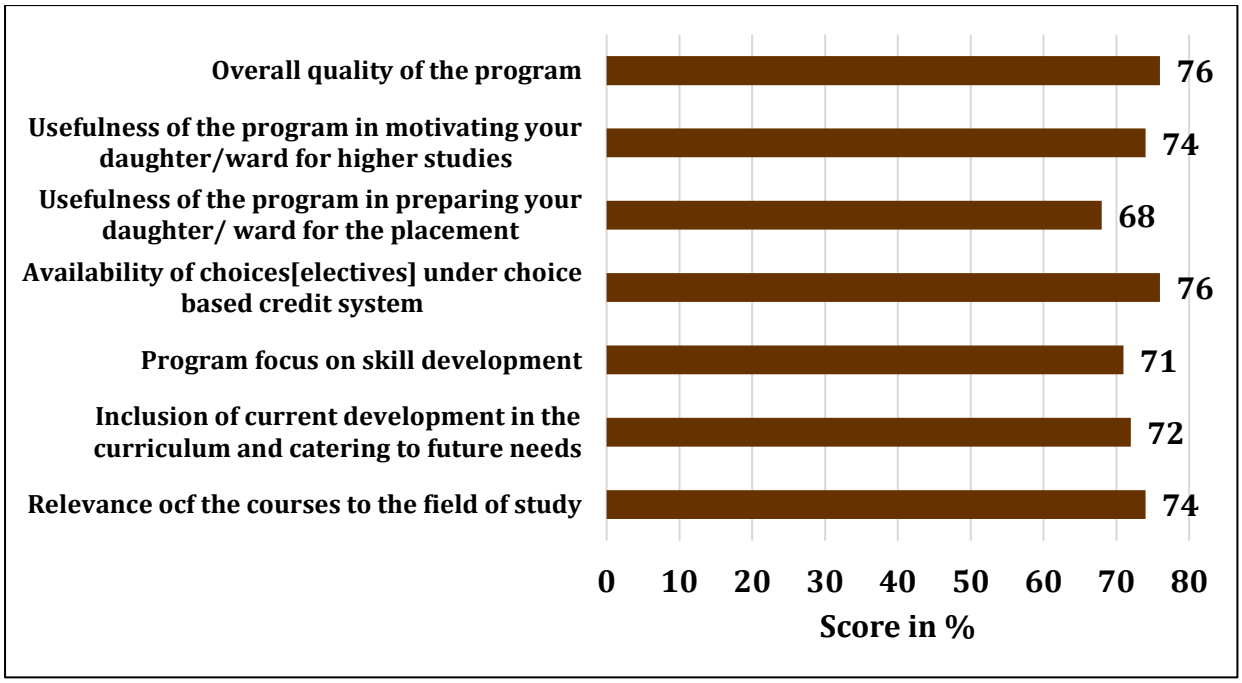
- Languages (my daughter is finding it hard to cope up with the compulsory language- Hindi. I don't find it necessary for second years)
- Nil
- Nothing
- Sports
- Business management
- Nil
- Simple things which has been elaborated briefly
- Nil
- Nil
- Nothing
- Extension activity

What changes do you suggest to improve the Curriculum?

- Nil
- Nil
- Exclusion of language
- Nil
- No changes
- Nothing
- Include internships as part of the course
- Extending lunch break time
- Nil
- It should be able to understand easily
- Nil
- Nil
- Nothing
- More work shop and seminar

* * * * *

III B.A. Corporate Economics



What was the most useful part of the Curriculum?

- It is very useful for upgrading for my daughter future studies.
- Skill development
- Degree and Graduation Knowledge
- Current affairs
- APPLICATION KNOWLEDGE
- Surely useful for bold communication
- She had gained more knowledge about economics
- Exposure
- Vast courses that provide both a theoretical and quantitative approach to the curriculum
- Conducting exams early
- Extension activity
- It helped her to develop her skills, figure out her strengths and weaknesses and also she was able to learn new things.
- Overall quality
- Scripture class
- different electives
- Exposure to different fields
- Relevance of the course to field of study
- Nothing
- Skill Development and Placement
- Program focus on skill development

- Nothing much.
- Economic knowledge
- Teaching
- Some basic knowledge about the field she is pursuing
- Maths
- Knowing the basic and advance concept of the subject
- Responsibility in studying and learning new knowledge everyday
- she was able to open up and speak
- Details of course in curriculum are clear
- Study
- Studying economics helped my daughter gain the necessary skills so can understand how economic markets around the world work.
- Skill development were nice, it is something new to improve other skills also.
- Usefulness of the program in motivating my daughter for higher studies
- Everything
- Econometrics
- NME classes

What was the least useful part of the Curriculum?

- There is no least useful part of the Curriculum.
- Lesser In Strengths not Developing
- Everything is the most significant role
- The best in punctual
- Nothing much
- Not regular
- Lack of cse courses
- NSS is not active like it was before
- Instead of language in second year should have concentrated in any core subjects
- Availability of choices
- Language till 2nd year, could be used to study other skills relevant to the course.
- None
- Nil
- Nothing
- NA
- Nothing
- Language and English for two years it would've been better if it was for one year.
- Nothing much.
- Practice approach
- Nothing
- Number of placement programs
- Accountancy
- Subject is fully based on theoretical
- None

- Nothing
- Less exposure to real life problems solution.
- Sports
- Nil
- Everything
- Language

What changes do you suggest to improve the Curriculum?

- Special classes in semester exam times .
- add in more practical modules used in daily life eg: filing taxes on their own
- Should SPEAK English in The Classrooms
- INTERNSHIP
- Want to change the clg time in evening
- Nothing much
- Give space more
- Since most actuarial and economics degree holders are now expected to know a computer language, basic classes on coding could be an elective.
- Permission to leave college when student parents are not able to come
- Emphasis on more core subjects from 2nd year itself
- Remove the extra language requirement till 2nd year to 1st year
- None
- Nil
- Increase more water tanks
- None
- No changes
- Could've made the final semester courses split up by having some subjects in the previous semester, so that the burden and heaviness wouldn't have been heavy on the final semester which is of very few months. And also the concept therefore would've been learnt in depth rather than just rushing it in the last semester.
- Nothing much.
- Internship and practice education
- Nothing
- Practical experiences
- Add more elective subjects
- None
- None
- CIA exams can be kept with some gap because they are becoming so stressed. that is a small suggestion.
- More skill based electives for curriculum.
- No else
- It might be little more good to teach practical aspect of applying the learnt economics in work
- Nil
- Nil
- Dismiss language.

* * * * *

B.A. Corporate Economics

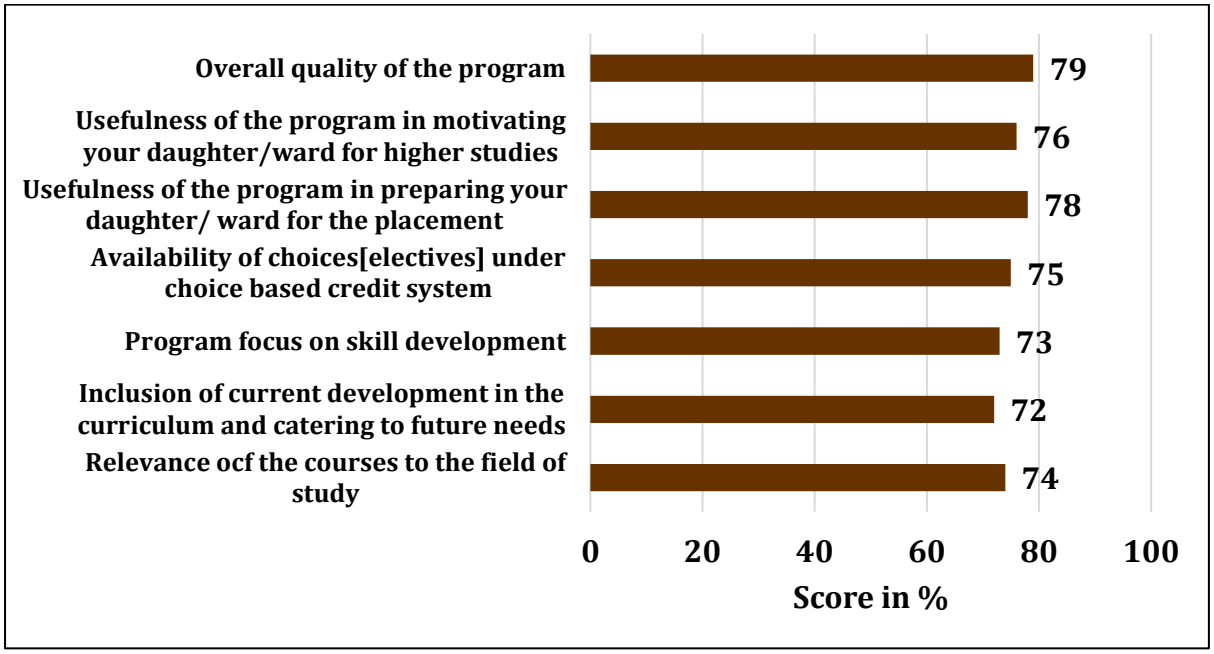
Action Taken Report

The parents have requested for skill papers and internship. More skill papers would be introduced and internship has been made compulsory for the 2022 batch.

* * * * *

Parent Feedback on Curriculum
February 2023

I B.Com.



What was the most useful part of the Curriculum?

- Improved in core paper
- QABD, Accounts
- SUBJECT ORIENTATION
- Usefulness of the program in motivating your daughter/ward for higher studies
- How to manage the work in work place... Good communication skills... learning extra knowledge for future .. Creativity ...
- No
- It's useful for the future placements
- The most useful part of the curriculum is they succeed in accounting and finance field
- OVERALL QUALITY OF CURRICULUM
- Teaching
- Couching and placement
- Overall quality of curriculum
- Coaching and placement
- Coaching and placement
- Developing skills of my daughter
- Teaching
- More workshops have been conducted.
- Accountancy
- Some subject are relevant and it is useful

- Library
- Syllabus
- Studies improvement
- Enhancement of subject skills
- More knowledge can had
- Management process
- Syllabus is helpful for their higher studies
- Usefulness of program in preparation for placement
- To gain knowledge about the subject
- Motivation
- Usefulness of the program
- Using mobile phones
- Usefulness of the program in preparing your daughter/ward for placement
- Overall quality of the curriculum
- Program focus on skill development
- To achieve the future needs
- Coaching

What changes do you suggest to improve the Curriculum?

- Nil
- Nil
- Nil

- Nil
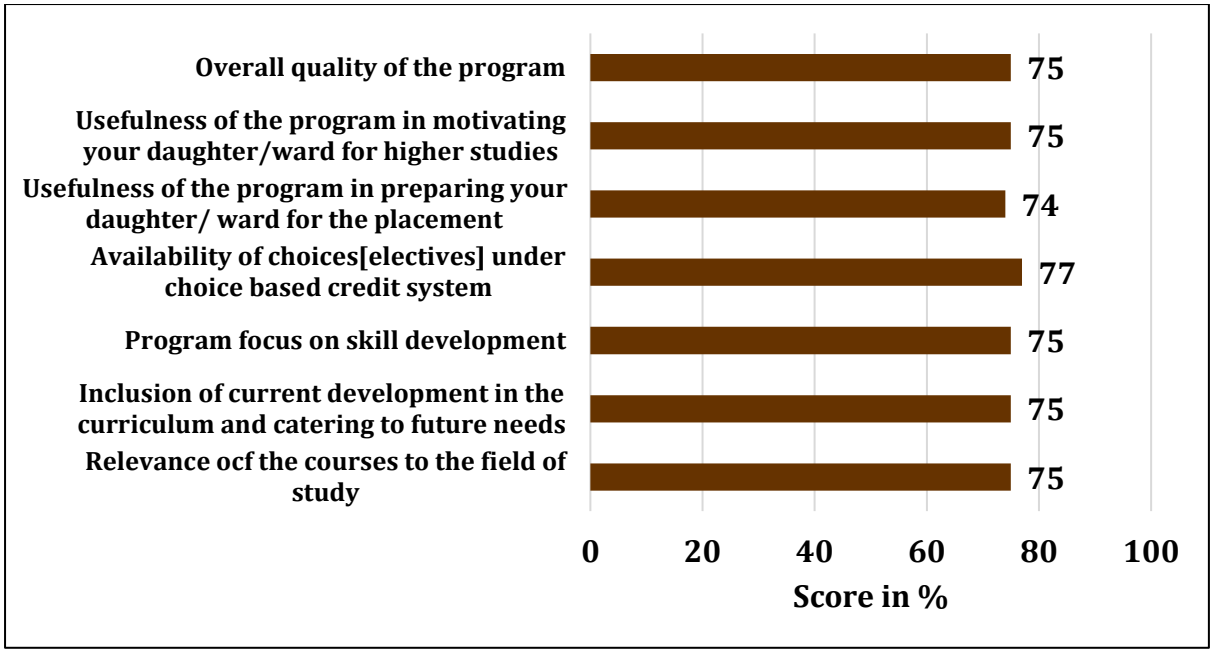
- Increase break time.
- Extent the break time
- Extend the break time for students
- Usage of phone (emergency purpose)
- Assign qualified teachers in relevant courses
- More practical components. Maybe make the periods shorter and extend the recess.
- Nil
- More practical classes can take place
- Extend the Break time
- Nil
- Extend the break time
- Can conduct extra assessment and can improve placement opportunities for students and can guide the students for good career
- Suggesting more placement opportunities
- Extend break time to half n hour instead of 15mins.
- Qualified teachers in relevant courses
- Recruit professional teachers
- Provide subjects that are of relevance to the course
- Better subject materials
- Nothing
- Extend break time
- Qualification of teacher in relevant course
- It's good
- Increase break time and reduce each class hours from 1 hour to 45 mins.
- Qualified teachers for the relevant courses.
- Increase break time
- Extend the break timings
- Increase break time
- Nope

* * * * *

III B.Com.



What was the most useful part of the Curriculum?

- Overall quality of the degree program
- Wider knowledge about the course
- The subjects taught.
- Nil
- None
- Exchange program
- Overall quality of the degree program
- Learning everything that will be useful for the higher education
- Motivating Professors
- Presentations and project's
- Everything is good
- Campus placement
- Semester Exchange Program
- Practical and skill oriented assignments.
- Involvement of students in taking up the initiative to conduct events
- CURRENT DEVELOPMENT AND FUTURE NEEDS
- Practical learning and internships
- The teaching was good
- Practical paper
- Though her how to follow the decorum and follow her dreams.
- Overall quality of the degree program
- High quality of education
- Getting feedback
- Learning

- Must be the Income Tax because it helped her in knowing how to file Taxes.
- She developed her soft skills and got motivation to study further.
- Focusing on skill development & extra courses
- Accounting and Income Tax papers, Marketing & Research, Tally software
- All part is useful
- Quality education
- Knowledge and skills
- Income tax
- Campus placement from top companies
- Supportive to the students
- Programmes
- Overall quality of the degree program

What was the least useful part of the Curriculum?

- Nothing
- None
- Nil
- Nil
- None
- Nil
- Nothing
- Nothing
- None
- Nil
- Nothing
- I think Everything is useful.
- Focusing a little less on updated concepts.
- Nil
- Outdated subjects
- Nothing
- Theory paper
- Didn't gave chance for students how are interested in doing project.
- Nothing
- Nothing
- Nil
- She found Value and Ethics the least useful.
- Nil
- Nil
- Nothing
- Nothing
- Nothing, everything was been useful
- Nil

- Nil
- Nil

What changes do you suggest to improve the Curriculum?

No changes
- More interactive classes
- More practical means
- Need more Placement training
- None
- Nil
- Nothing
- Improvement in Placements
- Nil
- Nothing
- More training for the students who are preparing for campus interview. For example training classes for interviews and aptitude test.
- Nothing
- Having interactive and case study based sessions.
- Compulsory on the job training
- FURTHER ENHANCEMENT TO COMPETE IN GLOBAL LEVEL
- More experiential learning required
- Nothing
- Focus more on practical
- Project should be made mandatory for all students not just for a selected students in the class.
- Skill improvement is needed
- Nothing
- No
- Nil
- Class test weekly
- More practical based learning
- Nil
- Practical method of teaching can be given.
- No idea
- More practical activities like industrial visit, compulsory internship
- Nil
- Helping them to implement their knowledge in real life (practical knowledge)
- Nil

* * * * *

Action Taken on Parents Feedback – March 2023

Most parents have expressed satisfaction with the curriculum offered by the department.

Suggestions

I Year

- Subject Related Activities

Public Speaking and Group Discussion sessions were organised for the course on Professional Communication

II Year

- More practical component
- Required Qualified Faculty

A one day session on GST Practitioner Training was conducted on 23rd March 2023 for practical exposure on GST.
Guest faculty appointed for one semester had no teaching experience. Students said that her teaching has improved.

III Year

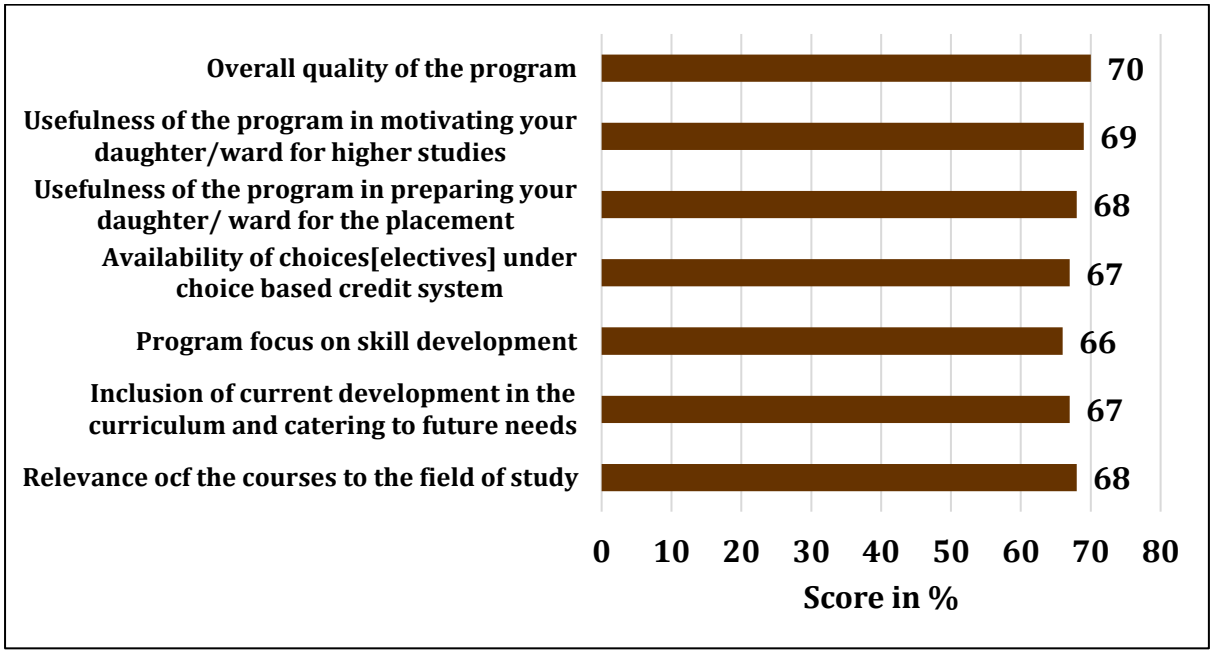
- Placement Training
- Compulsory OJT
- Practical Training

Workshop on Interview skills was organised as requested by students to help in placement.
OJT is compulsory from 2021 Batch
Practical training sessions on Stock Market & Income Tax Practitioner training were conducted

* * * * *

Parent Feedback on Curriculum
February 2023

I B.Com. General



What was the most useful part of the Curriculum?

- Nil
- Preparing for placement
- The workshops being conducted in college
- The most useful part is, it motivates the students for their higher studies.
- Nil
- Workshops
- Developing various skills
- It helps in overall development of the ward
- Program focus on skills development
- Compulsory physical education
- Value education
- Academic part
- Skill development
- Placement
- Entrepreneurship program
- Developing the student's communication skills.
- Skill development
- Good theoretical knowledge
- Workshops
- Able to develop the Potential of the students

- Continues internal assessment
- Internal exams
- Good career placement in WCC
- Nil
- Sports
- The way of teaching is very good in this college
- Sports
- How can I answer for this?
- Exam's
- Banning of phone
- Banning of using mobiles
- Improvement in speaking of language
- It motivate my child for the future studies
- Workshops
- Inter collegiate activities and clubs
- Sports
- It helps to aware of certain information in the society aspects
- Advanced coaching
- Gained Knowledge
- Overacting quality of the degree
- Nil
- Focus on skills
- Covering and gaining overall knowledge
- Experience

What was the least useful part of the Curriculum?

- Nil
- Nil
- Nil
- Nothing
- Intercollege culturals
- Physical activity
- Getting the knowledge about the course
- NIL
- Overall quality of the degree program
- Nil
- Nil
- Motivating
- Nil
- Strict action in usage of phones.
- Nothing

- Giving more credit based courses
- Nil
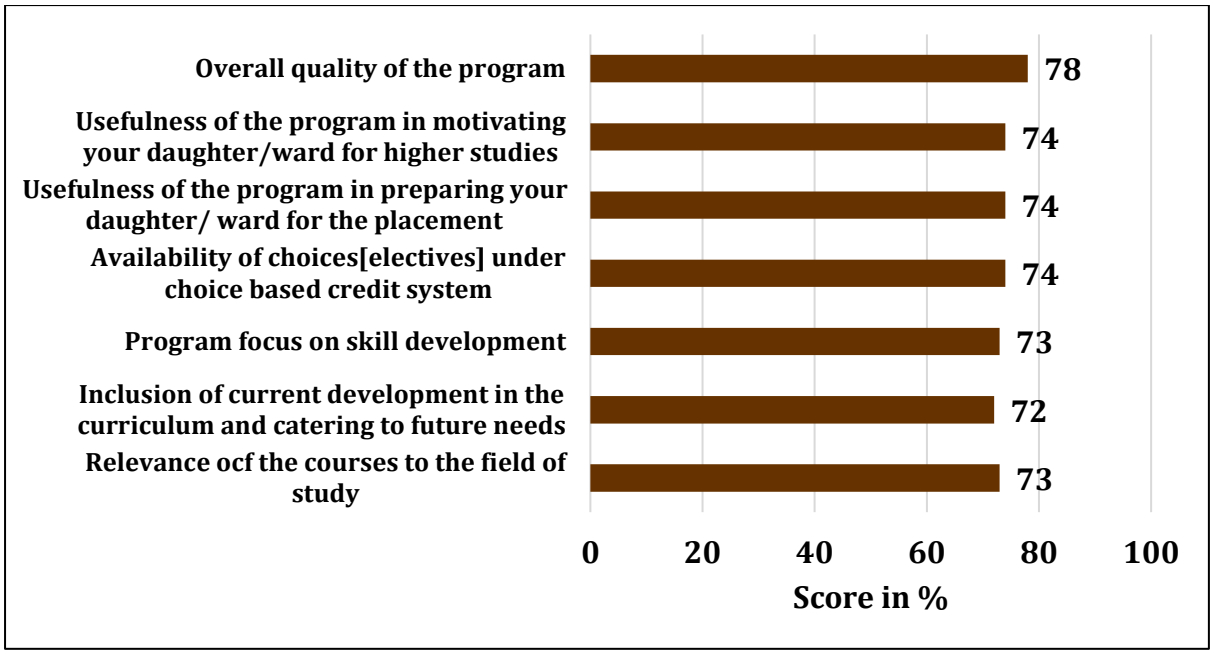
- Increase the break. Time
- More break time
- Nil
- Nil
- Timings of the college
- Increase break time
- Nothing
- Kindly increase the break time to 30mins
- No suggestions
- No suggestion
- Turning lecture's into practical sessions.
- Nil
- Increase the break time
- Nil
- Improve Placement and interview training programs.
- Better conceptual brief teaching and friendly behaviour of teachers towards students . Timely sharing of information by teacher.
- Some practice of work. More internships.
- No

* * * * *

III B.Com. General



What was the most useful part of the Curriculum?

- Placement
- Program focus on skill development
- Core subjects were related to the field.
- Skill development
- RESTRICTION FOR BUNKING OF COLLEGE
- Availability of choices (Electives) under Choice Based Credit System
- Usefulness of the program in motivating my daughter...
- Good teaching
- The teaching and other activities are good in the campus
- Industrial visit
- Skill development
- STUDY
- Make her come out of her comfort zone and training her to use the skills efficiently
- Every part in the curriculum is equally important especially the Accounts part where students gain practical knowledge through working out sums....
- Teaching
- Broad coverage of the subjects
- For placement opportunities
- Placements and Higher education awareness programs
- Practical classes
- Accounts and current affairs
- Relevance of the courses to the field of study

- The most major part of the curriculum which makes the students to engage in their studies and help them to understand the concepts, as it gives them the knowledge and confidence to enter into the practical world.
- Extension activities.
- Industrial visit
- easy to understand
- Motivating and guiding the students about career
- The most useful part is that the students can understand the concepts easily and help them to grow and to improve their knowledge.

What was the least useful part of the Curriculum?

- Program focus on skill development
- Nil
- Core elective
- Nil
- Nil
- RESTRICTION OF USAGE OF MOBILE PHONES
- None
- Nil
- Notes
- Nil
- Nil
- Nil
- STUDY
- Guiding
- Latest and advanced courses could be included
- Nothing
- Less focus on skill development
- Only theoretical knowledge
- Nil
- As of now it's going on well.
- NIL
- Nil
- Nothing
- Nil
- As of now it's going well

What changes do you suggest to improve the Curriculum?

- Syllabus doesn't cover the current affairs of subjects. So i suggest to include it.
- Nil
- Can give options for the students to select their supporting / core electives based on their career field they choose. (For all the three years)
- Updated information on syllabus

- Nil
- Nil
- EVEN MORE BEST TEACHERS CAN BE RECRUITED.
- None
- Change the timing of shift 2 as 4.30 pm. It's too difficult to reach the home by facing the eve traffic
- Kindly don't collect more money for fees.
- Nil
- Nil
- Nil
- Nil
- NONE
- Increase lunch time decrease college hour
- College dispersal at 5 pm for ease of my child. 5.30 is actually busy with traffic
- Nothing
- I suggest setting the syllabus more relevant to the degree and also I suggest it be updated
- Inclusion of updation in the fields
- To change the curriculum according to the recent trends
- Leave clg at 4.30
- Nil
- Give them coaching to clear placements
- Nothing much but motivate the students to get involved in various activities. Thank you
- NIL
- Nil
- Nothing
- Nil
- Nothing.. it was good.

* * * * *

Department of Commerce (General)

Action taken for Parents Feedback 2022-23

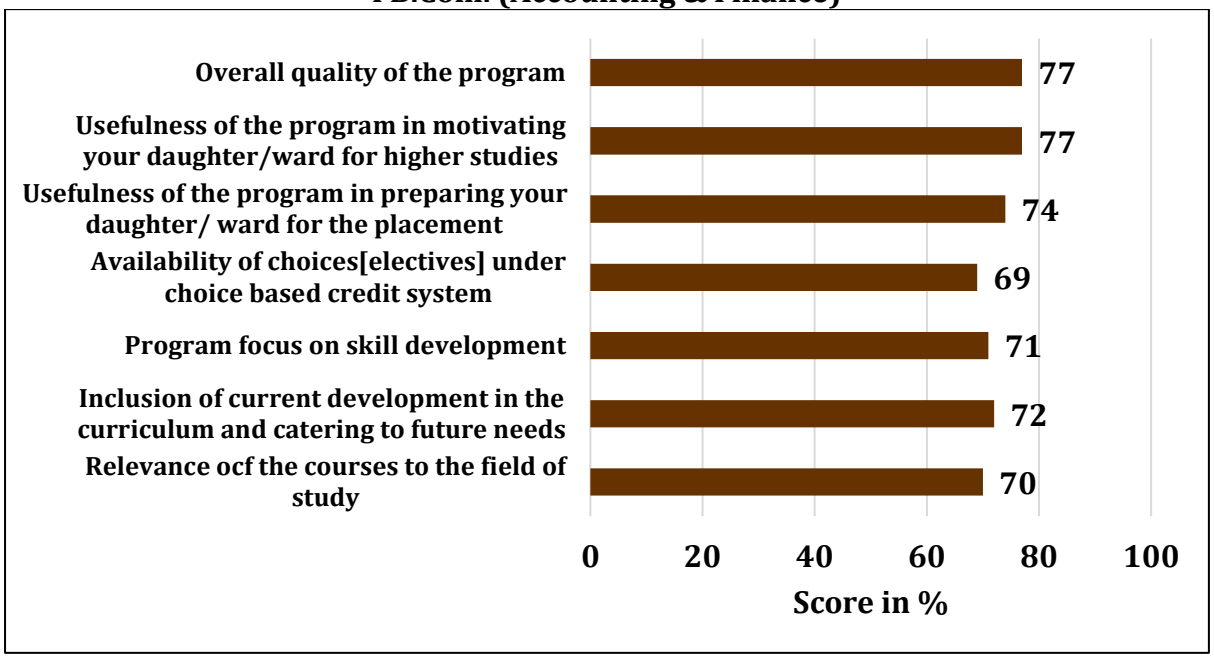
1. We update our curriculum from time to time to ensure quality education with prescribed books for study.

2. Introduce more skill based courses with more field work for the students to gain more exposure.

* * * * *

Parent Feedback on Curriculum
February 2023

I B.Com. (Accounting & Finance)



What was the most useful part of the Curriculum?

- Useful of the program in helping the candidate work harder on her studies
- Getting more new informations
- THEY CAN LEARN THE OUTER WORLD THROUGH THE STUDIES ITSELF
- Enhancing and motivating her in career path.
- It is useful in many ways especially in studies
- Teaching
- Teaching
- Studies
- The facts and methods of delivery for a learner
- Over all degree
- Education
- Get to know many things in my stream.
- Discipline
- Quality of education
- Learning new things
- Interactive classes
- Practical papers and good placement opportunities
- Developing skills
- Useful part is that the students are motivated to go to library for the reference of the core papers which is very useful
- I think the placement is the most useful part in the curriculum.
- Students were able to learn many new things by doing projects

- Quality of education in WCC
- Learnt new ways to communicate with others
- Seminar
- It is job oriented.
- To improve student's self-confidence, skills and talents
- The content and subject matter thought in the class and assignments given
- Library
- No
- The teaching
- The content which you teach the students
- I improved my vocabulary and skills
- My daughter is still in the first year and hence not quite sure yet.
- No
- Overall quality of the degree
- Relevance of the course
- Studies
- Inclusion of current developments
- Usefulness of the program in motivating my daughter for higher studies
- Providing quality education
- Program focus on skill development
- Learning new things about the current future scenarios happening in this world and new innovations
- Teaching
- Overall quality of the degree program
- Placements
- It helps to develop all the aspects of a learner.
- Improvement of English vocabulary And knowledge
- Preparing for placement
- Encourage the students to participate in any event.
- The way of teaching
- Everything was useful about this
- Studying
- All
- The students learn many new things while doing the projects, which helps them gain knowledge.

What was the least useful part of the Curriculum?

- Relevance of courses in the field of work
- Nil
- Pre notification were not given well before for the extra-curricular activities.
- Nothing
- Nil
- Faculty

- Motivating her to higher studies
- Studies
- Nothing
- Learning ability
- Teaching things irrelevant to the degree
- Nil
- Nothing
- Maybe the extension activities and others are non-useful parts as they do not add any credits to the academics. However, even interactive activates are essential for the growth of my daughter.
- Nothing
- Nothing
- None
- Nothing
- Students don't concentrate on studies
- Taking trips
- Physical education
- No
- Nothing
- Class test
- Nothing least
- French
- No
- Skill development
- Overall quality of the degree program
- Usefulness of preparing my daughter for placements
- Nil
- Nothing
- Nothing much
- Attendance
- Program focus on skill development
- Nothing
- Never neglect your career. It will not only pay your bills, but will give you an identity.
- Nothing least
- Nothing
- Sports
- Nothing
- Nothing is unuseful in this curriculum
- Nothing
- Nothing

What changes do you suggest to improve the Curriculum?

- Interact with candidates to know how much hard they can work and help them with it
- Nil
- NOTHING EVERYTHING IS PERFECT
- Conduct some mockup fieldwork internal or external to improvise the learning skill in regular basis.
- Nothing all is good
- Nil
- Everything is good
- Conduct More events and programs
- try to figure out the students ideas on their curriculum
- Credit system
- Nothing
- Need more practical sessions
- Apply useful strategy
- Overall quality of the degree program
- Remove value education
- More work shop
- Can update current affairs and give more practical explanation for theory papers
- Provide cls with advanced technology
- We would suggest that students maybe given opportunity to conduct seminars to have more exposure to the subject
- I think the performance of the curriculum is good. Maybe improving the skill development of the students will bring a lot of improvement in the curriculum.
- Nothing
- To conduct various programs to develop the skills of the students
- Teacher has to more practical and has to interact with the students
- No changes required
- CA based syllabus can be add to the curriculum
- Give students some space and obtain their opinion
- NIL
- no
- Nothing
- Can give more projects
- To interact more with the students about the curriculum
- The books prescribed are outdated and hence Please include the Latest books, latest case studies.
- No
- Motivating for higher studies
- Nope
- Conduct more events and programs
- More motivation needed
- Nil
- Improve the study material so that students could learn and understand about the concepts and gain more knowledge

- Nothing
- More practical basis learning
- Re-evaluate goals or objectives
- Nothing
- Need for more Practical knowledge
- Add some core subjects
- Nil
- Everything is fine regarding studies.
- Nothing
- Needed more practical knowledge
- Nothing
- Nothing

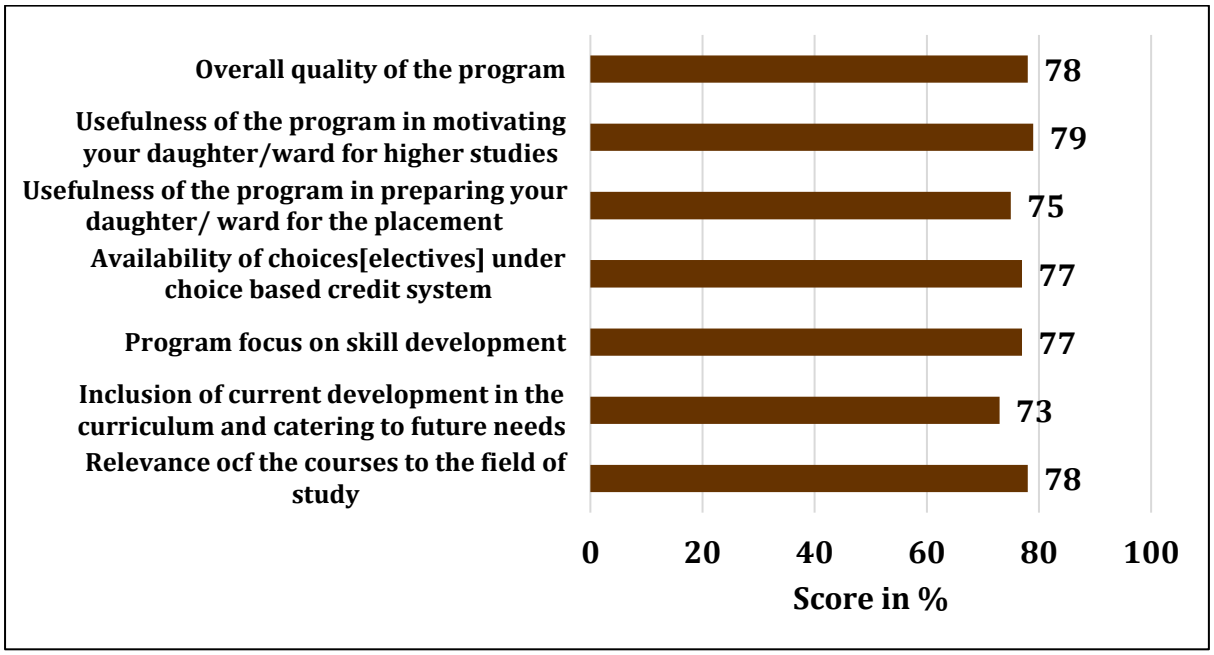
II B.Com. (Accounting & Finance)



What was the most useful part of the Curriculum?

- Accounts
- Promoting great involvement of students in their assignments
- Placement
- Relevance of the courses to the field of study
- Giving related assignment
- Program on skills development
- Teaching accounts deeply
- The way of teaching
- Choice based credit system
- Availability of choices (under electives)
- Lecture
- Discipline , assignments
- Account's
- Nothing much ...
- None
- Presentations
- Almost everything
- exposure
- Credit system
- Higher studies
- It's open the door for collaboration
- Syllabus
- Lab, Library and computer resources are the most useful part of the curriculum

- Discipline and coaching
- Availability of choices
- Punctuation
- Getting knowledge about the field and it's scope in the market
- They are able to learn new things
- Projects and seminars
- To develop better learning platform
- Accounts and commerce
- Placements and training the students for placement is really useful.
- Accounting
- Usefulness of program
- The most useful part of the curriculum is getting experience how the system works.

What was the least useful part of the Curriculum?

- None
- Nothing
- Resources not available
- Teaching in practical way is less
- Nil
- I think NME
- Higher study program
- Program focus on skill development
- Nil
- No
- Nothing
- None
- NME
- Nothing
- Nil
- Social and cultural
- None
- Not found
- NA
- Nil
- 85 percentage of attendance
- Nil
- Since manual book keeping is not followed in most organisations, digital maintaining of accounts should be given more importance. Only basic tally was taught which is not sufficient nowadays.
- Placement Preparation
- Nothing
- None

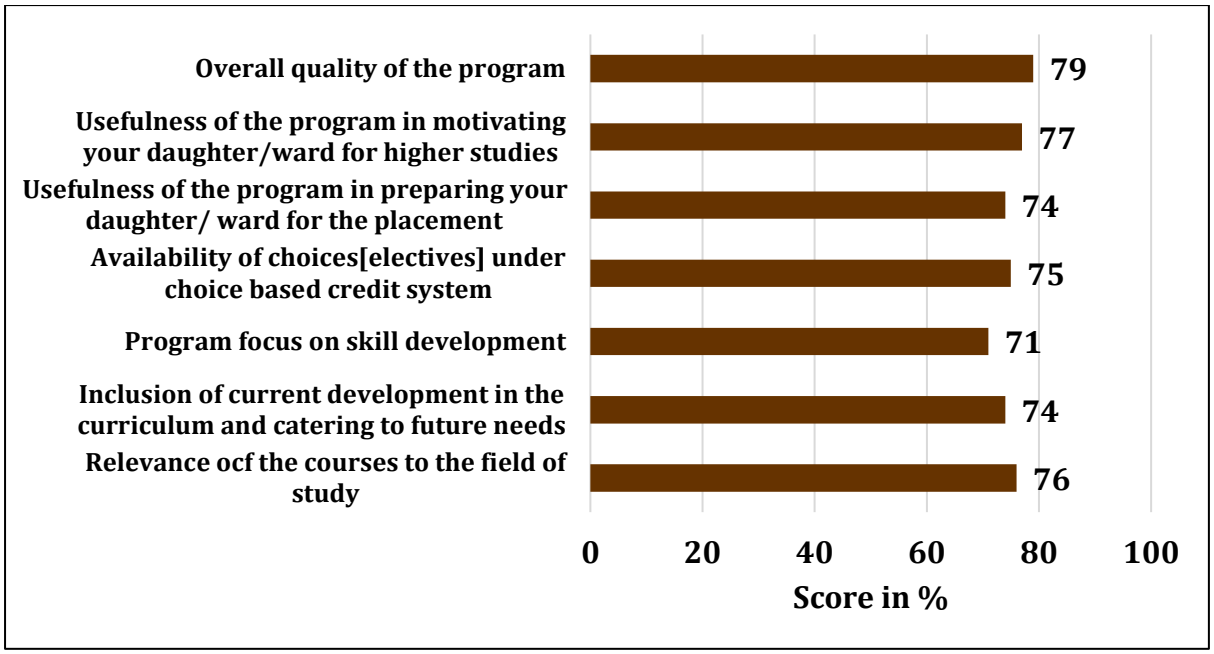
- Nil
- The least useful part of the curriculum, struggling how to face situation related to interview session.

What changes do you suggest to improve the Curriculum?

- None
- Nothing
- Suggest more books for reference. Needs to be more informative.
- Increase practical way of teaching
- Nil
- To focus in the area of finance a little more
- Conduct more training programs regarding placement
- Nil
- Weekly or periodic test prior to internal assessment
- Everything is good
- None
- Nil
- Nothing
- All good
- Make them to understand the concept and provide them a good sanitation .
- Job trends into consideration
- More practical sessions
- Regular tests required
- Na
- None
- More events organised
- Conducting some more workshops and events
- Nothing
- Would like to see more of practical application in theory subjects.
- To have more projects, placement related ideas and also expansion of practical classes rather than theory
- Everything is good
- More focus on skill development
- Regular class to be conducted
- Getting opinion from students

* * * * *

III B.Com. (Accounting & Finance)



What was the most useful part of the Curriculum?

- Teaching
- Having extra-curricular and extension activities.
- According to me , income tax being a core subject is very important as it's applicable in day to day life and is being given more importance
- It helps make sure daily teaching has a larger purpose.
- The subjects for each semester is really good
- Accountancy, management studies
- Learning inter College competition and library
- Career options
- Skill oriented
- Studies
- Placement
- Skill development program
- Education
- It provides information that are relevant to my daughter's higher education
- Placement
- Overall quality of the degree program
- It has provided deep practical knowledge about the course.
- Program focus on skill development
- Good placement and guiding the students towards higher studies
- Good source of knowledge
- Choice Based Credit System
- Accounts
- Technical questions

- The education system
- Placement
- Quantitative subjects
- Internship
- Value education (TAFTEE)
- Degree program
- Chapel one of the most useful place
- Diversity of the course curriculum
- Learning the extra activities
- Everything
- Teaching
- Test, assignment
- Subjects weightage are good
- Focus on skill development
- Program focus on skill development
- Teaching
- Choice of subjects.
- Skill development
- Teaching
- Not heavy and best to the student career
- Program focus on skill and development
- The students education and giving them more activities to gain knowledge
- The subjects are relevant to improve her knowledge towards the future career and to become expertise in accounts
- Knowledge regarding that
- The monthly tests
- Placements

What was the least useful part of the Curriculum?

- Nil
- The curriculum is set in an apt manner and I'm sure it was useful to my daughter.
- Less material is provided
- Nothing
- TAFTEE
- Not applicable
- Relevant courses
- Theoretical part
- Nothing
- Nothing
- Nil
- Nil
- Want more programs based on courses n get more information based on tht
- Nil

- Nothing
- Sport's
- Nothing
- Nil
- Theory
- None
- Nothing. Everything is useful.
- Value ed, life skill. It was not focused on the topic but just in completing assignments for internals.
- Attendance
- Nothing
- Nothing
- None
- Nothing
- Campus recruitment
- Nil
- Nil
- Nil
- Nothing
- Nil
- Faculties
- Sports
- Nil
- Nil
- the necessary goals, methods
- Nil
- Nothing
- Least interactive sessions between the students
- None

What changes do you suggest to improve the Curriculum?

- Nil
- To have inclusion of updated trend if syllabus related to their field of study.
- I think the college should bring in more practical examples teach students how to file returns pay gov bills all this should be made compulsory for betterment of the student
- No changes
- None
- No comments
- Changes in relevant subjects related to the course
- Nil
- Internship
- Nothing
- Nil
- Nil

- More programs tht includes students interest towards the higher opportunities in this courses
- Nil
- Nothing
- To extend break time
- Can increase the timings of break
- Nil
- Keep train the students with updating kills, please give English knowledge to Tamil medium students they are scare to speak so increase that particular person English knowledge they can't able to speak in English in their interview. They have ideas but they not able to speak. otherwise WCC is the one of the best college I have seen.
- None
- Nothing
- Nothing.
- To give attendance correctly
- Ban on mobile phones
- Nothing
- Updated curriculum, focused on the present market requirements..
- Break timings can be extended
- Nothing
- Increase the break timing
- Nil
- Nil
- Nil , very thing is fine
- No suggestions
- It's fine already
- Nil
- Appoint best teacher...for the course.
- Improve break timing
- Nil
- Ntg
- To give more development process and placements guiding them.
- Nil
- Nothing
- To add some extra curriculum for final yr students
- Better teaching style

* * * * *

DEPARTMENT OF COMMERCE-AF

PARENT FEEDBACK - ACTION TAKEN REPORT

Majority of the parents were highly satisfied with the present curriculum and they were much appreciative about the placement records. In general, they were convinced about the courses offered.

Certain initiatives are taken to customize the courses to the needs of the students.

For I Years:

- Compulsory Internship
- Encourage Presentation

On perceiving the positive impact of Internship on students it has been made compulsory and extra credits are allotted for it. To foster their ability to work in groups and to hone their communicable skills, they are encouraged to present their assignment in groups before the class.

For II Years:

- Case studies
- Active participation in Seminars and Conferences

On observing how analyzing a case study by the students, helps them gain practical knowledge of the concepts studied, it is given as an Assignment which would be considered for their Internal Assessment Marks. Moreover, students are insisted to take part in various Seminars and Conferences held across institutions so as to ready them to meet the demands of the industries.

For III Years:

- Briefing on higher studies
- Analytical papers

On discerning, the larger part of the students have an inclination to pursue higher studies, industrial expertise are invited to address their quest and provide them a fair idea of the benefits of each stream and institution in India and abroad. To top it all, to have an edge over others in terms of employability and to gain admission in premier institutions, emphasis is laid on analytical papers which enhances their analytical skills.

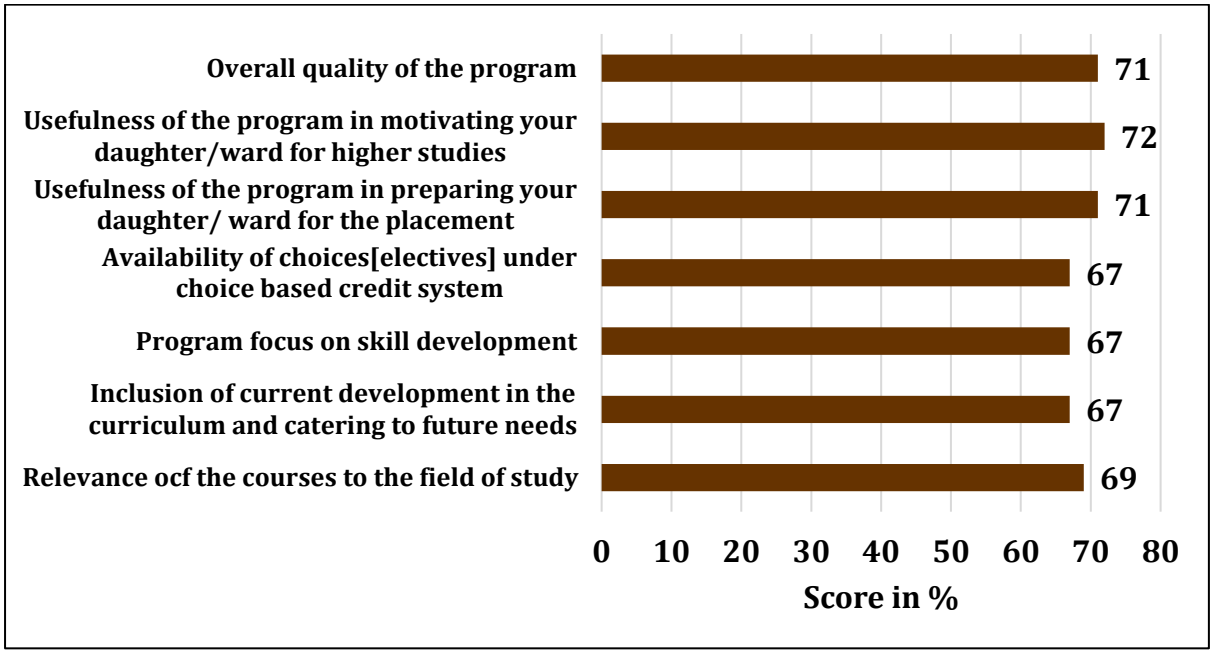
Parent Feedback on Curriculum
February 2023

I B.Com. Computer Applications



What was the most useful part of the Curriculum?

- Accountancy
- English the communication skill development subject was usefully
- Taking effect to give best learning for each and every child and get good marks
- Ward for placement
- Improvement of english
- Overall quality of the degree program
- She can study both accountancy and computer at the same time rather than studying it individually as a separate course
- Program focus on skill development
- Giving proper education is the most useful part of the curriculum
- Conducting workshops for the students to get an actual idea of the outside world
- Availability of choices
- Useful for future
- To know the needs of the course of my daughter
- It gives much exposure to the student
- Accounts
- Teachings about accounting as well as computers
- ALL
- Coaching
- Giving revisions

- NME and computer are useful subjects
- Teaching
- COACHING
- Usefulness of the program in preparing for placements
- Academic events covering various useful topics, including employability skills development.
- CIA
- Motivation
- Relevance of the course
- Seminars
- Internships
- Studies
- Physical education class
- It improves ability to learn new things
- None
- Tests
- Useful part of the curriculum is that it increases the thirst of learning what's new in technology.
- Giving my daughter proper education
- Nothing
- Helping out her to learn new things
- Giver my daughter good education
- Seminars
- Studies
- Overall quality of the degree program
- Education part
- Financial accounting and computer courses
- Subject are very excited
- Work experiences
- The useful part of the curriculum is Good education and Sports
- Developing in students discipline
  Motivating students
- Learning skills
- Computer
- It gives great support to achieve the goal
- Coaching
- Modifying the course according to current needs
- Class tests
- INTERACTIVE SESSIONS, SEMINARS
- Interactive sessions
- Focus on skill development
- Accounts was useful

What was the least useful part of the Curriculum?

- Nil
- None
- No
- Availability of choices
- Sports
- Nothing
- Relevance of the courses to the field of study
- The least useful part of the curriculum is the syllabus is heavy
- 85% of the attendance
- Nothing
- Nil
- Some subjects are heavily loaded
- Tamil
- Physical education
- NIL
- NME
- Loads of work where students couldn't concentrate properly
- Theory subjects
- None
- All are equally useful
- It is not about the curriculum, but the learning methodology and knowledge pulse-check of students on the curriculum is to be further strengthened.
- EVS
- Assignment
- None
- English _intermediate
- CIA exams
- Nil
- Nothing
- I don't think there any least useful part of our our curriculum
- None
- Not repeating teaching
- I think that this degree may not teach much about the computer's programming language.
- Heavy syllabus
- Nothing
- I think nothing is there to say least useful.
- Heavy syllabus
- Maths
- Nil
- Inclusion of current developments in the curriculum and catering to future needs
- Taking extra time for extensions
- Tamil
- Sports
- Hobbies

- The least useful part of the curriculum is the Cultural activities
- Nil
- Nil
- Tamil
- Nothing
- Physical education
- Nothing
- Nil

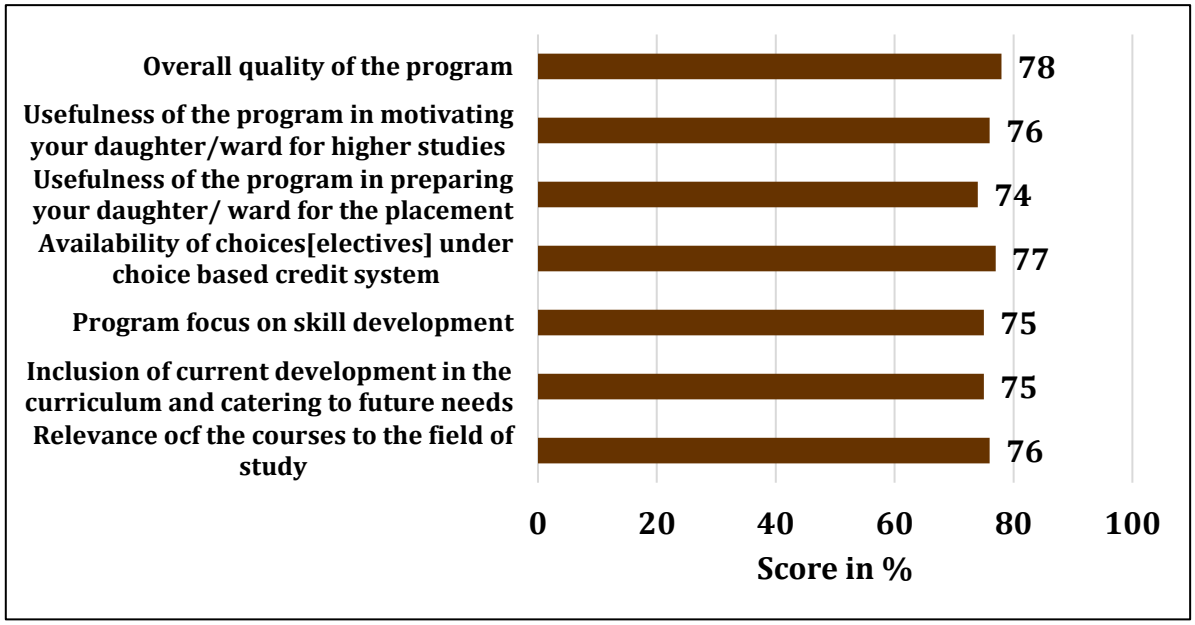
What changes do you suggest to improve the Curriculum?

- Kindly include many extra courses like general knowledge.
- Friendly Teachers to teach there subject
- Timing 1 p.m. to 5:00 p.m. college timing so that other child can learn at home so early year because of the timing the children is there coming late to home so that they cannot learn so you can keep coaching class for them before 1:00 p.m. or 12:30 p.m.
- Motivating my daughter
- Keep going like this
- Nothing
- Attendance
- To give home work and checking specially in accounts
- To reduce the syllabus
- Nothing
- Nil
- Inclusion of skill developed subjects
- Study well
- NIL
- Change of timing
- Make students to feel comfortable
- Too include practical related subjects
- Include class activities
- To make the ward to be more extrovert
- Robust academic performance monitoring of students, with individual attention.
- Can add more computer related subjects
- Timing of the college , Seminars
- None
- Contact more seminars to Students to increase her speaking skills more confidently thank you
- Avoiding.. going to other cls for languages
- Nil
- Nothing
- To develop subject contained
- None
- It's better to recall what they thought in last class. And conduct regular small tests
- College timings. Students may come from very long distance. So they have no time to study. so, change the timings.

- Reduce syllabus
- Nothing
- Nothing.
- Reduce the syllabus
- Allocating home works
- Nil
- No
- To change the timings
- Provide better material for students
- Evening shift
- Make it in single page
- To improve the curriculum is to give more coaching to the students and more extra curricular activities
- I suggest the college to maintain the same discipline which is following now
- Nil
- Make it more practical
- Nothing
- SUBJECT BOOK REFERENCE
- Giving more study material
- Placement extended with more good companies
- Better subjects to be included like programming languages

* * * * *

II B.Com. Computer Applications



What was the most useful part of the Curriculum?

- Motivating for higher studies
- The curriculum is tests , assignment which are conducted
- Python and accounts
- Program focus on skill development
- Motivating for higher studies
- Gain more knowledge about computers
- Program focus on skill development
- Discipline
- Gaining knowledge
- Program focus on skill development
- Class test
- Program focus on skills development
- The curriculum is useful and is providing knowledge needed in the present
- Aim
- Tally, company law
- Students gets to acquire atmost knowledge
- Helps in goal setting
- Usefulness of the program in motivating my daughter for higher studies
- Tally, python
- Very easy to learn
- Usefulness of the program in motivating my daughter for higher studies
- SKB
- Tally python

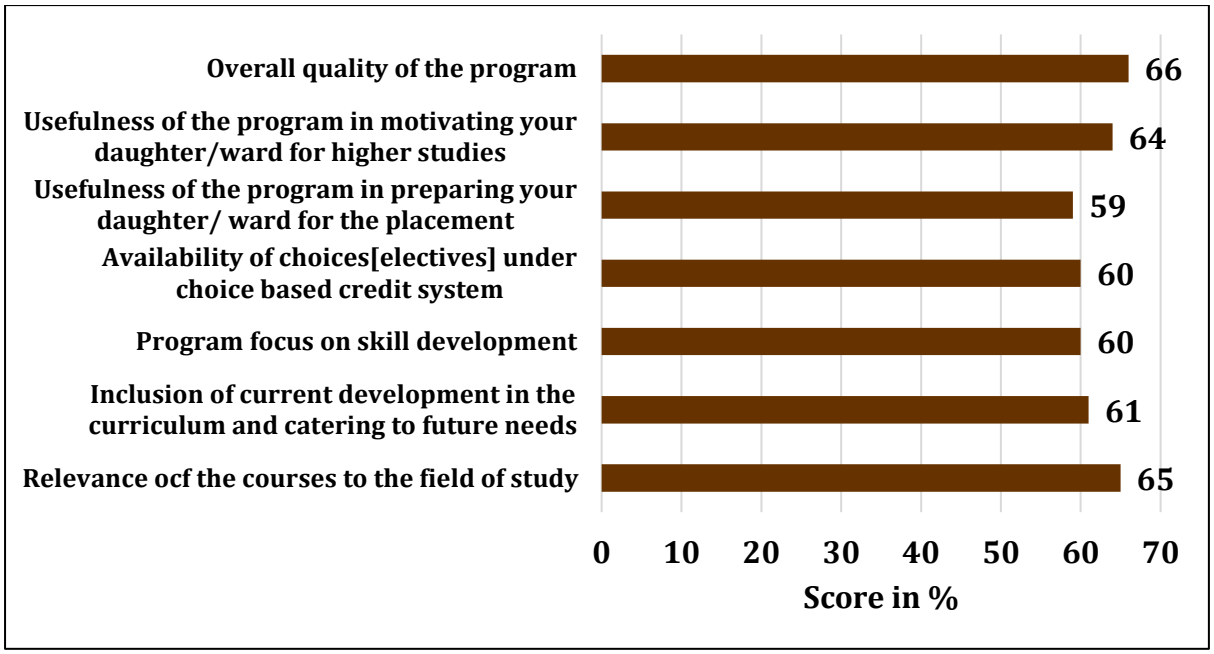
- The course are updated according to the trend of that year
- Self Enrichment
- NSS
- NSS club, programming language
- Small quiz and CIA test
- Keeping CIA tests and inculcating programming and developmental skills among the students
- Class tests and assignments
- Small quiz and class tests
- Python and tally
- Computer base knowledge
- DISCIPLINE
- Gains more knowledge on computers
- Keeping CIA test
- All things
- Extension activities
- Motivating for higher studies
- Gaining knowledge
- Class test

What was the least useful part of the Curriculum?

What changes do you suggest to improve the Curriculum?

* * * * *

III B.Com. Computer Applications



What was the most useful part of the Curriculum?

- Good understanding
- English at workplace was very useful. I felt that it made my daughter realise how to speak and behave professionally in a workplace.
- Placement
- Digital media
- Good course has been offered
- Everything
- Computer based accounting
- Good in teaching
- Gaining spiritual as well as subject knowledge
- Learning
- Updation of book
- Learning
- KNOWLEDGE
- Everything
- Gaining of knowledge
- Way of teaching of portions
- Preparing for placement and higher studies
- Digital media
- Nil
- Gaining more knowledge by inviting them
- Learning new concept is useful part.
- Education and discipline
- None

- The updates of the books
- Learn bit extra computer programming knowledge
- Digital media
- Good way of teaching should be improved
- Computer Applications
- Gained Basic knowledge in commerce as well as computer science
- The reliability and the accuracy
- Provides practical knowledge
- The subjects are catered to the work place its actually useful in real life
- Getting more knowledge about studies along with related aspects and also extracurricular activities
- Learning
- Everything

What was the least useful part of the Curriculum?

- Nothing
- I didn't find NME Tamil very useful. I felt it was just waste of time. Students could have done a better subject related to their course. Or they should have been given an option to choose Tamil or any other subjects like other students did.
- Nil
- Nothing
- No update in teaching
- None
- Nothing like that
- Time
- Nothing
- Nil
- Slow progress of coaching
- Nil
- None
- Nothing
- Extracurricular activities
- No updated version of the future escalations
- None
- Nothing
- Nil
- Least no of days
- Nil
- Slow progress of posting the attendance in the portal.
- Break timing is very less
  Needed to increase the break timing
- Old version of the books
- Nothing
- Nothing
- Teaching must should be more improve

- Nil
- Lack of Internships and projects
- Nil
- Develops managerial and basic skills of the student
- Useless assignments that make no time for the students to enjoy at all
- Lunch interval timing is very short period will expect half and hour for break
- Nil
- Nothing

What changes do you suggest to improve the Curriculum?

- Nothing
- They can have more like practical session or an educational tour related to the theory subject instead of just learning and writing.
- Nil
- No
- Change college timings
- None
- Want to give more practical knowledge
- Analytical skills
- No
- Nil
- Reduce the portion
- Nil
- With more knowledge and approachable teachers
- Nil
- Nothing
- More updates and practical learning should be done
- None
- No
- Rules can be changed for placement there is like the candidate can't attend the future placements if they missed any one placement to attend. Thank you
- Nothing
- No changes needed
- Nil
- Staffs needed to be friendly with students
  Break timing is very less ,so needed to increase the timing .
  Extra curricular activities are not been in a proper way ,so management needed to concentrate on that
- Should reduce portions and too much pressure on students!
- No
- No
- To reduce the assignments
- More of computer applications must be included.
- More exposure

- Nil
- More analytical skills to students
- Less assignments that make no sense
- 1. Break time to be extend to 30 mins from 15 mins
  2. Teaching with exact notes which the student have to study for the main semester examination.
  3. Conduct more class test before CIA exam
  4. Give assignments as not only written or typed but more practically like presenting with practical motives and ideas related to subjects."
- Nil
- Almost everything was covered

* * * * *

DEPARTMENT OF COMMERCE (COMPUTER APPLICATIONS)
FEEDBACK BY PARENTS-I YEAR

HIGHLIGHTS:

The overall quality of the program is **satisfactory** as it contributes to the following factors:

- **Motivates for higher studies.**
- **Preparation for placements.**
- **Availability of choices (Electives) under Choice Based Credit System**
- **The program focus on skill development.**
- **Inclusion of current developments in the curriculum and catering to future needs.**
- **Relevance of the courses to the field of study.**

- B.Com (Computer application) has both commerce as well as computer related subjects thus giving a wider scope for employment opportunities in the field of Commerce and Computer. The course bridging commerce and computer applications helped us to become smart and employable.

- Courses like Banking, Accounting, Fundamentals of Computer and Statistics were structured in an interesting manner, which gives an in-depth knowledge to shape student's managerial, accounting, quantitative, logical and analytical skills.

- Practical assignments helped the students to get an insight and a closer view of the real world applications.
- This programme emphasis on enhancing critical thinking, analytical skills, logical skills and programming skills of the students to sustain in the business environment and develops the student with employable skills, entrepreneur skills and professional skills.

- The syllabus and the papers are been updated every year based on the needs of the industry and on the recent technologies in computers.

- The course helps the students to pursue their higher studies in future.

- The course also helps to improve their professional and communication skills.

- Learner centric opportunities such as Seminar, On the Job Training, field trip, Eco-Exhibition, In-House Sale, Workshops and Bridge courses are provided to students for upgrading their skills.

REMEDIAL ACTION TAKEN

- ✓ Internships gave an exposure and bridged the gap between the academics and the outside world.

- ✓ An educational visit was organized for the III year students to Kodagu, Karnataka.
- ✓ Intercollegiate cultural was conducted which in turn enhanced the organising skills of the students
- ✓ Organized an eco- friendly event “Recreate – Best out of waste” to promote reusing and recycling of waste material to make useful and innovative products.
- ✓ To improve the Entrepreneurial skills, ideas and talent, students were encouraged to orgainse Entrepreneurship Stalls & Entrepreneurial Event**s** like Hawk Insights 2023.
- ✓ In order to make the students social responsible citizens, CSR activities were conducted.
- ✓ Industry visit to Sri Aurobindo Handmade Paper Mill, Pondicherry and Tamil Nadu Co-operative Milk Producers' Federation ltd at Sholinganallur was encouraging
- ✓ EVS Trip was arranged.
- ✓ The project submission helped the final year students to gain exposure to the outside world.
- ✓ Certificate courses are organized to add extra weightage to the student's profile.
- ✓ Creating industrial awareness for students by conducting guest lectures by the industry eminients and visiting industries
- ✓ To bridge the gap between Academics and Industry, students are encouraged to undergo compulsory internships
- ✓ Additional employability courses are conducted to enhance the skillset of the students
- ✓ As a part of holistic development, students participate in various curricular and extra-curricular activities on and off campus
- ✓ Conduct of remedial classes for slow learners
- ✓ Conducted curricular conferences, workshops, seminars and webinars.
- ✓ Encouraged students to present research papers in conferences
- ✓ Certificate course can be organised to add extra weightage to the student's profile.
- ✓ A compulsory paper on internship has been introduced in the syllabi, which helps the students to gain exposure to the real world.
- ✓ Additional certificate courses on Financial Modelling and employability skills were an extra weightage for career placements.

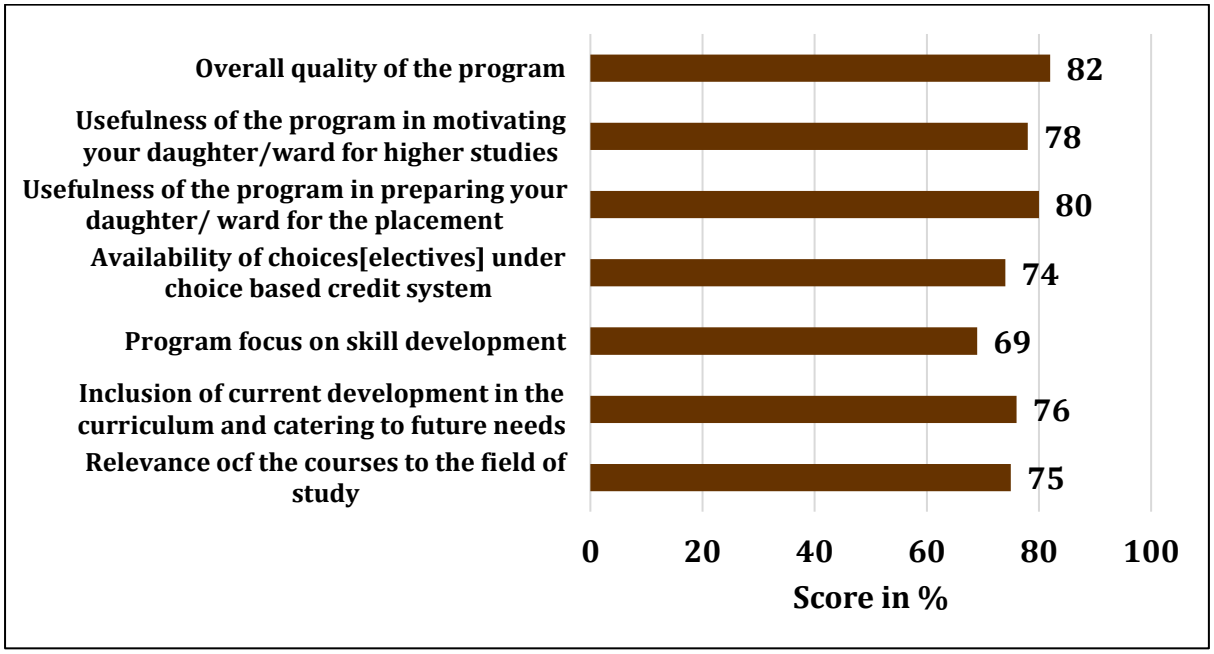
Parent Feedback on Curriculum
February 2023

I B.Com. Honours



What was the most useful part of the Curriculum?

- Guest lectures
- Bringing in updated things that are running the world today
- Extracurricular activities
- Overall it's so good students are able to learn new innovative things
- Internship
- A lot of availability for socializing in the education field.
- Organizing Clubs in various activities
- Internship
- Program focus on skill developments
- Core subjects related to field
- Business Statistics
- Projects
- All
- Interactive teaching
- Explore new things
- Disciplined approach in education and also in other activities
- Everything.
- Skill development
- Useful
- Internships
- NME and social ethics

- Learning and discussing more.
- The course
- Holistic approach
- Guest lecture and Internships
- Explore many new things
- The syllabus is well structured and helps to learn the necessary skills for their jobs
- Knowledge enhancement
- It helps my daughter to improve her skills and knowledge.

What was the least useful part of the Curriculum?

- Nothing
- Nothing
- None
- Sometimes the students are so down in some subjects that needs more efforts to build them up
- NA
- Non Major electives -Need More practical activities
- Nil
- All programs it useful
- Language
- Tamil
- None
- Learning certain topics which would not help them in the practical corporate world.
- None
- Nothing
- Availability of choices
- Program focus on skill development
- None
- Physical activities
- Nothing
- Nothing specific
- Nil
- Social ethics, Physical education
- Non Major Elective

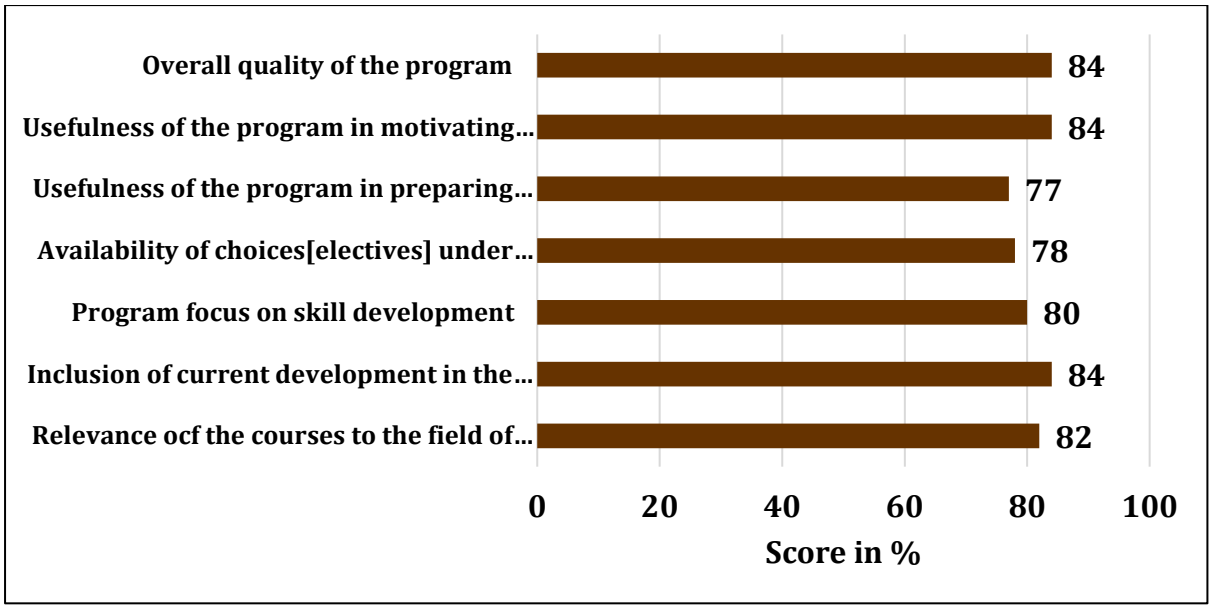
What changes do you suggest to improve the Curriculum?

- No suggestions
- Not yet thought about that
- Nothing
- More guest lectures
- Inclusion of practical and digital knowledge for all

- Nil
- The curriculum may be developed to understand the current trends and latest developments. The level of understanding of the students be improved.
- Include portions that is required for the trend.
- Advanced English
- All are good
- Must include programs for skill development like practicing communication, learning how to behave in corporate world, etc.
- None. You are doing best
- Nothing
- No suggestion
- No
- None
- Nothing
- Nothing
- More practical workshops
- Nil
- Practical experience

* * * * *

II B.Com. Honours



What was the most useful part of the Curriculum?

- Workshops
- Exposure to new concepts and working environment through compulsory internships.
- My daughter was able to learn about many things in the syllabus
- All good
- Managerial related subjects are useful.
- More deeper learning when compared to other departments
- Subjects and internship where people can experience their works. And also, counselling given to students.
- Nil
- Analytics related subjects
- Accounts
- They have more core papers.
- Assessments
- Internships and guest lectures
- Internship programs
- Credit based markings
- Aims, goals and objectives are reached.
- Industrial Visit
- Analytics related subjects
- Subjects
- Internship
- It helped to increase her personality
- Internships
- Giving internship programs seems to be a useful part

What was the least useful part of the Curriculum?

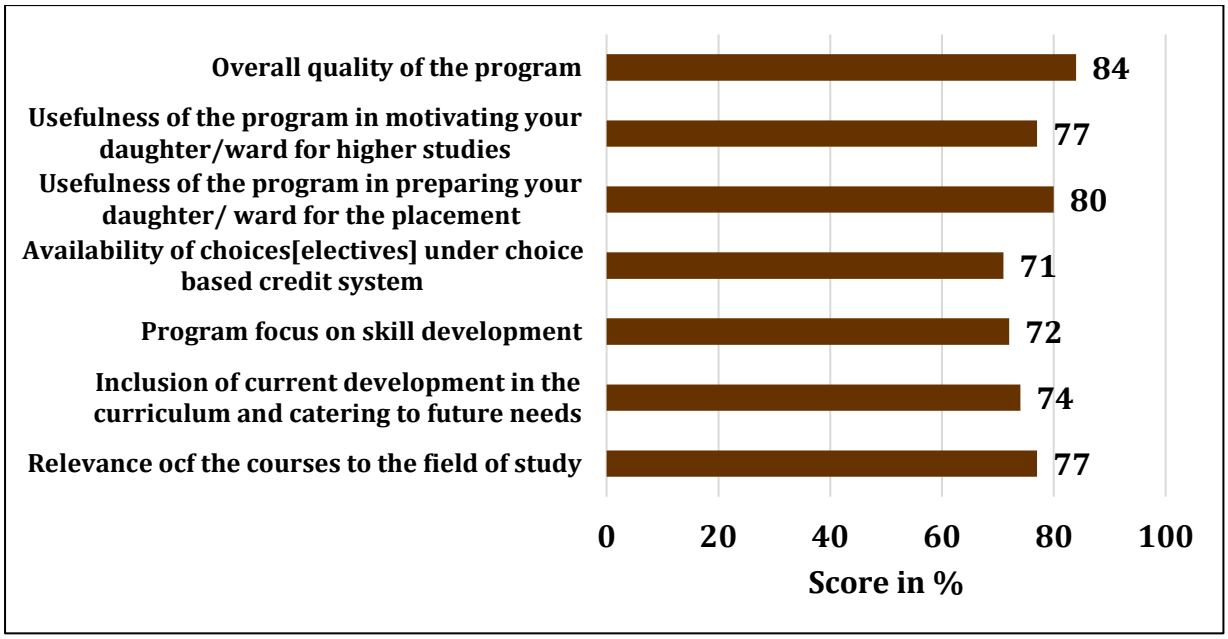
- Online webinars
- Descriptive exams
- Everything was useful
- Nil
- None
- None
- None
- Nothing
- Nothing everything is very useful
- None
- Couldn't able to manage everything altogether
- There is no least useful
- I don't think anything as least useful

What changes do you suggest to improve the Curriculum?

- Nil
- To grant more Holidays or leave period so that the students can complete their Internships with ease, without struggling to cope with college work and internship simultaneously.
- More practical exams and RO Water system in RMS
- To include the current trends and add the newest topics
- Everything is good
- No changes required
- Maybe some Innovative teaching methods would be helpful
- Nothing
- None
- None
- More practical learning
- Nothing
- Need more practical papers.
- Add some more practical papers
- To include the program which develops the skills
- To bring more skills developing program's

* * * * *

III B.Com. Honours



What was the most useful part of the Curriculum?

- Income tax
- Both practical and theoretical knowledge
- Project
- Future ready
- Workshops and Guest lectures
- Relevance of Course
- Over all good, nothing in specific.
- Seminars, Guest lectures, Workshops
- Different Core subjects and internships
- Increase knowledge and Skill development for future
- My daughter has gained a lot of insights specially in the accounting and commerce field. She also gained a lot of interest towards trading and learnt some basics in her curriculum.
- Motivational program for higher studies
- Course structure and assignments, exams and review sessions were very good and useful to the student
- Workshops and guest lecture
- Wider view of various concepts
- Practical oriented approach
- Workshops and guest lectures
- Internships, Placements
- Progress focus on skill development
- Nil
- Discipline

- She has gained good communication skills.
- Placement

What was the least useful part of the Curriculum?

- Less extension activities
- Online internship
- Nil
- None
- Nothing
- Program focus on skill development
- Lack of mandatory physical activity and physical education, which will be useful to avoid obesity.
- Nil
- Nil
- Nil
- The Guest Lectures could have been better
- Nothing
- Nil
- Nil
- Nothing
- No interaction with parents

What changes do you suggest to improve the Curriculum?

- There can be more choice for the students to participate in any competition.
- Collaborate with best universities
- No suggestions
- None
- No suggestions
- Everything is very good it will be nice if WCC has MBA studies
- To improve the program on skill development
- Taxation is evergreen and stable career, syllabus can be redesigned to focus on Tax laws, rules, and regulations, which are in change constantly, which helps students to become Tax professional.
- Nil
- More industrial visits
- Certification Courses
- More Practical based subjects (like Business Analytics)
- All good
- Nil
- Nil
- Nothing
- Atleast an SMS information is sufficient with day to day basis of ward activity to respective parents

Department of Commerce (Honours)

Action Plan on Parent's Feedback on Curriculum

February 2023

- **Programs on Skill Development -** Department had organized skill development programme on Commodity Trading and Lean 6 Sigma for final year students. Placement Training was given both for second and final year students. For the first years efforts will be taken to organize skill development workshops on Communication Skills/ Business Etiquette.
- **Internship -** No permission can be given during the semester for doing Internship As per Madras University regulation. Internship can be done only during semester holidays and if required number of days is not enough to complete the two weeks internship, usually college grants permission during Christmas holidays after Semester I, for an extra two days or so. Summer Holidays are enough to complete two internships.

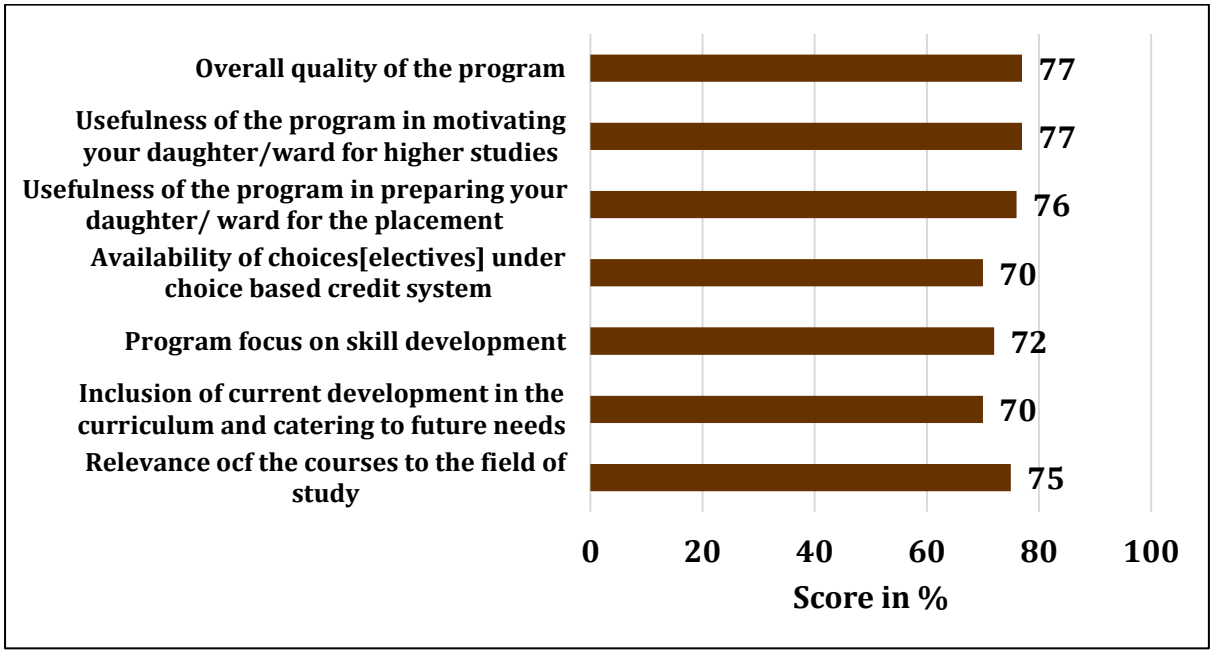
Parent Feedback on Curriculum
February 2023

I BBA



What was the most useful part of the Curriculum?

- The curriculum as a whole of itself is very useful
- Helpful to improve knowledge
- Computing tools
- Giving equal opportunity
- Faculty
- Nil
- Providing non major elective course is a really useful part of the curriculum since it enables students to learn from other departments also it helps students to interact with students of other departments.
- Program focus on skill development
- NME
- Academics
- NCC
- PRESENTATION SKILLS
- Since the syllabus is inclusive of current developments.
- Program focus on skill development under choice based credit system
- Higher studies
- Physical education, NSS
- Faculty
- Wide range of subjects
- Practical exposure

- Extra activities
- The subjects allocated is relevant and helps understand the courses for future studies
- This degree help my daughter in such a way to became as a good manager and helps to learn things and provide ample of opportunities.
- Good faculty and proper discipline followed
- The rules and regulations and proper guidelines
- Classroom activities
- This curriculum develop my daughter's knowledge about business and improving her self confidence
- None
- Non Major elective classes
- It was more informative to make my daughter realise her potential by organising extensive activities like NSS to inculcate boldness
- All Core Subjects studied so far

What was the least useful part of the Curriculum?

- Nothing that I could think of
- Can improve personal skills
- NME
- Hindi
- Industry visit
- Nil
- Inclusion of current developments in the curriculum and catering to future needs
- Nothing
- Nothing
- Nil
- NIL
- Assigning assignments from all subjects at the same time and to be submitted at a short notice.
- Availability of choices
- Skill development
- Nothing
- Industrial visit
- Languages
- Nothing
- Language
- The main problem is the subject on Computers, this can be enhanced and updated to upskill students for the current college environment.
- At the same time the management has to take some responsibilities to make everyone understand every concept
- Being very strict with the attendance
- Nil

- Only theoretical knowledge
- None
- Language classes
- If people feels it useful they inculcate things but not everyone does that , my daughter feels very useful
- Physical Education

What changes do you suggest to improve the Curriculum?

- To give more importance to core subjects rather than language
- Can include topics that is useful for future career
- More extensional activity
- To include subjects more necessary rather than languages
- Gadgets
- Nil
- A small orientation on the courses provided by other department would help the students in choosing the right course which would help them to upgrade their vision.
- No.
- Nil
- NIL
- Giving a longer submission date and not assigning the projects from all subjects at the same time.
- To improve the usefulness of the programs
- More extension activities
- Nothing
- Use of mobile phones
- Teaching needs to improve
- Inclusion of more skill development with respect to career.
- Break for 20 minutes
- Practical & Theory for Computer knowledge can be improved
- Be free with the students and help in many ways and u have to treat them in a good way
- "Increase the break time ! It is becoming very difficult for my daughter to have her lunch and get back to class . Thank You
- PLEASE CONSIDER THIS !"
- To teach children more about the modern era and how to handle it properly and technology activities and updating them.
- Nil
- To help the students to apply their theortical knowledge in real life too like visiting factory, industry, etc
- None
- Conduct more seminars and trips to industries and you may proceed with practical learning by these methods
- 1) Syllabus for Language - Tamil too heavy and may be reduced to enable students to pay more attention to the core subjects
  2) PE classes may be eliminated since they make the girls tired and exhausted

3) Miscellaneous Input - Students should have the facility to change the password in their Student login because currently all information available therein can be accessed by any other person who gets to know the Reg. No. & DOB."

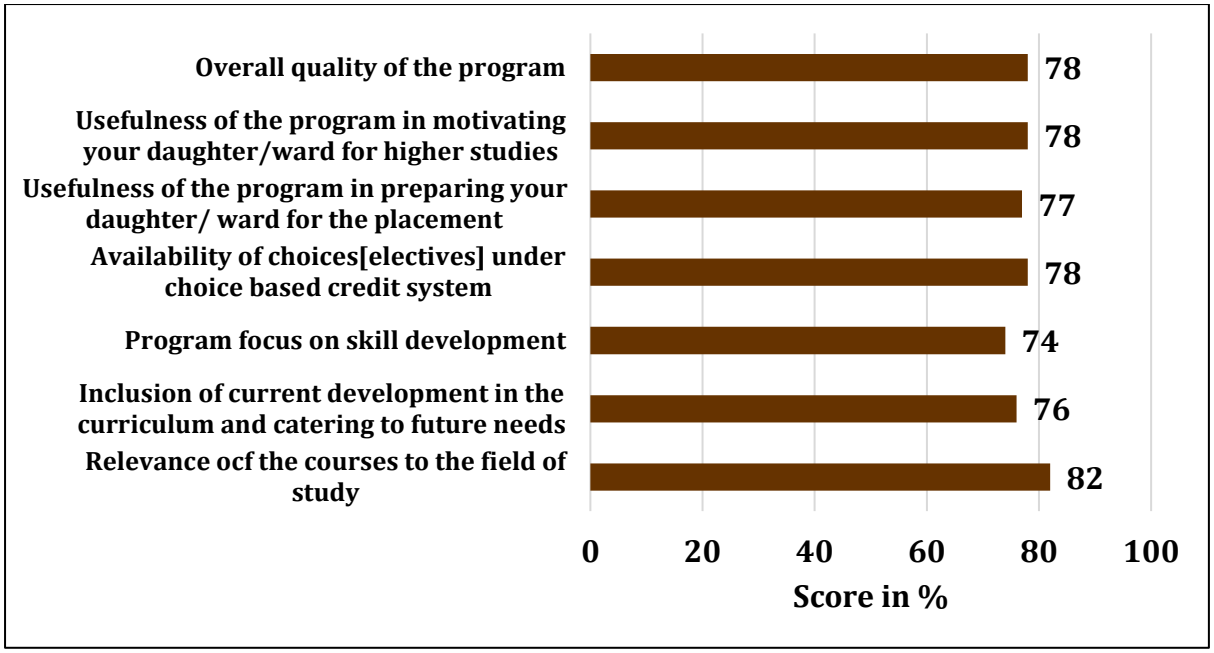
II BBA



What was the most useful part of the Curriculum?

- Provides an opportunity for students to view understand and experience their classroom learning.
- Internship at the end of every year. Provides an opportunity for students to view, understand and experience their classroom learning.
- Overall quality of the degree
- Awareness, skill development
- The various options that are present
- The overall degree program
- Including of MARKETING AND HRM
- Internship
- Current development
- Handling Different Types of Human Behaviour, Basic Knowledge of Handling Business, Situations.
- Monthly assessment
- Quality teaching
- The students are able to understand and study the concepts.
- Internship
- This course provides a good headstart for candidates who wish to develop managerial skills. It helps in imposing their managerial skills and communication skills as well.
- Nil
- About the students preferences
- Elective courses
- Accountancy

- Learning about management studies
- Internship
- Curriculum is up-to date. It covers all the important aspects in the world of business

What was the least useful part of the Curriculum?

- Explore different innovative options for students to recall and review their learnings for everyday taught curriculum than following the conventional method of writing notes.
- Explore different innovative options for students to recall and review their everyday taught curriculum than following the conventional method of writing notes.
- Skill development
- Nothing
- Nil
- Availability of choices under choice based credit system
- Nothing
- Nil
- Nothing
- Nil
- Nil
- None
- Rote learning
- I don't think there is anything that is least useful because everything is a new learning and experience for the students.
- Nil
- Nothing
- Non related course
- Computer software
- Nil
- Nil

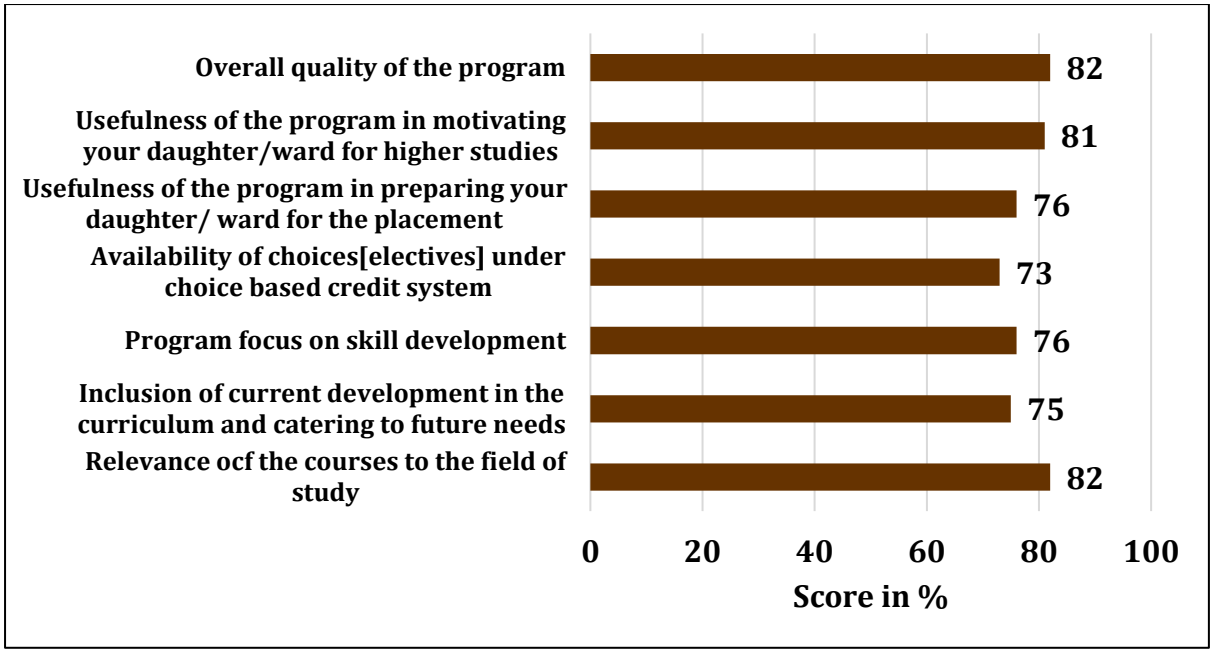
What changes do you suggest to improve the Curriculum?

- Once in a quarter, interactive session with industry experts to understand the practical side of their learning and prepare them for their career.
- Once in a quarter interactive session with industry experts to understand the practical side of their learning and prepare them for their career.
- Nil
- Interaction relevant information needed in day to day life
- Nil
- Nil
- Everything seems good.

- Nil
- Giving more workshops to the students so that they can learn in a practical way
- Nil
- Nil
- Students have to gain practical knowledge.
- More exposure to industry
- Nothing
- Focus more on extracurricular and inter college competition
- Nothing
- Practical course
- It will be prepare for their job and higher education
- More elective options that offer deep insights and exposure.
- 1.Every student should participate in some co-curricular activities should be a must.
  2. Need more pratical knowledge i.e IV, documentary etc.
- Nil
- It would be helpful for the students if holidays during the 2nd and 4th Saturday, as decided by the college, are given to do their respective assignments and to rest.

* * * * *

III BBA



What was the most useful part of the Curriculum?

- All the subjects were very useful.
- Allowing the students to get practical exposures
- All the technical subjects like math, accounts, financial management, and computing tools.
- Super Placements
- Every aspect
- Through this I came to know standard of my daughter
- More knowledgeable
- Financial Services
- Providing workshops and seminars
- Extra guidance about the subject
- Internship programs and the rotaract club activities helps in overall grooming of the student
- To have programs which motivate my ward for higher studies
- Placement
- Placement offer
- Overall subjects and quality of the subjects included in the program.
- She learnt a lot good deeds and focus on studies and interact with other and faith in God.
- The courses relevant to the field of study
- Courses offered
- Curriculum helps to seek all the facts and information for a leaner.
- Overall quality of the degree program

What was the least useful part of the Curriculum?

- Nothing
- -NIL-
- Some subjects were not required for all 6 semesters (example: value education). Some used outdated stuff (like web weaver). It would be better if new apps were used.
- Nil
- No least useful part
- Nothing from my point
- E commerce
- Nil
- Nil
- Seems to be nothing like that
- Nothing
- Choice of elective
- Nothing
- Nil
- Nil
- Nil
- None of the subject is least useful.
- Nil

What changes do you suggest to improve the Curriculum?

- Excellent curriculum. No changes required.
- More choices must be available to students (example: finance in the last semester- only 2 choices were available) and inclusion of current developments.
- Nil
- No changes
- Should include more enthusiastic courses
- None
- Nil
- Nil
- Including certain aspects which will help students to have a positive attitude towards life
- No suggestion
- Nothing
- Nothing
- Nil
- Nil
- Nil
- Placements are not satisfactory
- Re-evaluate goals
- Nil

* * * * *

Report

Action Taken based on Parent Feedback on Curriculum

The parents of the students of BBA were satisfied with the overall quality of the program, usefulness in preparing the students for higher studies.

- The personal skills of the students are improved by more presentations, seminars and subjects related to personality enrichment.
- The industrial visits are organized every year
- The date of submission of assignments will be informed well in advance and it will not overlap with the other subjects.
- The subjects on computers are updated according to the requirement in the business scenario.
- Topics related to future career like Entrepreneurship, International Trade, Marketing Management, Human Resource Management, Business Statistics are existing in the current syllabus. More subjects can be implemented in the next academic year based on the revision in the Board of Studies.
- More skill development courses will be included in the next academic year
- More Choices of elective courses will be included for final years.
- Hands-on learning will be given in all possible courses to experience real world situations. (Currently we provide in Marketing Management theory and Practice, Human Resource Management, Organisational Behaviour, Entrepreneurship Development)

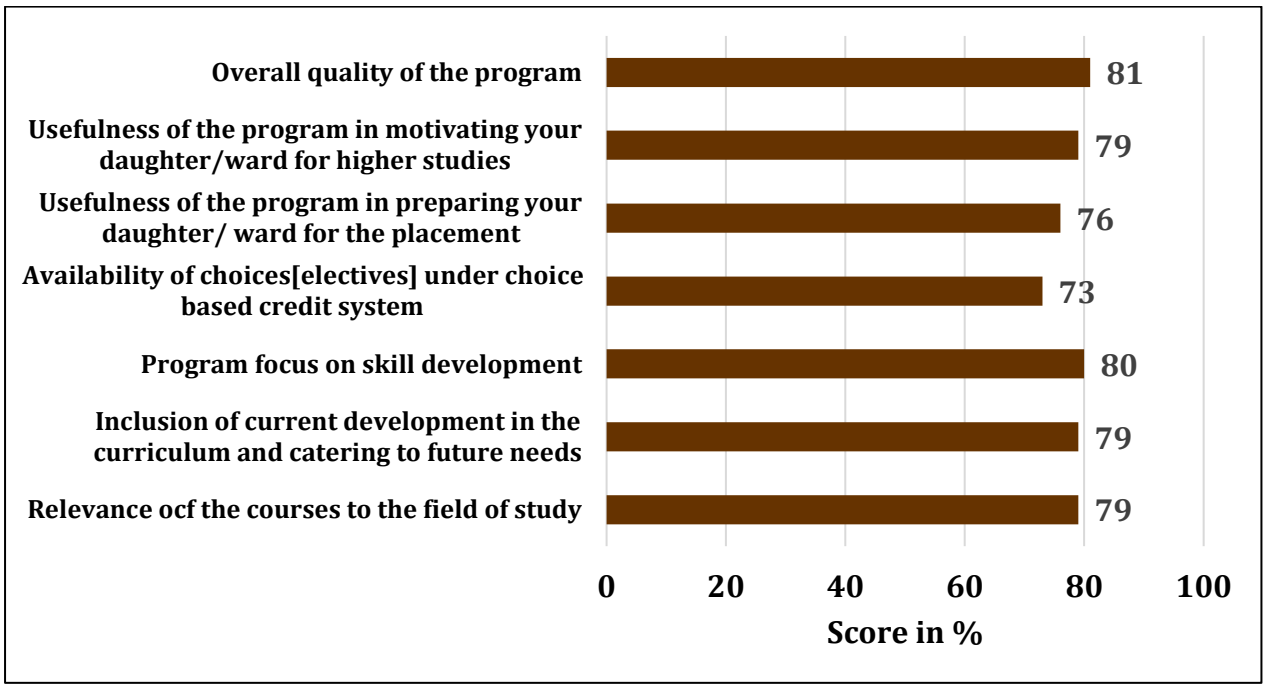
Parent Feedback on Curriculum
February 2023

I B.A. English



What was the most useful part of the Curriculum?

- Good Placement in future
- Contemporary topics discussions
- Skill development
- Relevant Syllabus
- Motivation for higher studies
- Awareness of social issues and contemporary topics
- Selection Of Subjects
- Motivation for higher studies
- Updated and Relevant Syllabus
- All the courses in the programme designed well
- Guest lectures from reputed institutions
- The syllabus is relevant and gives a clear idea on the subjects discussed.
- Program focus on skill development
- Academic
- Program focus on skill development
- Discipline
- Inclusion of current developments in the curriculum and catering to future needs
- BUILDING MOTIVATION THROUGH LANGUAGE AND LITERATURE
- Encouraging to read more books
- Clarity of the subject

- Motivation and prescribed books to read
- The relevance of the subject matter and the analytical requirement
- Expressing one's perceptive on approaching literature and various activities to test students analytical skills
- Portfolio and assignment
- To make my ward more practical about the reality
- Engaging activities and creative tasks.
- Good teaching
- Presentation
- Analysing the text, researching about it and knowing various different perspectives is the most useful part of the curriculum.
- The broad variety of courses offered (with literary quality of selected writings) touching upon classic and currently relevant subjects and wide yet comprehensive view of literature, allowing the facility to dwell deeper too if wanted.
- Analysing the text
- Skill development
- Studying

What was the least useful part of the Curriculum?

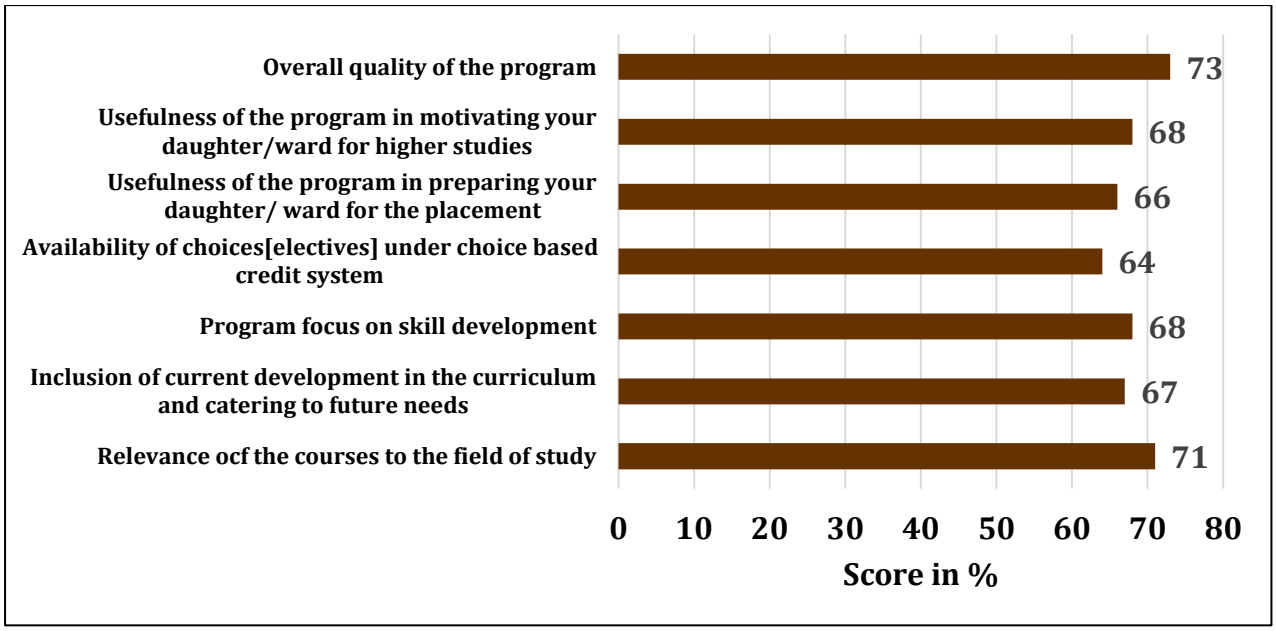
- No comments.
- None
- None
- Nothing
- None
- Don't think so
- Monotonous physical education
- Nil
- No
- Nothing
- Availability of language choices
- Nil
- NOTHING
- English literature students to study Tamil poems translation
- None
- Nothing as least useful part
- None
- None
- Nothing
- There was no least useful part of the curriculum
- Nothing
- None
- Inter college

What changes do you suggest to improve the Curriculum?

- N.A.
- A library class can be included
- A larger variety of options to choose from for the non- major electives.
- No changes required
- None
- Nothing
- I suggest to provide good understanding to the students and help them with more notes
- "Residents may be allowed outside for their interest to learn instrumental or vocal classes after getting consent from their parents (of course it is not about Curriculum) otherwise no suggestions
- Thank you
- Ice breaking sessions during classes
- Nil
- Nothing
- Motivating the relevance of the courses
- Nil
- Nothing
- Class room lighting to be made brighter. Proper modern furniture can be given
- None
- Prefer easy texts for beginners 1st years of English
- To bring activities more on boosting confidence and let go of the public stage fear during presentations
- Prefer more text
- Till this semester everything is good.
- No
- More courses related to publishing industry, preparing students for this field of work directly. Making them write and gain experience and also preparing them for job prospects in that field.
- The curriculum is good
- None
- Focus need all subjects

* * * * *

II B.A. English



What was the most useful part of the Curriculum?

- Exposure to a diverse range of Literature
- Program focus on skill development
- The supporting courses have been curated well.
- Course on Tamil translated works was good.
- All
- Exposure to both contemporary and classic literature. Rather just providing them printouts, make them analyse. I appreciate how the pupils presented themselves.
- Working on the portfolios
- Skill based course
- Syllabus
- All of the core subjects and the availability of elective and skill based courses from other departments.
- Usefulness of the program in preparing my ward for placement
- Her improvement in thinking skills.
- Exposure
- Nothing
- Academics
- My daughter has a clear idea of what she should do to build her career
- Linguistics and General English.
- New subjects
- Skill development
- Overall development of the students
- Knowledge and Skill development
- Lecture series and other exposures
- Development of development

- Relevance and the way it has been taught
- It gives students more exposure about the course
- More interactive and creative
- "Discussions about social context and relevance is highly important as well as the critical views expected from students. In terms of usefulness , these elements in the curriculum stimulate the students' perspective about various issues and the sensitivity leads to better response while producing or performing any work.
- The course was very relevant to her field of study. The syllabus taught students how to answer research level questions.
- Components in the syllabus of General English
- Helpful
- Internships
- Mostly all with regard to the course.
- It helps my daughter to think wide

What was the least useful part of the Curriculum?

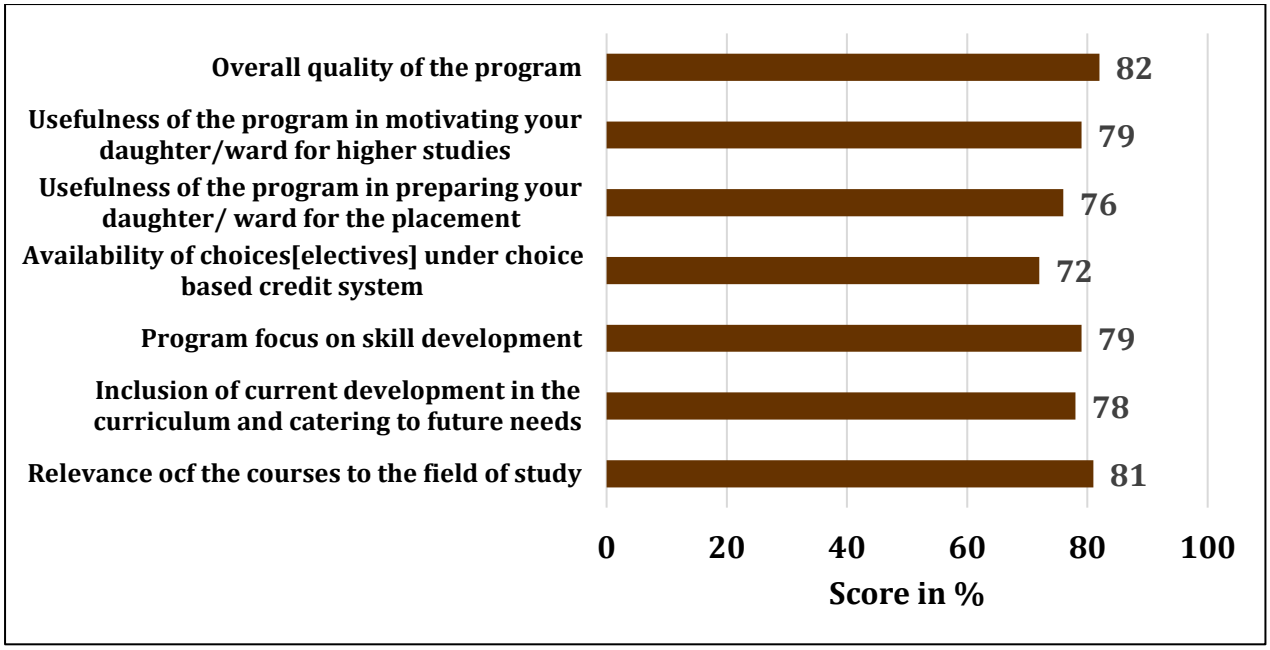
- Including Convocation Speeches as part of the Curriculum
- None
- There are many courses with course outcomes that are dissatisfactory
- Nothing
- Nil
- Certain course and the topics aren't necessary that much, updation of portion is must
- Short Tests
- Language
- Syllabus
- Availability of choices (Electives) under Choice Based Credit System
- Nil.
- General English
- Nothing.
- Nothing
- None
- Building Motivation.
- Certain supporting classes
- It was very much useful
- Some papers really not motivating
- No proper materials
- Students are more theoretical than getting to know the course in practical
- None
- So far the curriculum has only been useful to my daughter.
- Not so helpful
- Nil
- Supporting course in the 1st semester

What changes do you suggest to improve the Curriculum?

- CONTINUE THE Good work
- No suggestions
- Considering feedback from students to cater to their needs
- Skill based
- Current writer text can include.
- "For Life Narratives, have more literary memoirs and biographies instead of just motivational speeches.
- For Portfolios, the questions can be more related to the topics that are taught"
- More analysis based questions
- Don't stress the students
- Please make more choices available for Electives
- No suggestions.
- For the courses you should also give chances for the students interest. Rather than giving what is left out.
- Nothing
- None
- I suggest that you start the course by introducing classics to the students. They read more contemporary works so it is difficult to focus on reading classics to understand the course and your prescribed texts. Readings In Literature could be a course for the first semester.
- Standard of materials
- No changes
- More seat availability for the SKB II year courses
- Everything fine ,but some part can omit in the syllabus
- More contemporary texts should be prescribed
- To be able to provide a introduction to the skills taught in the curriculum
- Teaching can be through activities which will engage students to work in groups and as an individual.
- Connectivity with students
- Slight change in General English syllabus.
- I like to suggest to improve more components that help in the career of students. Also give them space to think of their choices
- To be more helpful
- Nil
- Nil
- Extra focus on extra curricular activities

* * * * *

III B.A. English



What was the most useful part of the Curriculum?

- General English class divided on fluency levels
- Internship
- The texts prescribed enabled my daughter to understand the world around her better.
- Internship
- Core elective courses
- Gaining more knowledge. And English speaking skills
- Nil
- Core elective choices to develop other skills too.
- Communication skills
- This course is very useful because it gives her carrier growth and hope for the future
- The Research Guidance, Drama - Theatre exposure, Semester Abroad, Linguistics
- It not only focused on the main subject but also gave opportunity to focus on other courses too which helped in gaining knowledge in different fields.
- Holistic learning approach
- Providing internship opportunity is helpfull to gain experience to face the workplace.
- Internships, College play and other competitions
- Academics
- The choice of preferred novels and texts

What was the least useful part of the Curriculum?

- Core electives were not really electives
- EVS
- Nothing was particularly less useful.
- None
- The habit of reading books
- Nil
- None
- Internship
- I think everything went on well. Unable to say there's anything least. Appreciate all the teachers and specially Principal and HOD.
- Forced choice of Journalism for internship
- None
- Managing the internship and studies at the same time was difficult to manage.
- Nothing
- Sports

What changes do you suggest to improve the Curriculum?

- Include more diverse core electives for B. A. English, more industry relevant choices for SKB, and remove second language and third language requirements
- "Combination of Indian literature in translation and Indian writing in English as Indian literature
- Freedom to choose core elective"
- None to be improved
- Activity based learning
- Focus on each student's interest and encourage more on co curricular activities
- Nil
- Giving placements for BA ENG LIT
- More relevant subject options in Study Abroad tie-ups will make the investment even more worthwhile
- None
- Enable the students to involve in more of practical skills along with the theoretical skills.
- The curriculum is really very good and I don't have any suggestions.
- NO CHANGED

* * * * *

Department of English (Shift 1)

Action Taken Report - Parents' Feedback for Open Day – 4.2.2023

Submitted on 3.4.2023

1. **I B.A. English**
   a. UEN/SU/19 - Contemporary Tamil Literature in Translation will have the 3 hours End of Semester Examinations (ESE) from the batch of 2023 and will not include the practical component of Translation. It has been decided that Portfolio submission and evaluation will be applicable only for application-oriented courses and literature papers will have ESE.
   b. Course teachers have been instructed to explain every aspect of the Course Objectives and Learning Outcomes when they introduce the course and the syllabus at the beginning of the semester.
   c. Library hour is to be allotted by the course teacher if and when the need arises.
   d. Course teachers have been instructed to continue with the practice of combining group work & individual work for the process of learning and evaluation.
2. **II B.A. English**
   a. UEN/CO/49M - Life Narratives has only a couple of motivational speeches relevant to the trajectory and objectives of the course. The Department has decided to retain the syllabus for this course as it motivates and inspires students to reach greater heights.
   b. The Department justifies the need to retain the course, Readings in Literature in Semester III, as it pertains to wider temporal and spatial contexts of literatures written. Offering it in Semester 1 as suggested by some parents will be detrimental to the focus of such contexts.
   c. Most of the courses offered by the department are job-oriented courses and students have to do an internship at the end of Semester IV from the batch of 2021. The Department does not compel students to restricted choices of places of internship, and, insists on parental consent at the time of finalising an internship offer.
   d. The syllabi for English courses are updated regularly in the course of the Board of Studies held every academic year. For example, the Board of Studies held in early 2023, approved of the syllabi (i) Introduction to Travel Narratives (ii) Understanding Disability as being absolutely relevant and progressive, and, also of the inclusion of Annie Ernoux, the 2022 Nobel Laureate, in the course UEN/CO/49M - Life Narratives. The Board was again highly appreciative of the path-breaking syllabus of the supporting course UEN/SU/19 - Contemporary Tamil Literature in Translation, offered in Semester 1.
   e. Course teachers have been instructed to continue with the practice of combining group work & individual work for the process of learning and evaluation. They have also been instructed to explain every aspect of the

Course Objectives and Learning Outcomes when they introduce the course and the syllabus, at the beginning of the semester.

f. Library hour will be allotted as per the discretion of the course teacher, to sustain referencing for research.

3. III B.A. English

a. Most of the courses offered by the Department are job-oriented courses and students have undertaken internship in the field of Journalistic Writing, Teaching English in Schools, Front Office Management in Semester 6 as a follow up of the feeder courses in Journalism, ELT & English for Effective Communication in Semester 5. The Department has not compelled students to restricted choices of places of internship and has insisted on parental consent at the time of finalising an internship offer.

b. Indian Writing in English and Indian Literature in Translation- these two papers have been merged and passed in the Board of Studies of 2023, as Indian Literatures - Paper 1 and Paper 2, to be offered from the batch of 2021.

c. The Department involves in scrutiny and discussion to categorise students into core elective courses based on their proficiency and performance in Semesters 1 to 4 & 5. However, if a student is particular about an Elective course, the Department accommodates the request.

d. Course teachers have been instructed to explain every aspect of the Course Objectives and Learning Outcomes when they introduce the course and the syllabus at the beginning of the semester.

e. Course teachers have been instructed to continue with the practice of combining group work & individual work for the process of learning and evaluation.

f. Library hour is to be decided upon by the course teachers, especially, to sustain the reading habit among students.

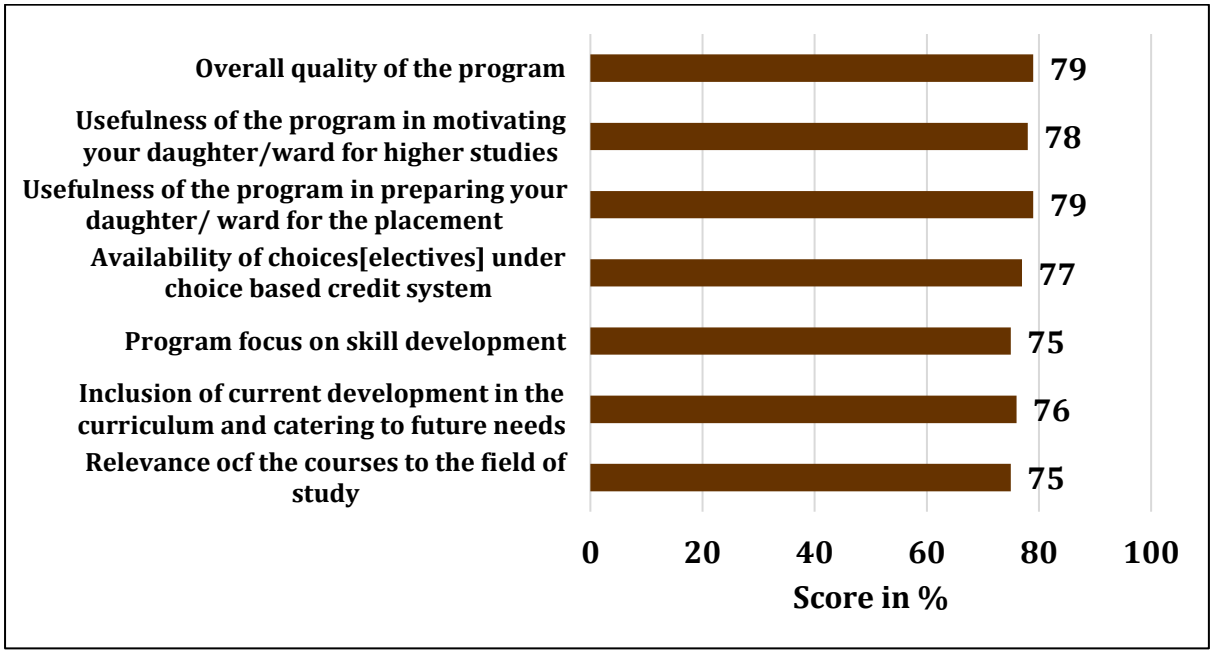
Parent Feedback on Curriculum
February 2023

I BCA



What was the most useful part of the Curriculum?

- Relevance of the courses to the field of study
- Conduction of more workshops
- Perfect as per the academic
- My daughter Learn a lot of things about computer programming
- Placements are been easy
- Nothing
- Developing the most advance programming to the students
- The most useful part is they teach everything relevant to the syllabus
- Since the curriculum is updated to teach children up-to-date lessons, the child will be able to exhibit her talents during job placements
- I think their teaching is very excellent
- Library
- We can able to know about our children activities in college
- Skill development
- Subject knowledge, aim and objectives of the lesson plan
- lab facilities and no. of certification courses that are given to students
- Classrooms and Canteen
- Programming skills
- Student will activate
- Seminar

- Can get placements easily
- Curriculum is the base and it must be well in alignment with objectives
- Management discipline
- The program in preparing my daughter/ward for placement.
- Program focus on skill development
- In every step of the curriculum development process, the most important task is to keep the learner (in this case, youth) in mind and involve them in process.
- Useful part is they study everything relevant to their own course
- Communication
- Students are engaged in lots of activities
- It makes the student active
- Placement
- learning new things
- Library
- Communication
- Studies
- skill development
- Practical sessions
- Communication
- Conduction of practical sessions
- It makes the student active
- Developing in coding
- Programming languages are useful

What was the least useful part of the Curriculum?

- Nothing
- None
- There is least importance on certification and soft skill development
- None
- Nothing
- None
- Keep them involved
- Compulsory Physical Education
- Nothing to say good in over all aspect
- Physical education
- Nothing
- Skill development
- None
- Nothing
- None
- None
- Assignments
- None
- I don’t regret anything.

- None
- Nothing like that
- Physical education for 1st yr should b avoided
- make them involved in everything and keep them busy all the time
- nothing
- None
- None
- Skill development
- None
- Physical education
- Nothing
- Skill development
- Language sessions
- Nothing
- None
- None
- None
- None

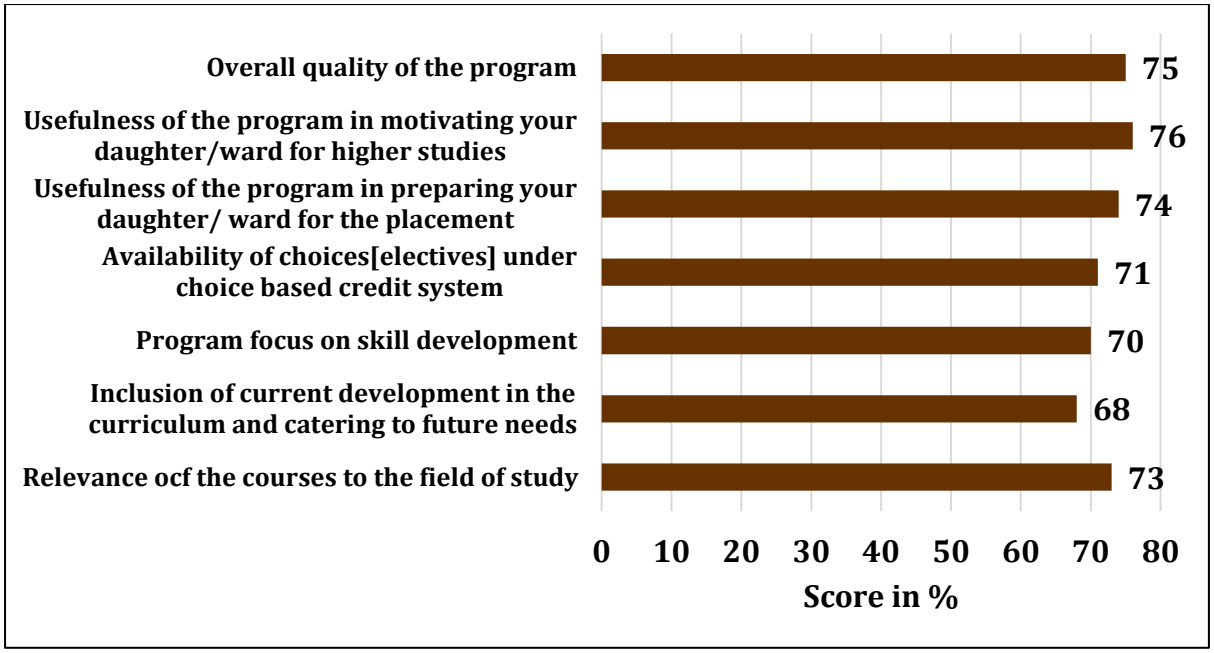
What changes do you suggest to improve the Curriculum?

- Nothing. Everything is ok
- Include more practical sessions
- Should Improve more certification course on development tool
- Develop the Live session activities
- Nothing
- None
- So far everything is excellent
- CPE can be kept in class hours as one of the hour, rather that compelling children to come early.
- Encourage student to participate in so many events
- Already we love the curriculum
- Nothing
- Learning
- Nil
- Yeah I suggest to maintaining the hostel mess rather than that all the things are excellent. I'm so blessed to have my daughter in this college
- More practical sessions
- None
- implementing new techniques
- None
- You may lead to considering modifications in assignments, readings, or general teaching approaches to reinforce concepts with students
- Extra course
- Nil

- Nothing
- To make the 2nd shift students to come earlier...
- so far everything is best
- Increase the break time
- None
- None
- My listening
- None
- Change physical education into 1st hour
- Conducting class test
- Learning
- Need more practical sessions
- No
- Conduct more workshops
- None
- None
- None

* * * * *

II BCA



What was the most useful part of the Curriculum?

- Nil
- The entire curriculum was useful.
- Challenging assignment and activities
- Learning related to the course
- Lab accessible
- Useful for the program to prepare for placement
- Inclusion of current developments in the curriculum and catering to future needs
- Very much strict about studies
- English
- Skill developing programs
- My daughter gains more knowledge about the subject. The faculties are providing excellent coaching
- All Subjects
- Everything
- Keep the learner in mind and involve them in process
- Subjects based on various Programming languages
- Webinar on different topics
- The interaction between teacher and student ,new activities for new topics
- More on practical
- Internship
- Make easy to learn students
- Development of curriculum for future needs
- Offering reputed internships arranged by the college.

- Test conducted regularly that makes my ward to get aware of the subjects frequently.
- Attending seminars and learning new computer languages
- Improved in skills
- Encouraging and Motivating everyone
- The most useful part of the curriculum is the way the teachers are teaching and making the students to study good
- Improving communication skills
- Webinars which is related to courses
- Everything was useful for my daughter.
- The most useful part of the curriculum is creating a variety of skills and opportunities to students which was like internship etc.

What was the least useful part of the Curriculum?

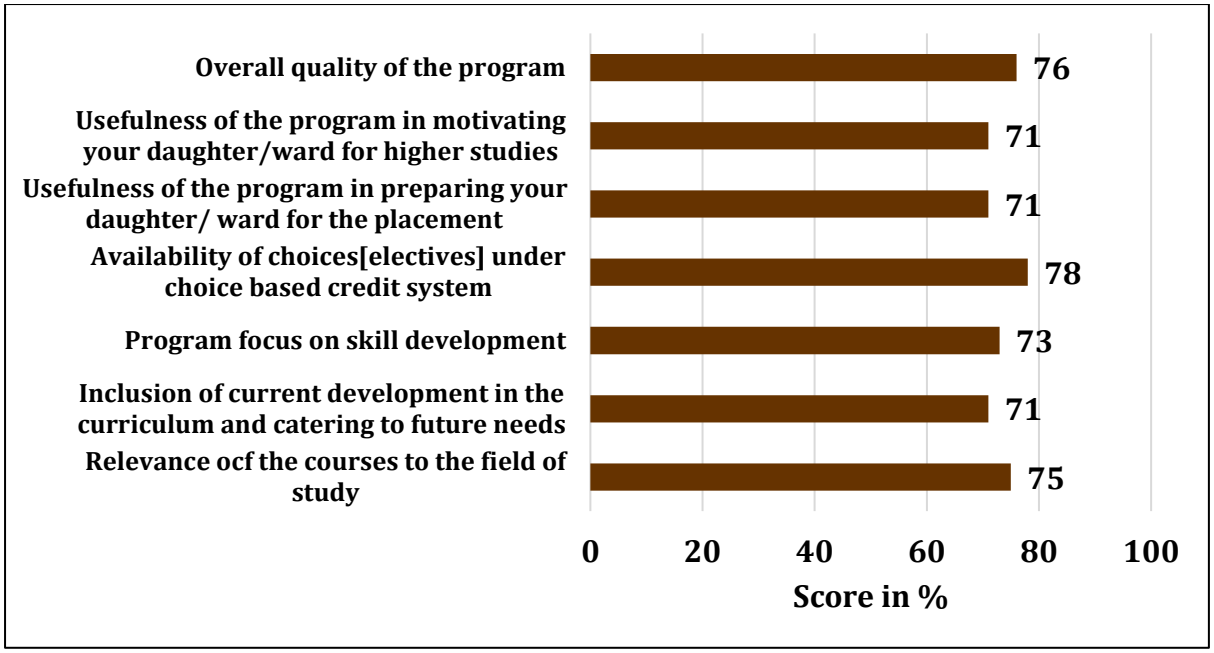
- Nil
- Nothing
- Skill based courses
- Learning Not related to the course
- Library
- Nothing
- None
- Teacher Assistance
- Nil
- Nothing
- None
- Nothing
- Nil
- Nil
- Nil
- Only the teaching
- Nil
- The syllabus is bit outdated which I found useless.
- Nil
- Much more focus in skill development is needed
- Nil
- Some technologies are not upto date
- Nil
- Nil
- Nil
- Nothing
- Good teaching
- Nil
- Nil
- Increasing their technological studies

What changes do you suggest to improve the Curriculum?

- Nil
- It was Good.
- Must include more job ready skills and recent programming languages such as Node js and react
- Introducing new syllabus which will develop our daughter to update herself instead of old syllabus
- Nothing
- Nothing
- Nothing
- Teachers are not clearing out the doubts properly and practical teaching is not applied
- Career guidance
- Nothing
- Suggesting designing course
- Break time atleast give 30 or 25 min to eat
- Nil
- It's excellent already.
- None
- Nothing
- Improvised syllabus will do better because this syllabus has been followed since many years which make that outdated that too for a computer related course this is very bad.
- Break time should be change for the students.
- More of practical classes
- Dispersal at 5 PM in the evening.
- To improve the course structure based on the recent Changes
- can include more updated versions and new technologies in the curriculum
- Some important subjects to be taught clearly.
- Nil
- Be more practical towards the current trend
- Health education
- No changes
- Nil
- Nil
- improving communication skill , easy to interact with people frequently and also improving new things for their life based.

*****

III BCA



What was the most useful part of the Curriculum?

- Preparing the ward for placement.
- Good teaching.
- Overall quality of the degree program
- Practical assignments
- Electives
- Good coaching
- Conducting seminars on various topics
- Internship Workshop Placement are Very useful for the students
- Soft skill
- Selection of subject which are relevant to the current trend and development.
- Overall degree rating
- Changes in break timings
- All
- Nothing
- Usefulness of the program in motivating my daughter for higher studies
- Value education
- Personality development classes

What was the least useful part of the Curriculum?

- Nil
- Nothing
- Nil
- Presentation.

- Nothing
- NIL
- Nothing
- Including topics which are not so much related to the specific course.
- Nothing
- Nothing
- Nothing
- Program focus on skill development
- Nothing

What changes do you suggest to improve the Curriculum?

- More practical knowledge on theory subject
- Nothing
- Nothing very thing is fine
- Nil
- Include placement preparation classes for final years
- Nil
- NIL
- Nothing
- Nil
- Maybe they can provide useful books by collecting money so that it'll be easy for the students to cope up with the teaching of the staffs.
- Nothing
- Nothing
- Nothing
- Nothing
- Need to educate them with Real time programs
- Change timing for shift 2 1 to5 because bus time is not good and it's not good for girls .after 7 the roads and buses are bad they facing many problems like xyz.

* * * * *

BCA - Action taken Report for parent Feedback

Assessment on the Curriculum for the course content and its relevance

The suggestions received through the feedback from the parents are analysed and the valid suggestions which are related to curriculum are considered for implementation in the syllabus.

The suggestions were consolidated and communicated to the members of the Boards of Studies and to all those who involve in the Syllabus Revision process including the University representative, the external members of the board, Industry Experts, Alumnae and the student representatives. The syllabus is restructured every year by considering the suggestions given and making appropriate changes in the syllabus to match the needs of the students and the industry.

Key Suggestions

Suggestion 1: Extra lab hours to be allocated for practical sessions.

The students were given the option of utilizing the lab during morning hours with prior permission.

Suggestion 2, 3 & 4:

- Certificate courses to be conducted on latest technologies
- Hands-on session workshop to work on current technology
- Seminar to be given by industrial resource person

Every semester atleast 3 to 4 workshops are conducted on the latest technologies such as cloud computing, robotics etc. Hands on session were given for all the workshops conducted.

A certificate course on Soft Skills was conducted before the class hours and the response was poor. As the students were not willing to attend the certificate course before the college hours we were not able to plan a certificate course on latest Technologies. In future if the students are willing to attend before the college hours we would plan for a certificate course on recent technologies.

Conclusion

On analyzing the feedback received, from the parents, it is observed that parents are largely satisfied by the efforts made by the department in teaching and learning, discipline and other related matters and high degree of satisfaction has been shown by the parents on the content of the curriculum.

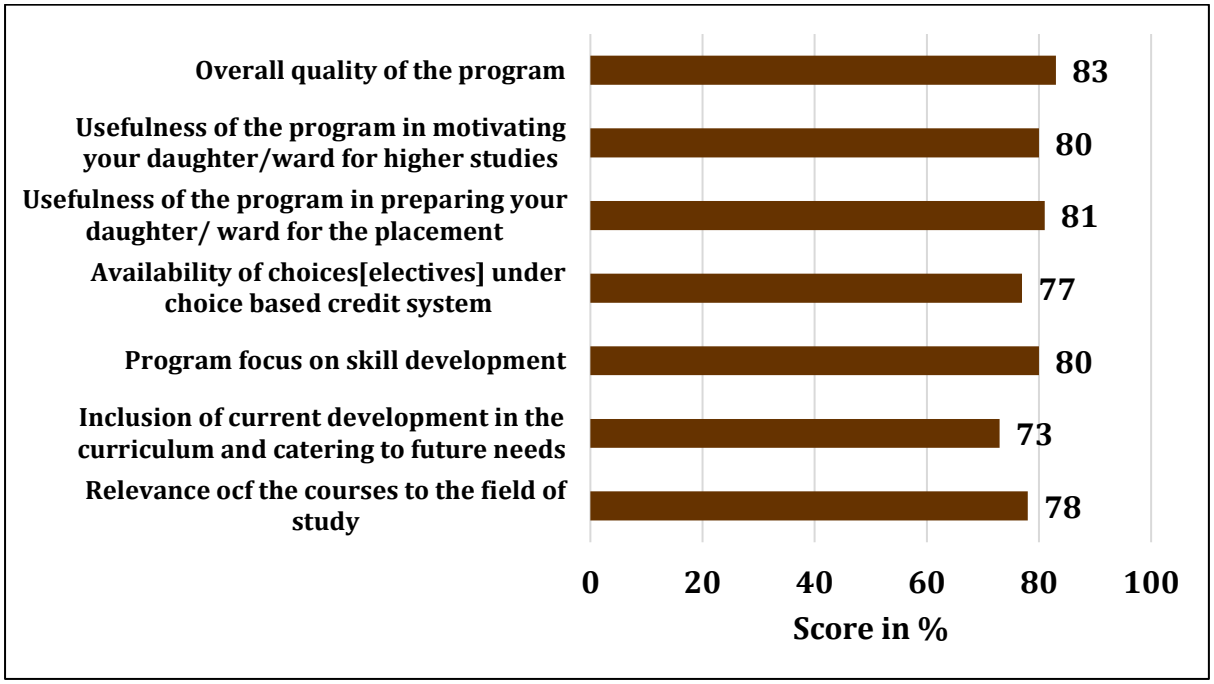
Parent Feedback on Curriculum
February 2023

I B.Sc. Information Technology



What was the most useful part of the Curriculum?

- Program focus on skill development.
- The teaching methodology is good.
- Teaching skills
- Programming language
- She learnt discipline and she is always positive
- Training to code by own
- Coding
- Teachers were really taught us good things it's useful part
- C programming language
- Studies and good faculties
- Interdepartmental events and culturals
- Practical
- Knowledge
- Practical hours
- Group of courses offered in the field of study
- The part of practicals help our wards to learn as much like c and python like things
- Grouped of courses ordered in the field of study
- Useful part of curriculum is support in learning
- Programming language
- program focus on skill development

- Students are involved and it supported in learning
- Course
- Seminar
- Practical knowledge
- Education and Sports
- Overall quality of the degree program
- The practical courses and skill development are the most useful part of the curriculum
- Learning
- Learning more about computer science
- Practical
- Programming languages
- Overall quality of the degree program

What was the least useful part of the Curriculum?

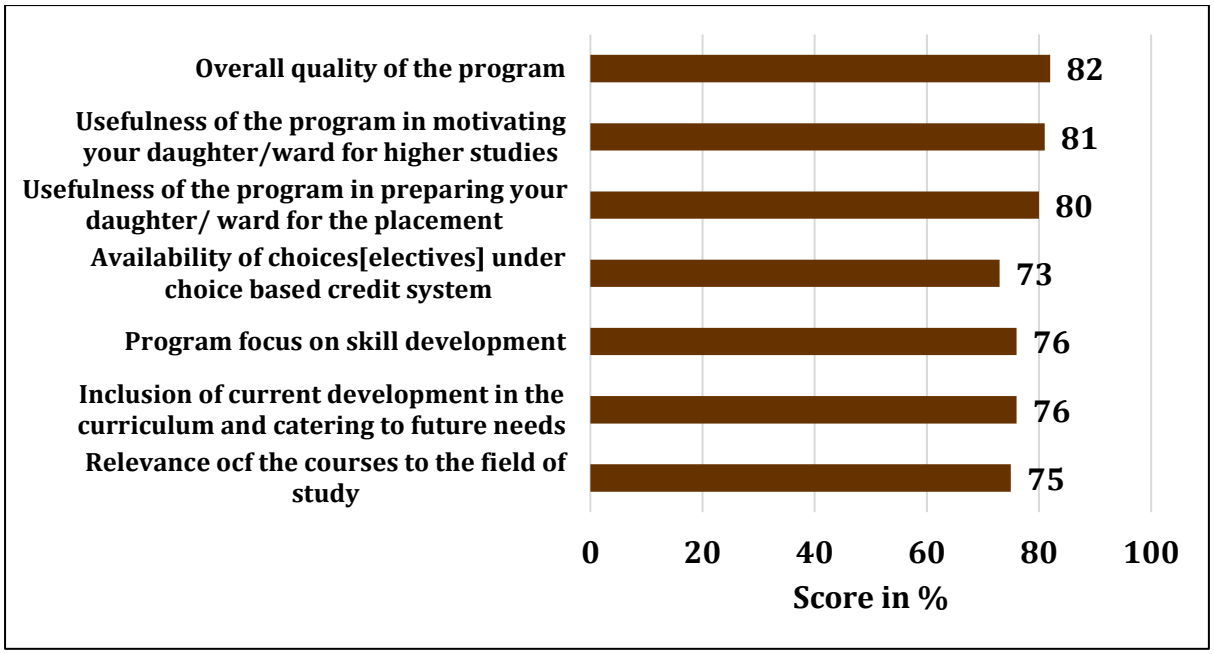
- Language classes.
- Sports
- Tamil
- Learning old fashioned programming languages
- Nil
- We know CIA is a good practice only ...But we need some time for that ...
- Nothing
- Nothing least
- Compulsory Physical Education and Extension activities
- Memorising
- Nothing
- Nothing
- Extra classes like Some workshop which waste our wards time
- Extra college hours and least time for interval
- Nothing
- Availability of choice
- Physical education , limited time for interval
- None
- Nothing
- Nothing
- There is no least useful part in the curriculum but i would say that the communication is the next useful part.
- None
- None
- Nothing
- Statistics
- Nothing

What changes do you suggest to improve the Curriculum?

- More teaching
- Please make adequate changes to curriculum to cope with current lifestyle.
- "To have fun conversations with the students.
- Because not all students come from a good background so they have many family problems.
- I hope that the teachers can interact with the students and have fun talks in between the classes."
- To be updated in programming language tutoring
- More practical
- Want Some improvement in placement....
- Ability Test should be conducted periodically
- All are fine and good
- To change the timings for the second shift college students from 12 to 5 so that the students would be able to reach the home or hostel before dawn. And also give more importance to culturals and events
- Everything going well
- All good
- Continue the same
- To teach in a way to understand it easy
- To explain well
- Introduce new technologies to the students.
- Inclusion of more practical papers
- To help the student for talk in English
- Introduce Innovative infrastructure
- Assignments
- I am satisfied
- All are fine
- It's already perfect
- I do not suggest any changes because I feel satisfied in this curriculum itself.
- Knowledge
- None
- Having more practicals
- Improve according to the new things that takes place in the IT field....and teach everything that is happening up to date...
- Nothing

* * * * *

II B.Sc. Information Technology



What was the most useful part of the Curriculum?

- Programming languages
- Learning new program like C,C++,Java, Python etc and gaining knowledge related to the subject
- FUTURE NEEDS
- Usefulness of program for preparing for placements
- Gaining knowledge
- Programming languages
- Placement
- Studies
- Project works, seminars
- She can able to improve her knowledge based on her degree
- A program of studies
- programming languages i could say
- Skill development
- A very important part of curriculum implementation is that the teacher should consider carefully the order in which learning targets should be learnt.
- Usefulness of the program in preparing for placement
- Programs on skill development
- Good exposure
- Project's, seminar and the knowledge.
- Gaining knowledge
- Gaining knowledge
- Gaining knowledge

- Gaining knowlege
- Aims, Goals ...
- Improving each day and gaining knowledge in various parts
- Good exposure
- Internal exams
- Gaining knowledge
- All is good
- Studies and extension activities
- Easy learning towards coding and computer skill
- Seminar

What was the least useful part of the Curriculum?

- Nothing
- NOTHING
- NIL
- Null
- NIL
- No
- None
- Some Teachers are not good in teaching
- Program focus on skill development
- Nothing
- Nothing
- Nothing
- None
- None
- Nothing
- Nil
- None
- Nothing
- Nothing I guess .. everything is indented to improve the students curriculum
- Nothing
- Writing assignment

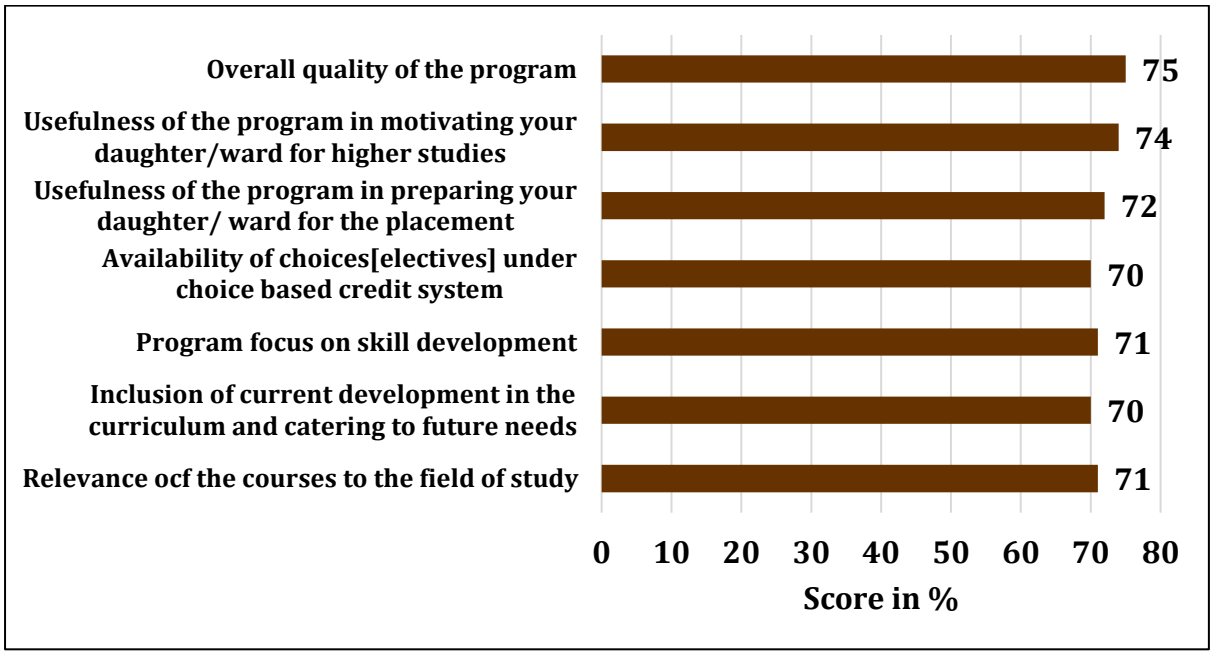
What changes do you suggest to improve the Curriculum?

- No idea
- MORE PROGRAMS
- NIL
- Nil
- Null
- NIL
- More programs to be conducted to train the students according to the current trend
- Everything is perfect

- More practical based learning would make the students cope up with their studies well.
- None
- To allocate correct classrooms for all departments .
- Null
- Seminars to be conducted for the improvement of children
- Nothing
- Electives has to be given what the students choose sometimes it is not.
- Good teaching of teachers
- Learn technical skills
- Adopt to technology
- Nothing
- Nothing.
- Nil
- None
- Nothing
- To have more fun sessions for them to set their minds free to focus on academics
- Nothing
- Asking questions in class hour

* * * * *

III B.Sc. Information Technology



What was the most useful part of the Curriculum?

- Conference recently held by computer science department
- Subjects
- Personality enrichment
- Nice campus and discipline
- Conducting extra curricular activities for the students it was very useful for them to develop their skills.
- The curriculum was good. It's helpful to develop their skill's
- Conducting programs and seminars related to the subject, workshop classes.
- Coding and development of apps
- Seminars
- Program focus on skill development
- All good
- Can learn unknown topic

What was the least useful part of the Curriculum?

- Northing I guess
- Nothing
- Ntg
- Blocks
- Nothing to tell about the least part.
- None
- Everything is useful
- Nothing
- Nil

What changes do you suggest to improve the Curriculum?

- The subject should be more practical in teaching and learning wice..not just sitting in lab means practical.. Teaching should be fun so that every student will have 100 percent attendance and there should be a complaint box in every class so that from the feed back of complaints the institute can improve.
- Cultural activities
- More practical work
- All the classrooms should be in same block and same class.
- To improve new advance technology implement subjects
- Should Conduct soft skill classes.
- Finial year students could either choose project or internship or do project in a team of 2 per student doing project is hectic and stressful
- Courses could incorporate current topics
- Nothing
- All good
- Can improve surrounding of campus.

ACTION TAKEN REPORT ON PARENT'S FEEDBACK ON CURRICULUM (2022 – 2023)

B.Sc Information Technology

Most of the parents are of good opinion on curriculum design and development. Very few parents expressed their dissatisfaction over some questions and gave their suggestions. Based on these opinions the following action will be taken.

S. No	Areas on which parents felt as the least useful part of the curriculum	Action Taken
1	Availability of choices [electives] under choice-based credit system	To enhance the contents of the syllabus as per industry standard, every year the curriculum has been updated. The curriculum offers various choices for electives such as Cloud computing, Biometric Techniques, Digital Forensics, Internet of Things, Security in Computing, Big Data Analytics, Trends in Computing, Machine Learning and Block Chain Technology which are up to date to the current IT trends and provide an opportunity for the students to improve their technical skills and placement opportunities. For the upcoming year, it has been planned to add new highly demand technology focused courses such as Artificial Intelligence and Virtual and Augmented Reality. These opinions, on which parents expressed their dissatisfactions, have been considered and will be executed during BoS evaluation.
2	Inclusion of current development in the curriculum and catering to future needs	

S.No	Areas on which parents suggested to improve the curriculum	Action Taken
1	Adequate changes to the curriculum to cope up with currents trends	Is in practice
2	Conduct seminars for the upliftment of the students	Is in practice

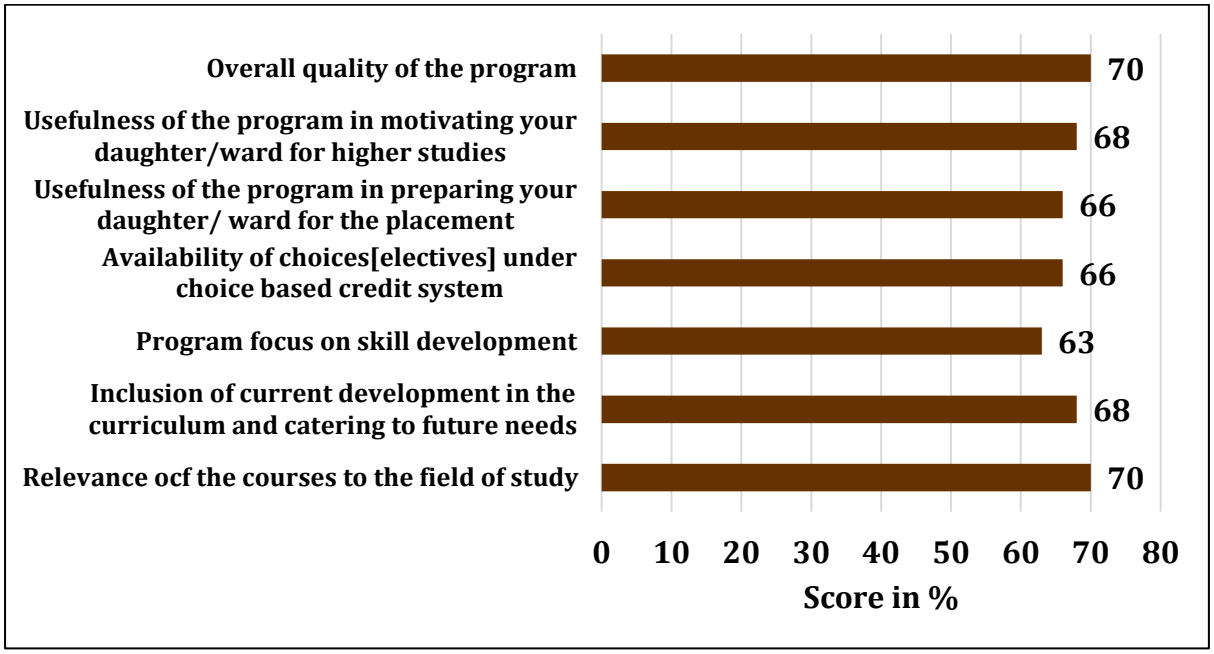
Parent Feedback on Curriculum
February 2023

I M.Sc. Information Technology



What was the most useful part of the Curriculum?

- Useful for future work place
- Usefullness of the program in motivating your daughter /ward for higher studies
- Learning coding
- Curriculum is regarding as the heart of institution. It helps the teachers to deliver the quality education. Curriculum is the center of all educative process. Without curriculum we are direction less.
- Everything
- Knowledge skill
- It is useful to improve knowledge
- Developing the skills and Gaining knowledge.
- Teaching methodology
- Practical classes
- Program focus skill development

What was the least useful part of the Curriculum?

- Nil
- Program focus on skill development
- Although the curriculum was well drafted the efficiency of the teachers must be improved

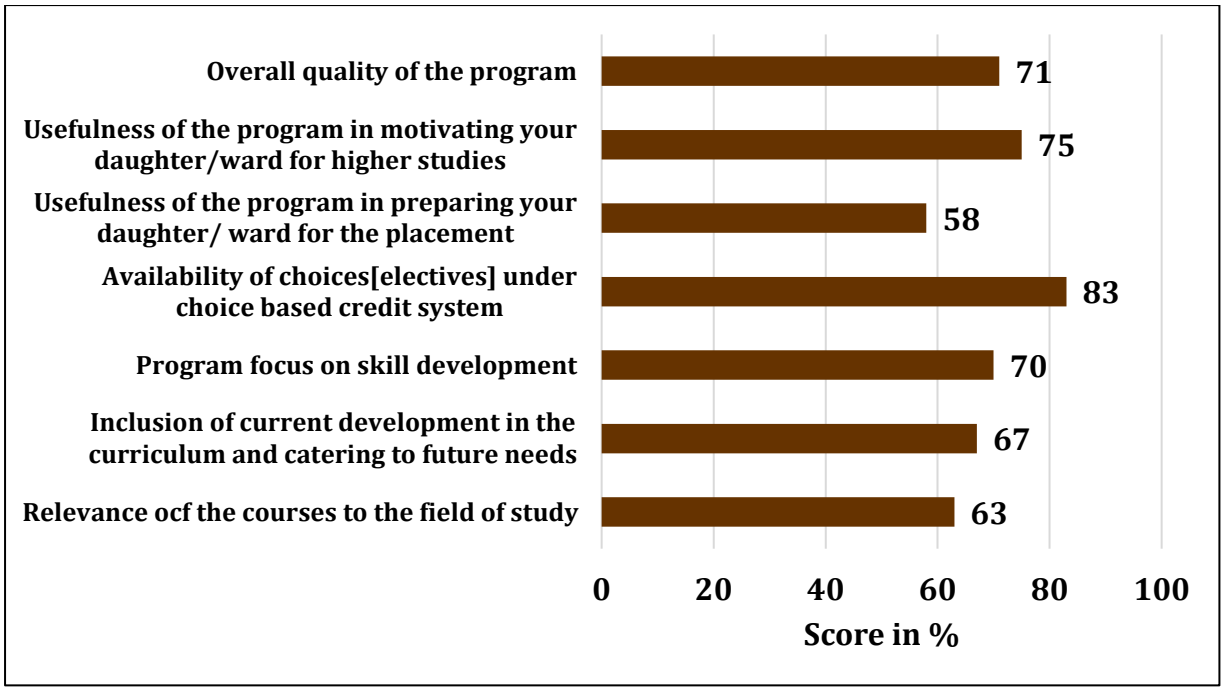
- Curriculum is regarding as the heart of institution. It helps the teachers to deliver the quality education. Curriculum is the center of all educative process. Without curriculum we are direction less.
- Nil
- Nothing like that
- Nil
- Nil
- Overall quality of the degree

What changes do you suggest to improve the Curriculum?

- Could include recent technology subjects
- The efficiency of the teachers must be improved
- Nope
- Nil
- Everything is good in curriculum
- Developing more practical skills.
- Inclusion of internship, training in the live working area, inclusion of training and educating in new softwares
- Nothing

* * * * *

II M.Sc. Information Technology



What was the most useful part of the Curriculum?

- Learning
- Nil

What was the least useful part of the Curriculum?

- Nothing
- Nil

What changes do you suggest to improve the Curriculum?

- Nothing
- Nil

* * * * *

ACTION TAKEN REPORT ON PARENT'S FEEDBACK ON CURRICULUM (2022 – 2023)

M.Sc Information Technology

Most of the parents are of good opinion on curriculum design and development. No parents considered the curriculum as the least useful part and expressed their dissatisfaction. The changes that they suggested to improve the curriculum and the action that are taken is given below.

Area on which parents expect improvement	**Action Taken**
Up-to-date Syllabus	To enhance the contents of the syllabus as per industry standard, every year the curriculum has been updated. For the upcoming year, it has been planned to add new courses according to the current trend in programme to provide an opportunity for the students to improve their technical skills and placement opportunities and will be executed during BoS evaluation
Inclusion of Internship	Is in practice

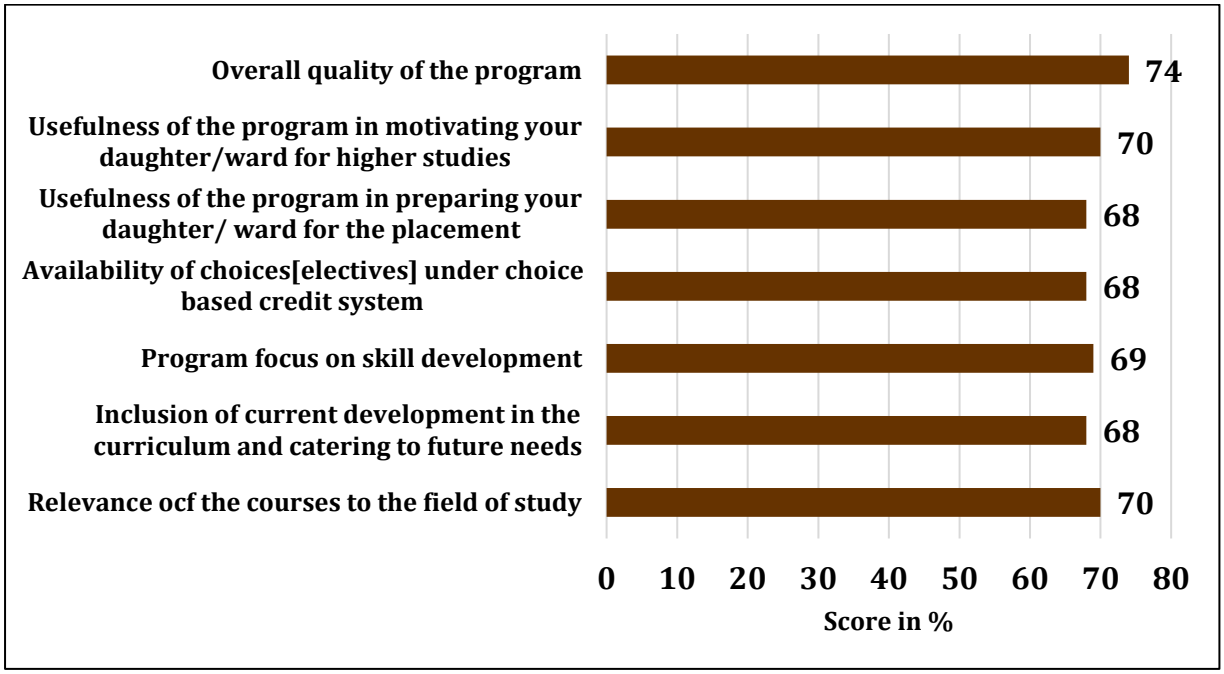
Parent Feedback on Curriculum
February 2023

I M.Sc. Computer Science & Technology



What was the most useful part of the Curriculum?

- Lab
- Laboratory
- EVERYTHING
- "My daughter has developed a skill in doing C programming confidently. She had supporting teacher's in the first semester.
  Overall she had a good place to experience her new transition."
- Since my daughter study a computer related course, practical classes really help a lot for the improvement of the ward.
- Learning, understanding.
- Discipline
- Lab

What was the least useful part of the Curriculum?

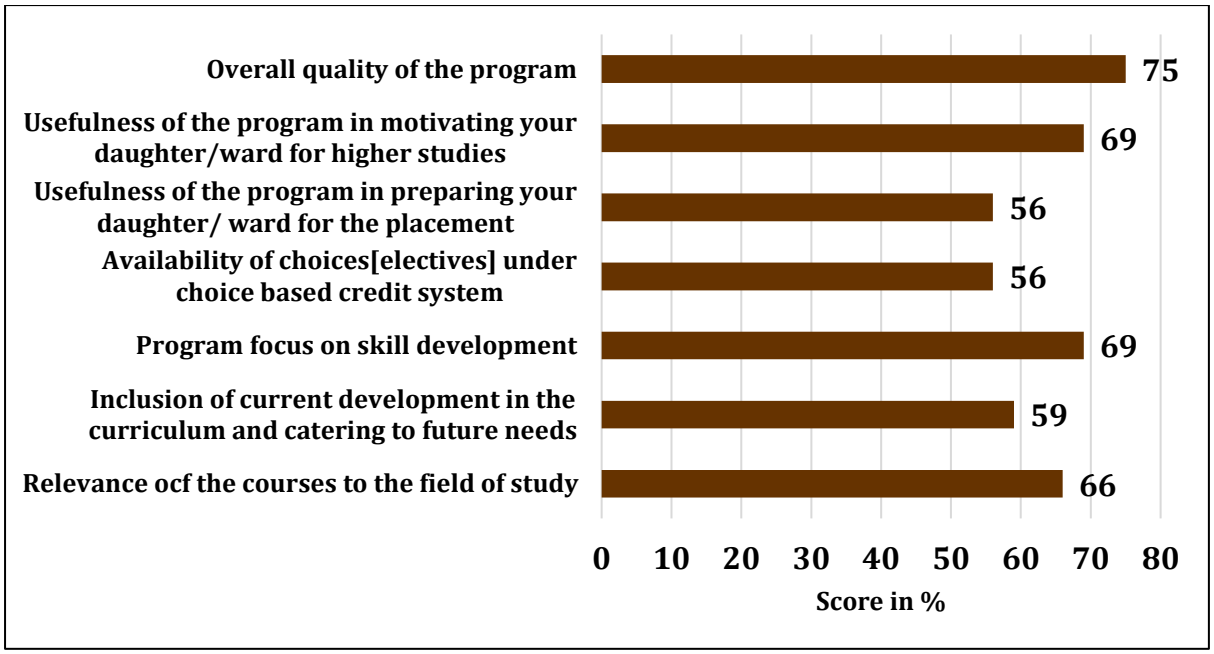
- Ground
- Assignment
- NIL
- Nil
- Physical education
- These general English class, lang class, nme class.. doesn't do anything for the specification of the degree.

What changes do you suggest to improve the Curriculum?

- Teaching
- NIL
- The overall curriculum is satisfactory and conviencable perhaps only when there is a good communication and understanding exist between teacher and student, they can enjoy the benefits of their curriculum. Students should seek knowledge from their professors other than the book.
- Can give a little less important to other subjects and concentrate more on the core.

* * * * *

II M.Sc. Computer Science & Technology



What was the most useful part of the Curriculum?

- Practical classes.
- Placement

What was the least useful part of the Curriculum?

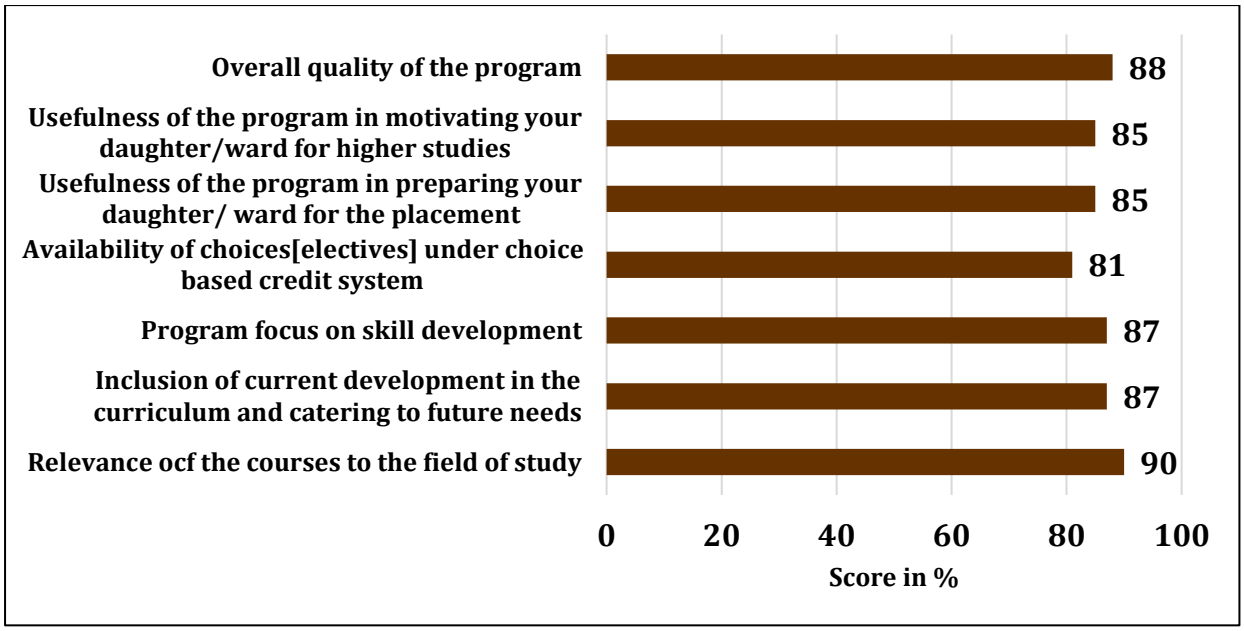
- Non Major Electives.

What changes do you suggest to improve the Curriculum?

- Technology update with industry professionals.

* * * * *

III M.Sc. Computer Science & Technology



What was the most useful part of the Curriculum?

- learning extra subjects
- She became self-dependent on these days.
- The most useful part of curriculum is include all the subjects in related courses
- Gaining knowledge
- Relevance of the courses to the field of study
- All the subjects are now in trend and have high scope based
- Relevance of the courses to the field of study

What was the least useful part of the Curriculum?

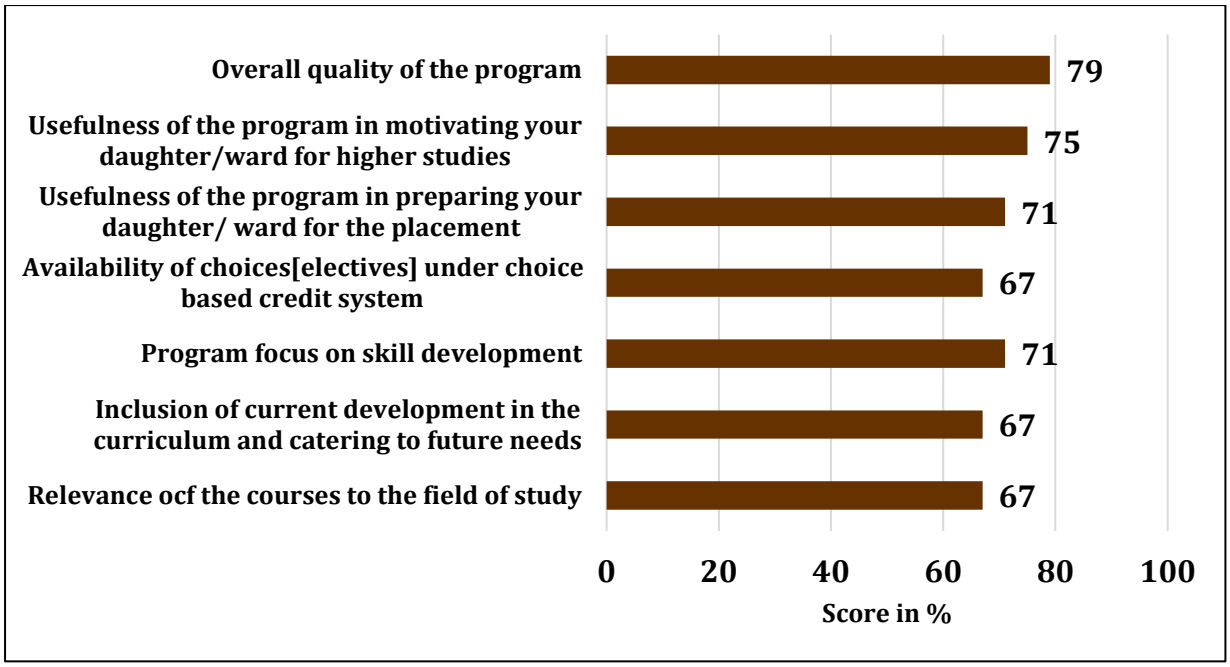
- Nil
- Assignment
- Seminar
- Inclusion of current developments in the curriculum and catering to future needs
- Not attending extra curricular activities because of hard syllabus
- Availability of choices (Electives) under Choice Based Credit System

What changes do you suggest to improve the Curriculum?

- Nil
- No changes
- By providing PowerPoint presentation
- Students should be self-motivated
- To encourage people to concentrate on both studies and extra curricular activities
- Trending and current subjects to add on the syllabus.

* * * * *

IV M.Sc. Computer Science & Technology



What was the most useful part of the Curriculum?

- NIL
- Having seminars
- Value education and electives
- OVERALL EVERYTHING WAS GOOD
- Internals practices

What was the least useful part of the Curriculum?

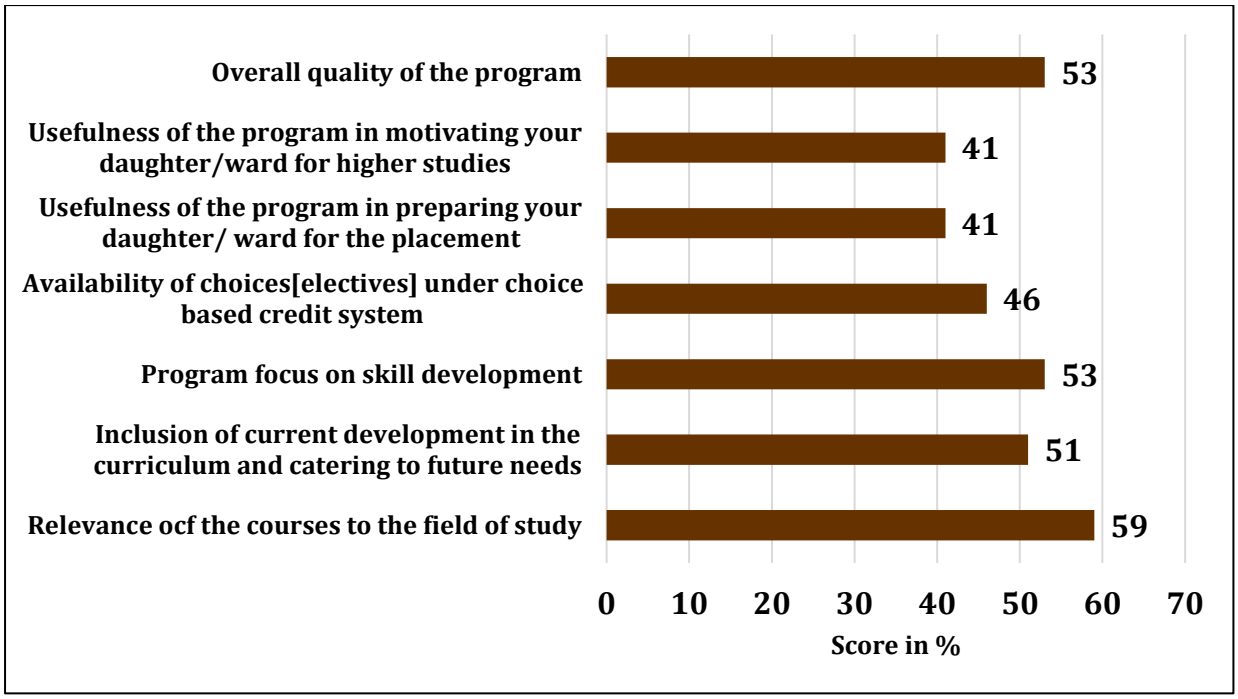
- NIL
- None
- placements
- Nothing

What changes do you suggest to improve the Curriculum?

- ATTENDANCE HOURS PERCENTAGE CAN BE REDUCED . 85% IS VERY HIGH
- None
- Nothing

* * * * *

V M.Sc. Computer Science & Technology



What was the most useful part of the Curriculum?

- Nil
- Practicals
- Skill development
- Project, research
- Expert guidance given by the faculty.
- Practical, project
- Skill development

What was the least useful part of the Curriculum?

- Nil
- SK
- NME and SK
- Nil
- Nothing in particular
- Nil

What changes do you suggest to improve the Curriculum?

- Nil
- Treat them like adults
- Clean the Restrooms regularly, keep dustbins inside the restrooms. Install Sanitary napkin machines in every restroom.
- Nil

- NIL
- Clean the Restrooms regularly, construct extra restrooms. place dustbins on campus
- Nothing in particular
- NIL
- Kindly clean the restroom, For PG students improve the campus placement
- Have to improve sanitation and improve placement facilities for PG students. Library has lack of books which kills students reading ability.
- Nil

* * * * *

PG Department of Computer Science and Technology

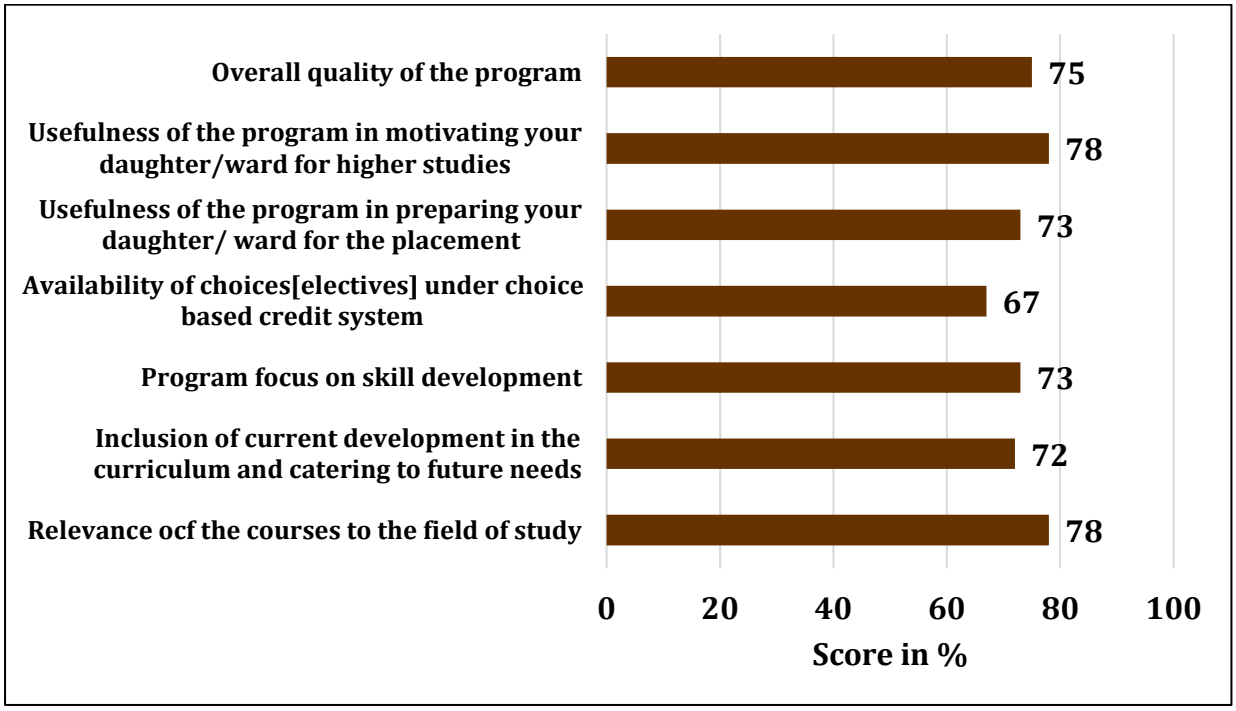
Action Plan based on Parents Feedback

S.No.	Response	Action Taken /Explanation
1	To reduce the number of Language, NME and SK courses	The Department has included the courses as per the University template followed by the College.
2	To update curriculum with courses that include recent technologies in consultation with Industry experts.	• The syllabus is updated every year as per the suggestions by BOS members where one of the member is an Industry expert • Seminars, Workshops and Conferences are conducted periodically to give a view about the recent technical updates in the Industry. • Various technical events are conducted through the Department Association "Renaissance"
3	Placement has to be enhanced for PGs	Last year 12 students out of 14 got Placements in PG. As the Industry is in recession this year, the placements are less.

* * * * *

Parent Feedback on Curriculum
February 2023

I B.Sc. Visual Communication



What was the most useful part of the Curriculum?

- The way they infuse technology with learning
- Communication skills
- good teaching
- Extra curricular activities
- Rules and regulations
- communication skill
- It improves her knowledge day by day
- To learn more new things
- The field of study
- Exciting activities
- They way of interrupting technology in these to make it easier
- Self confidence
- Relevance of the courses to the field of study
- Fluency of English
- The technological part
- The most useful part is we get to learn new things and media techniques
- Communication

- Opportunities
- It helped to convey ideas and information to students in a way that was both engaging and easy to understand. Teachers are very helpful and pay individual attention to every student.
- Good course teaching system good
- Motivation
- Interactions between the students and teachers are great hence helping the students understand better
- Practicals
- Ample of opportunities for exploring talents
- Inclusion of current developments in the curriculum and catering to future needs
- Makes them more active and energize and also motivates them.

What was the least useful part of the Curriculum?

- Nothing
- Language (French)
- rushing up portions in last minute
- Social ethics
- Nothing
- Tamil
- No
- Needs more practice on some subject
- Degree program
- NIL
- Nothing
- Infrastructure could be enhanced.
- None
- Nothing
- Update
- None
- Technical instruments need an upgradation
- A bit tiring

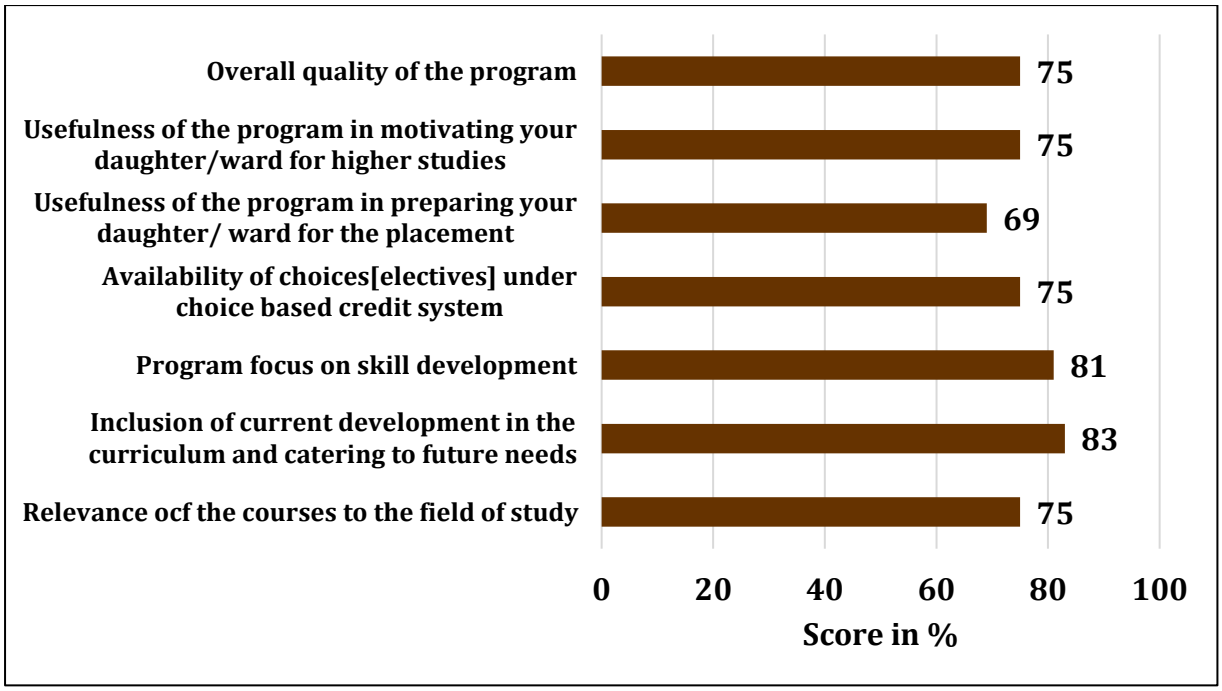
What changes do you suggest to improve the Curriculum?

- More practical experience can help
- More practice in practicals
- take to some industrial visit
- Od's and permission should be provided for the students while they are interested to participate in other college competitions , without any partial
- extra activities
- (Practical improvement required in advertising) Advertising laboratory practical hours need to be extended.

- No
- To teach them in a practical way for the subjects which they are facing difficult
- Skill development
- More practical exposure.
- I like the way it is
- It would be great if the institution could create more intraction with media related skills.
- The digital aspects of visual communication
- Nothing
- Teacher close with students more
- None
- To upgrade the technologies
- More practical knowledge
- Making it more interesting and by adding extra activities

* * * * *

II B.Sc. Visual Communication



What was the most useful part of the Curriculum?

- Teacher's support in academics and extracurricular activities like spots and NCC
- Editing

What was the least useful part of the Curriculum?

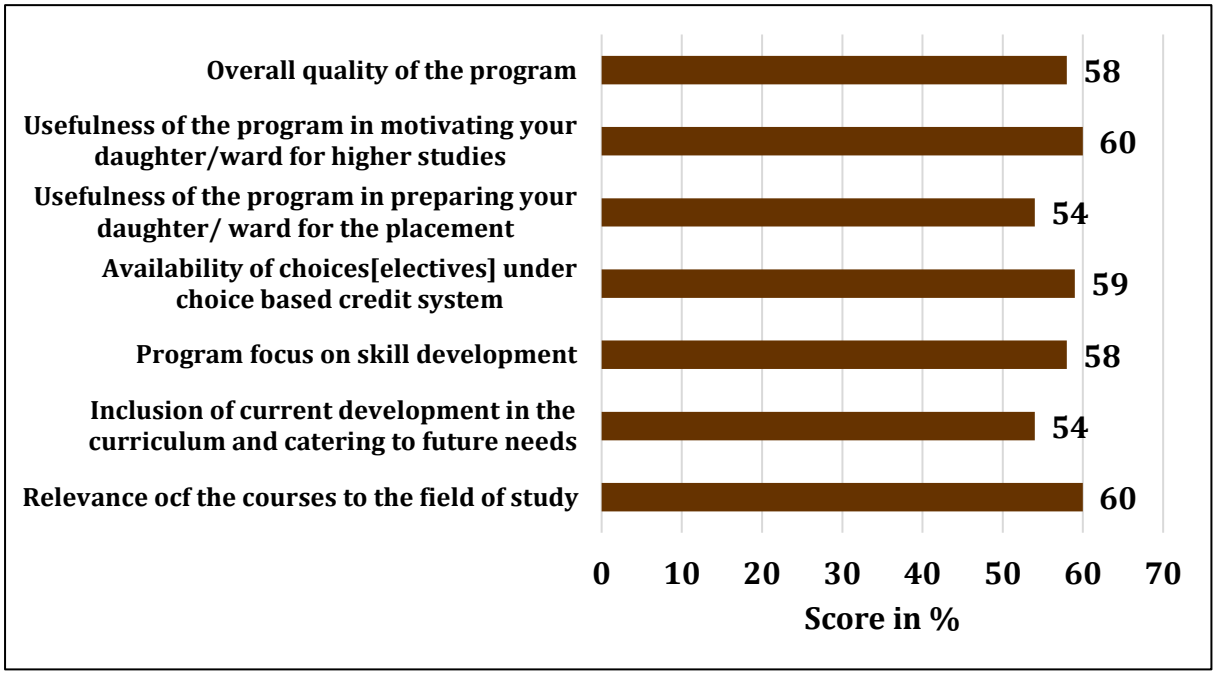
- Tamil
- No practicals and mostly theories

What changes do you suggest to improve the Curriculum?

- It will be useful if students go for industrial visit.
- Since the course deals with a lot of oractical activities, it would be better if u take the students on an ongoing industrial visits and field trips, as a study tour, on the required subjects. The syllabus incorporates in class study works rather than going and visiting the required places and ib industries.

* * * * *

III B.Sc. Visual Communication



What was the most useful part of the Curriculum?

- Exposure and giving them the confidence through internship
- Improvement in what she wanted to do
- Good exposure, Good Faculty
- Teaching with interactive activities.
- Digital Story Telling- Sharmila Christy
- Anything related to filmmaking
- Google classrooms
- Internship
- My daughter said, digital story telling and digital composting is useful part
- Exposure to Media Tools
- curriculum seeks to contain all the facts and methods of delivery for a learner
- Program and skill development
- Industrial visits.
- Came to know about the media industries.
- It is more of practical works
- She's interested in her career and to be independent.

What was the least useful part of the Curriculum?

- Not sure
- Nothing as such
- NIL

- To much theories and histories.
- NME- Advanced Tamil SE- Business tally and accounts SKB- English for Workplace French as language. These courses are irrelevant to this course. Choose relevant options
- Language and skill based subjects
- Environmental studies subject
- No idea
- Critical Analysis
- NA
- PE
- Some outdated concepts in all subjects.
- No idea
- given access to limited media equipment
- Now she's bold and well educated to face the society.

What changes do you suggest to improve the Curriculum?

- Need more physical activities
- Good staff and faculty.
- Everything is perfect
- More of practical subjects.
- Courses relating to recent development of media and practices. The current seem to be benighted to the advanced or progressing media industry.
- 1) Keeping up with technology and advancement in the field of Design
  2) Do away with language, it's a waste of time
  3) All students were using pirated software which is against the law. The college could have availed of the student discount
  We individually paid for my daughter's software
  4) Placement options are necessary
  5)Hands on industry experts exposure
  6) Lab open for students to use
  7) course has to tie up with the industry experts to stay relevant.
  Taking into consideration that this was the Pandemic batch. I think it was most anyone could have done. I understand it was challenging for teachers too. No one was prepared.
  Working and placement from 1st year would be good, even if it's for 2 hours. As this is a very hands on practical field.
  It would be nice if the college hours for this course was till 4.30 to avoid rush hour
- Updating softwares and theories to recent times
- More facilities
- Some practical activities and emotionally touch the students, IV, tour, Placement etc...
- Acknowledging the student's work, efforts and talents instead of undermining them would really help them move forward.
- NA

- Involvement of subjects that are actually useful to the students, subjects that will help them get placements and prepare them for the future to get better job opportunities.
- There can be more of field visits so that students can see things in practical.
- Subject requires new technology to make it more understandable and practical
- Need to be the best in all things

* * * * *

Department of Visual Communication

Action Report for the Parent's Feedback 2022-2023

The course is highly appreciated for the following features:

1. The curriculum has a well-balanced theory and skill-based activities.
2. Internship allows students to experience the professional workspace before graduating. Many students got job opportunities through Internship.
3. The students are trained professionally to present proficiently in interviews for high profile jobs and higher studies.
4. Students are highly motivated towards personality development and teambuilding.
5. Fostering an environment that encourages leadership qualities.
6. Industrial Visits and Guest lectures helped the students to gain more practical knowledge.
7. Department Alumnae is invited for pep talks regarding entrepreneur scope and skills.

Scope for improvement:

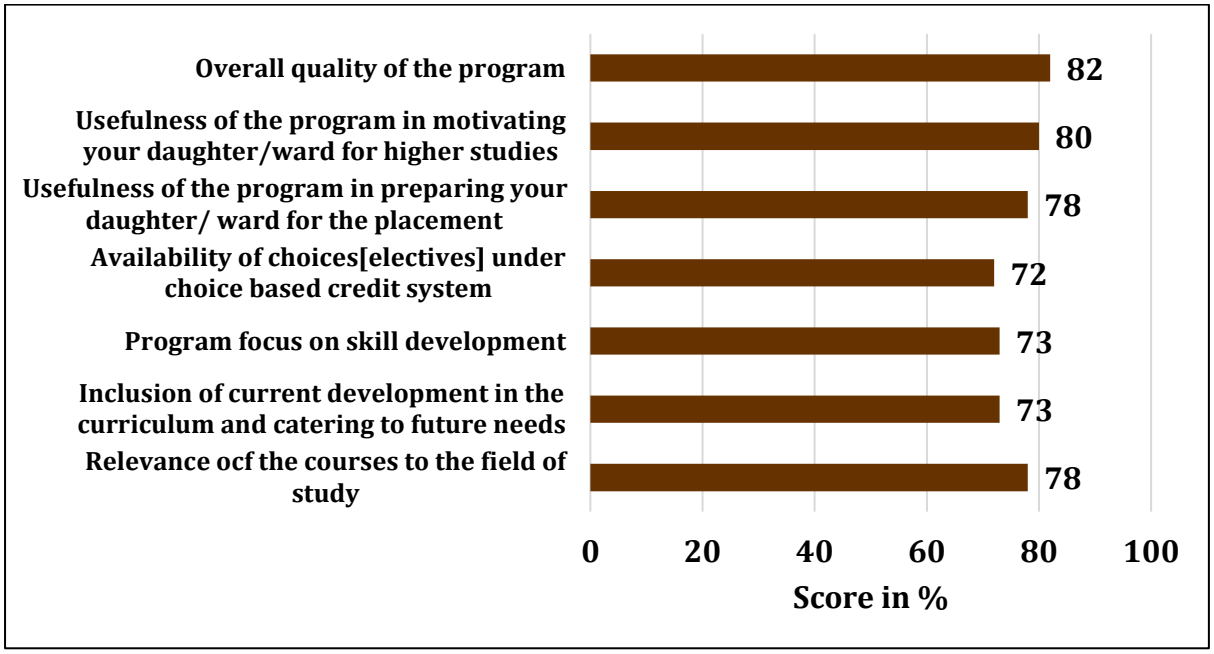
1. Placement:
    a. Neeyamo conducted interview for placement in Marketing and Corporate communications. The visual communication students actively participated.
    b. Students are placed in reputed designations such as Graphic designer, Animator, Video Editor, and Social Media marketer.
    c. Career guidance pre-placement sessions and media-oriented placements are planned for the students.

2. Courses like Introduction to UI/UX, Virtual Reality to be introduced as the core elective subject
3. Every course will include more Expert talks and field visits apart from the usual practice.

* * * * *

Parent Feedback on Curriculum
February 2023

I B.Sc. Psychology



What was the most useful part of the Curriculum?

- Syllabus
- Adding supporting classes
- Development psychology
- Teachers are kind and interactive with the students
- Syllabus
- The core and supporting electives
- Doing there assignments
- The choice of core and the chapters within the core papers
- Quality and is overall good
- Program focus on skill development
- Developmental psychology
- Importance of sports
- Inclusion of current developments
- Good teaching
- Core subjects
- Higher studies
- Catering future needs and programs in skill development
- Value added course
- Teaching and subject
- Workshops
- Psychology

- All the core subjects
- The department faculty and concepts covered in syllabus
- My daughter leaning more things
- Na
- Including certificate courses like basic counselling course and dyslexia course
- The course and the placement
- The extensive syllabus gives a broad perspective.
- Everything including the certificate courses which is very useful
- Attending courses, educational (studies)
- Relevance of the courses to the field of study
- Basic psychology

What was the least useful part of the Curriculum?

- Nothing
- Cpe
- Mandatory physical education
- Language
- Nothing
- Language is kind of difficult so it is better if the standard is reduced
- There is nothing to mention as least in this curriculum
- Nothing
- Language paper
- Non
- Tamil language
- Under choice based credit system
- Nil
- Including 2nd language (Tamil, Hindi, French)
- Nil
- Social ethics
- NME
- There was no least useful of the curriculum
- Na
- Compulsory physical education and different timings for that
- Nothing
- N/a
- Nothing
- Nothing
- None

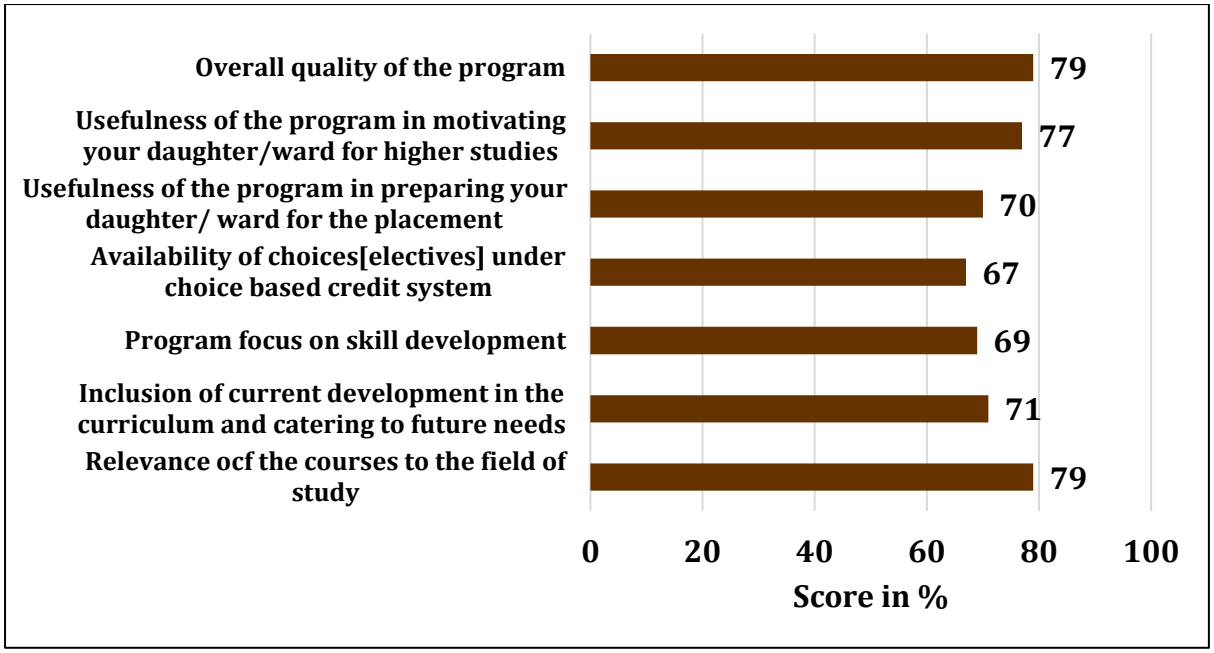
What changes do you suggest to improve the Curriculum?

- Conducting more seminars ,conferences and field visits
- Workshop regarding the core subjects

- Leave away subject
- Workshops and much more activities should be considered to make the children engaged
- To keep online classes on holidays
- Hours for sports to be reduced
- To have more skill development courses
- Opportunity to learn new recognised foreign language other than the mother tongue.
- Non
- Remove of language (Tamil, Hindi ,French)
- Including more useful workshops, programs
- No
- Nil
- Just by removing the 2nd languages , only English will be enough
- Nil
- Using projector for the lecture
- Nil
- None
- Providing sufficient time for lunch
- None
- Exposer to more knowledge and skill required for this course and other necessary skills apart form the curriculum
- Introduce more workshops and campaigns for students
- Improve actvities and workshop among the students where there wont be any distraction.
- N/a
- More practical based learning and programs will help
- Introduce more courses to students
- Make it more practical.

* * * * *

II B.Sc. Psychology



What was the most useful part of the Curriculum?

- Curricular activities
- The extensive seminars that are conducted and the practical exposure given
- The part we're the students were given assignments that made them to interview people. Its really useful.
- Team spirit
- Academic
- Practical exposure to the field
- It helps her to develop her carrier
- My daughter Learning more about herself and accepting herself
- The certificate courses
- Quality of Curriculum
- Case studies and practical approach
- Workshops
- Program focus on skill development
- To focus more and develop our knowledge about the subject.
- Learning and development psychology
- Human Service
- Learning to communicate and help others more effectively
- It included all intricacies required to understand the subject
- A few professors
- Syllabus is well structured
- Campus

- Give more useful and basic knowledge
- The core subjects
- Teachers Guidance
- Seminars, certificate courses
- Skill development and the knowledge about the upcoming courses
- Motivation to study and do better in the field
- The topics and sections are relevant to the subject my ward has chosen.
- Gaining more knowledge

What was the least useful part of the Curriculum?

- Nil
- The language classes
- Nothing like that. Every part of the curriculum is useful in one or the other way
- Nil
- Nothing
- Nothing specific
- SKB classes
- None
- (Some) Faculties without experience
- Nothing
- Nil
- Availability of choices (Electives) under Choice Based Credit System
- Placement
- Communication skilled
- Skill based English
- Nothing to complain
- Certain concepts focused only on the theory aspects.
- Nil
- NME, Language paper
- Nothing
- The language classes
- Direct Field exposures
- Language
- Current developments may be.
- Languages are taught for two years.
- Nil

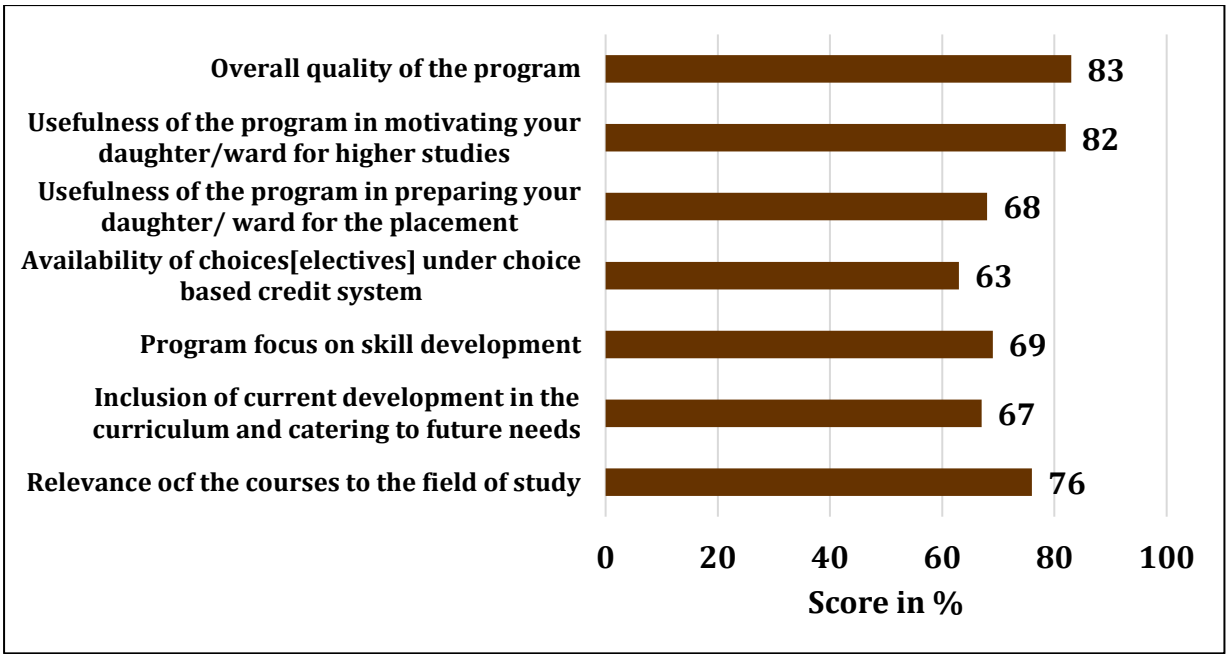
What changes do you suggest to improve the Curriculum?

- Provide internship for self financing course and field trips
- Increasing the exposure...practical assessments are needed
- Need more of practical sessions. Theoretical part is strong. But need to include practical sessions. It will be helpful for them to learn more about their career.

- Make further more practical based growup
- Stress management , listening skills,
- More of practical based subjects
- Nothing specific
- To involve more practical knowledge
- No changes
- Strict monitoring should be done even during CIA as many students are using bits to copy.
- Send them to the school counselling for students
- Nil
- Conduct Internship and work shop to improve individual skills
- Personality development
- Weekly assessment to be conducted
- Weekly assessment to be conducted
- Nothing to complain
- Talks and seminars and internship opportunities
- Curriculum to be more focusing on psychological assessment tools
- Improve security. Include workshops, share information with parents about internships so we can also guide and give directions
- Please add the PG nos in the syllabus
- Efficient staffs
- Skill based and practical based curriculum and field visit will improve the students knowledge in various area
- To have more course related subjects and have more elective subjects rather than having language classes
- Inclusion of practical application of psychological concepts
- Make the curriculum more focused on application rather than memorizing
- Nothing
- Skill development
- Languages should be included for 1 year instead of two so the students can focus on core papers more
- Nil

* * * * *

III B.Sc. Psychology



What was the most useful part of the Curriculum?

- Teaching along with material
- The extensive knowledge my daughter has obtained and the skills she has developed
- Approachable professors
- Interactive way of learning
- Actually speaking, my daughter talks proudly about her HOD, how understanding and supportive person she is in the entire college. Faculty wise, we are dissatisfied for one particular professor but however it seems she is trying to be receptive of students' feedback. But Making one teacher handle 3 subjects, when the students are complaining about her is not fair. May be considering the fact that the teacher is in the process of adapting, switching a better professor for at least with one core subject is not a big ask?! My daughter and her friends are self-studying because of this.
- It is informative.
- Assignments and conduction of few lectures
- Classroom discussions
- Core subjects and assignments
- The curriculum is based on current practices and it has been useful in gaining insight about many new aspects of the degree
- final year project works
- The practicals & experimentation has given more exposure on the knowledge of psychology
- Project component

What was the least useful part of the Curriculum?

- No preparation offered for placement
- Some electives could've been replaced
- Language class
- Language
- "While joining the same course of BSc.Psychology, we were told its all the same syllabus as in shift 1. But it's such a fake thing. The papers differ from that of shift one. Just because we get aware of it quite late makes us feel bad and my ward thinks because we were not informed of it, finds it really disappointing that she wasn't able to join Shift 1.But, the management could have mentioned all the differences, prior. This was disappointing when we came to know. Curriculum wise, it's good. We just want it to be maintained.
- NA
- Nothing as such as of now
- Few assignments
- Every part of the curriculum was useful
- NA
- Language

What changes do you suggest to improve the Curriculum?

- Preparation for placement
- An aspect that includes more relevance to the world
- To reduce the work load
- To improve interactive way of teaching
- Curriculum is fine.
- Kindly keep the restrooms open till 5:30 pm. After all, that is when the college is winding up. My daughter have to travel for 2 hours to reach home. It seems unfair, that a women's college is doing this. Seems, my daughter's department doesn't have a separate toilet as well. Kindly make sure at least the ones that are farther are at least kept open. This is a serious concern.
- Also, The management is really undervaluing the parents. It's really making us feel bad for how we are treated when we come for our daughter's graduation. We were not let to see our daughter getting her degree on the stage. I understand, there are n number if students and it's highly difficult to give everyone on stage. But We were all made to sit somewhere under the tree, and when we figured out a Assembly hall to be seated, we were not even shown(even in the white screen, it was not projected) what was happening there in the Graduation ceremony. It makes us feel less worth. WCC is incomparable to other colleges in many aspects. In such a prestigious college, when parents are being undervalued is highly upsetting as parents. Kindly make sure this doesn't happen in the future. It disappoints every parent!!!
- Thank you
- NA
- Focusing much on a practical knowledge than theoretical.
- More of classroom discussions and case studies
- Current curriculum is excellent

- It would be better if the curriculum includes more activities and tasks that demands student to involve to get better understanding of the concepts.
- To teach in more innovative way other than just giving theoretical instructions
- It would be better if there was atleast two papers in counselling psychology and atleast one in criminal or forensic psychology

Action taken report – Open day feedback
Department of Psychology Shift II

I B.Sc Psychology

Feedback from parents included – reducing hours of physical education, removing language component from the curriculum, workshops and field visit for students, using projector for lectures.

Action taken:

- Four workshops were done for the I B.Sc Psychology students this semester. More will be conducted next semester.
- Field visits are a part of second year curriculum. They will be taken in the next academic year.
- Teachers are instructed to use projectors not only for presentations but also for their lectures to enhance student understanding.

II B.Sc Psychology

Feedback from parents included – internships and field visits, weekly assessments, removing language from II year, practicals in second year.

Action taken:

- Four workshops were done for the II B.Sc Psychology students this semester. More will be conducted next semester.
- Field visit to Good life center was done as part of SE course this semester.
- Practical papers are for the third year in semester 5 & 6.
- Internship as on the job training course will be offered for extra credits during the summer break of semester 4. Second year students have registered for it.
- Teachers are instructed to revise their units with regular class tests and quizzes.

III B.Sc Psychology

Feedback from parents included – curriculum different from shift I, restrooms to be open till 5.30 pm, practical exposure.

Action taken:

- The curriculum followed in Shift II is exactly same as Shift I.
- HR has been informed regarding the restrooms concern.
- The III B.Sc students were taken on a community outreach program in collaboration with an NGO. They were given training on child sexual abuse workshop skills. The students planned modules and conducted workshops for various standards of students in Green Valley International School.

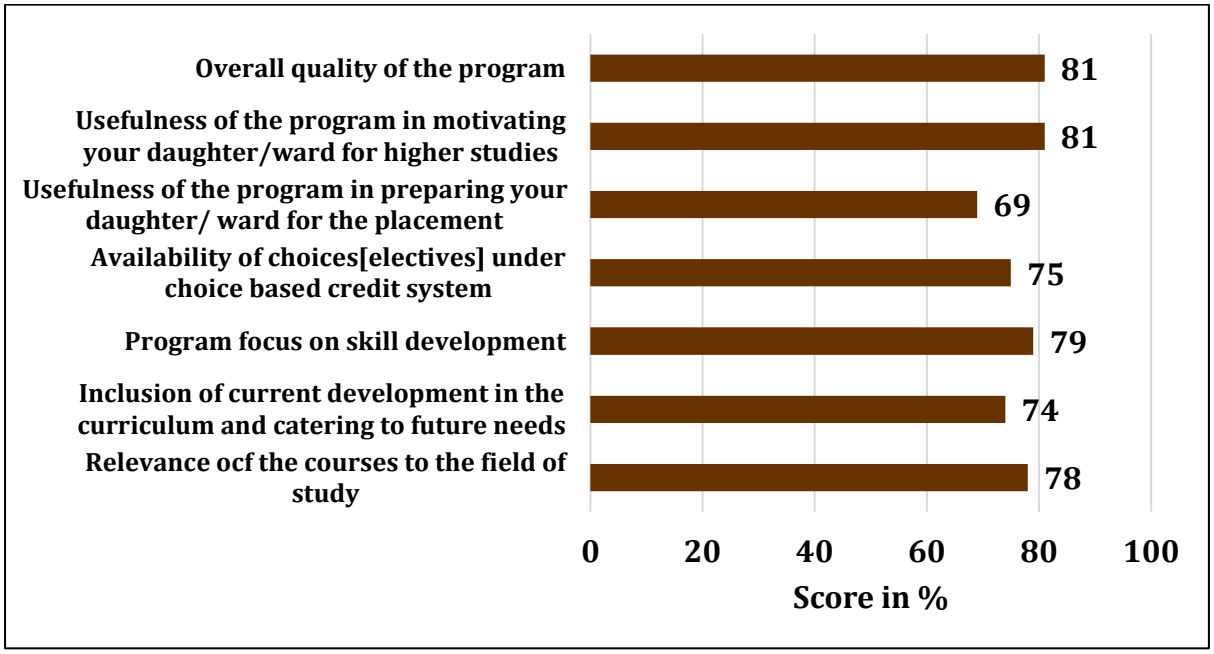
Parent Feedback on Curriculum
February 2023

I M.A. English



What was the most useful part of the Curriculum?

- Way of teaching
- Relevance of the subject to the course.
- Syllabus
- Best courses
- The introduction to a wide variety of knowledge and insight into the course subjects
- Gaining Knowledge
- Quality of Education
- Including practical subjects as well
- Inclusion of real life with the curriculum itself.

What was the least useful part of the Curriculum?

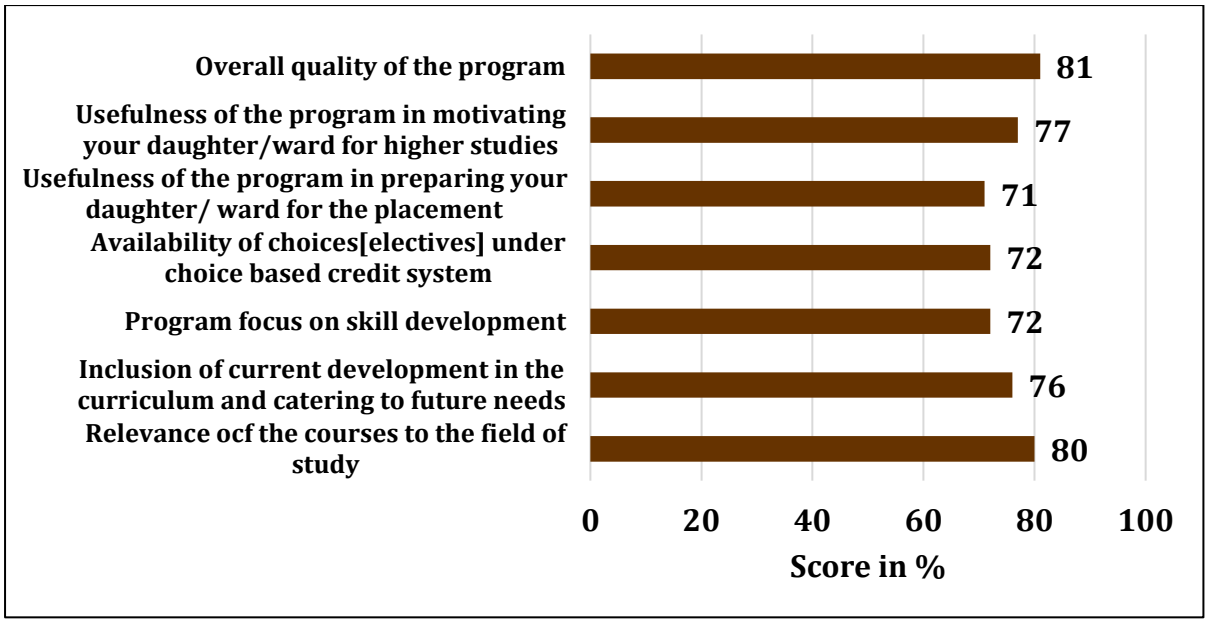
- Overall everything was good.
- It is useful
- The timings allotted for the completion of the work
- teaching is good but sometimes due to busy schedule teachers were unable to take class properly
- College timings for Shift 2
- Less number of library hours

What changes do you suggest to improve the Curriculum?

- Nil
- Nothing to improve it's good the way it is.
- Adding on contemporary texts.
- Nothing specific
- No Suggestion
- Increase library hours

* * * * *

II M.A. English



What was the most useful part of the Curriculum?

- Way of teaching
- Twentieth century literary theory
- Addition of Current studies
- Relevance to current generation
- Studies
- Nothing
- Theories taught
- Core Electives
- The quality of education provided in this institute.
- Education system
- That it is in coherence to their job
- The internal assessment
- Research methodology and project
- The paper on Research Methodology.
- The curriculum aids in giving insight for further studies.

What was the least useful part of the Curriculum?

- British literature
- Nothing
- Nothing
- NME and SKB class
- Lack of Practical guidance rather than theoretical guidance
- Maybe text allotted to each course could be reduced to concentrate more on few
- The inclusion of NME and SKB for PG students
- I didn't feel anything of that sort.

What changes do you suggest to improve the Curriculum?

- No
- Nil
- More Interactive
- More elective options and extracurricular studies could be implemented
- Nothing
- UGC net oriented training to be given
- Lack of opportunities for post-graduate in the field of Sports, extra curricular activities
- Repeated text can be avoided
- Include a creative writing course, maybe as an elective, to help improve students' writing skills for career purposes.
- Expanding focus on a wider range of media and literature. Inclusion of creative approaches to literature along with scholarly approaches.
- The present one itself is good.

* * * * *

Report of Actions Taken in Response to Parental Input on Curriculum

PG Department of English

The PG Department of English has received feedback from parents regarding various curriculum concerns. The department has taken appropriate action to resolve the concerns raised by this feedback. This report details the issues highlighted and the measures taken to resolve them.

Parents were concerned that the time allotted for completing assignments was insufficient. In response to this feedback, the following action has been taken by the department:

Teachers must incorporate assignments into their lesson plans and distribute schedules to students at the beginning of each semester.

This action will aid students in time management and prompt completion of assignments. By incorporating assignments into the lesson plan, instructors can ensure that students are aware of the semester's workload and due dates.

Parents were also expressed their dissatisfaction about the number of library hours allotted per semester. They felt that there were insufficient library hours for PG students. The department has evaluated the regulations of the University of Madras and determined that only one library hour can be allocated to postgraduate students. In order to facilitate this, the department has designed the course profile to allocate one hour per week in every semester.

Thirdly, parents were concerned about the breadth of the curriculum for British Literature: Twentieth Century and After. The department has assessed the course outline for British Literature: Twentieth Century and Beyond and taken measures to address the parents' concerns. By eliminating two poems and combining two courses, the revised curriculum will be more manageable for students and provide a superior educational experience. The new syllabus was passed in the Board of Studies meeting convened on 4th February 2023.

Conclusion:

The PG Department of English has taken the parents' concerns seriously and taken the necessary steps to resolve them. By incorporating assignments into the lesson plan, designing the course profile to ensure one library hour per week is allotted, and revising the syllabus for British Literature: Twentieth Century and After, the department intends to improve the learning experience for students. The department will continue to consider parental input and take the necessary steps to ensure that the curriculum meets the requirements of students.

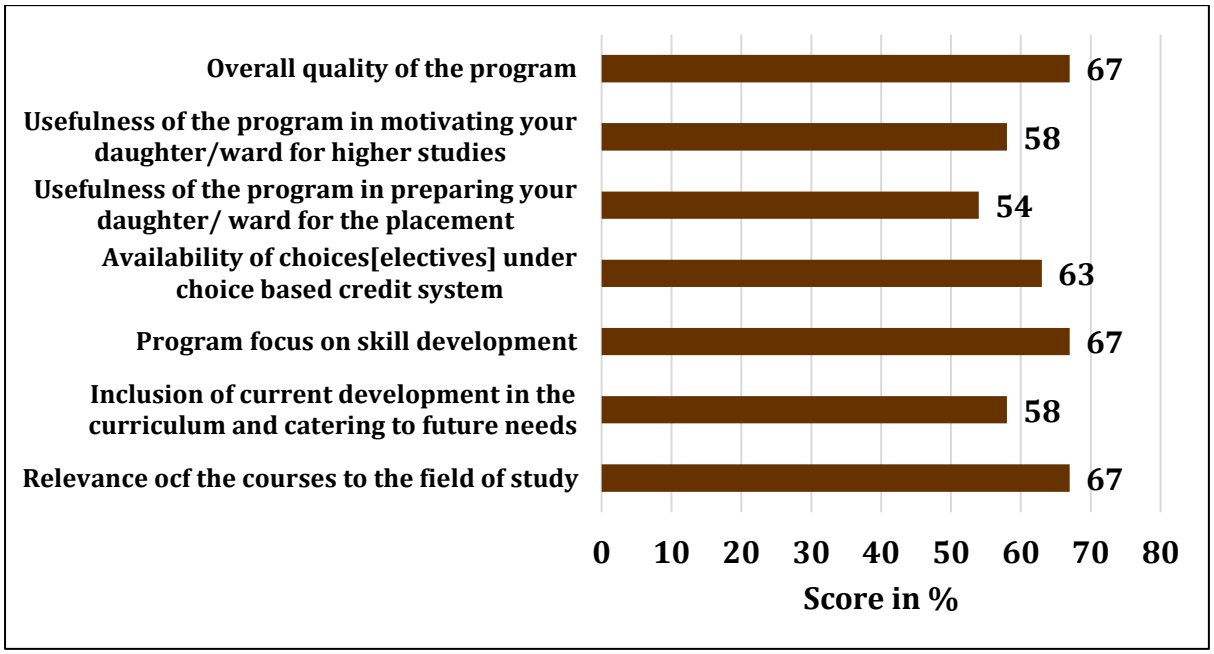
Parent Feedback on Curriculum
February 2023

I M.A. Communication



What was the most useful part of the Curriculum?

- None
- Learning new campaigning skills related to Advertising and Public Relations.
- Nil
- No idea

What was the least useful part of the Curriculum?

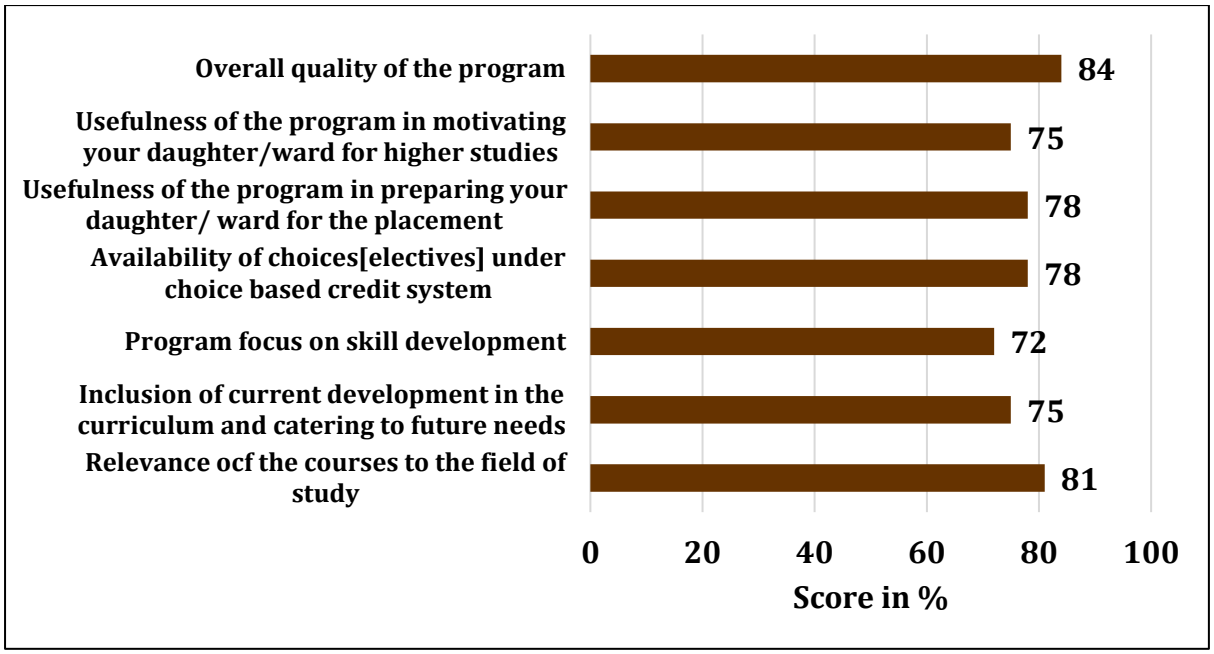
- None
- Nil
- Nil
- No idea

What changes do you suggest to improve the Curriculum?

- None
- Make the course a bit more relevant to the industry trends today.
- Nil
- No idea

* * * * *

II M.A. Communication



What was the most useful part of the Curriculum?

- Computer Graphics
- Fulfils the present needs
- Motivation for higher studies
- Relevance of the courses. All the topics that are involved in the syllabus is very useful and informative.
- Projects
- The faculties are very helpful

What was the least useful part of the Curriculum?

- Radio Program
- Need more industrial visits
- All are useful.
- Theory
- Lack of facilities

What changes do you suggest to improve the Curriculum?

- Writing/Editing Skills
- Nil.
- Adding more skill based courses will help to know about other useful subjects.
- More practical
- There is a need for better facilities as this is a media course

* * * * *

PG Department of Communication

Report on Parents' Feedback on Curriculum

The overall percentage of parents' feedback comes close to 70%.The parents were appreciative of the relevance of the courses and found them useful and informative, while fulfilling the needs of the industry. They remarked that the faculties are helpful.

The concerns were the need for better studio facilities which is being addressed, as a high-end new studio is in the process of completion.

As per the parents' feedback from the first year students, the parents weren't aware that the practical component of the courses mentioned exists in the other semesters. This was because they did not discuss this with their wards. We have asked the students to update their parents about the same.

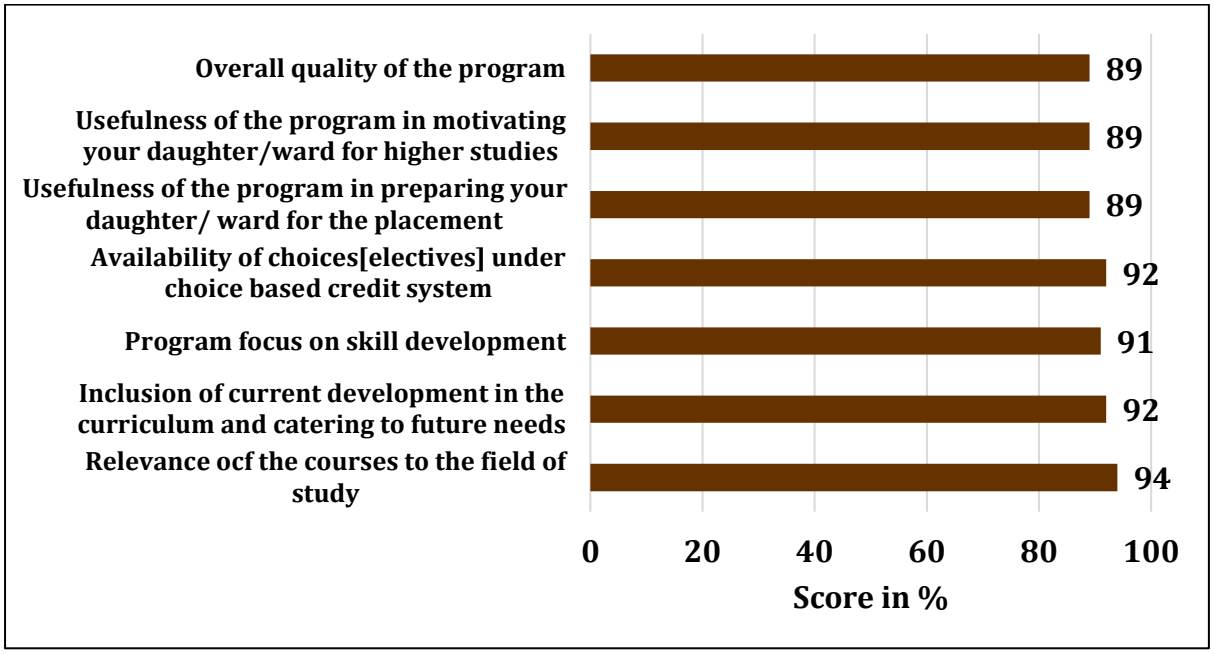
Parent Feedback on Curriculum
February 2023

I M.A. International Studies



What was the most useful part of the Curriculum?

- The coaching is best
- Yes , the curriculum is multi- disciplinary and extremely informative.
- The tests and assignments
- General Knowledge
- For Competitive Exams and Research Field
- All the parts were useful
- A wide range of career opportunities
- Everything
- Nil
- Which is applicable to day today life
- Exposure to International issues and conferences.

What was the least useful part of the Curriculum?

- Nothing
- Nothing .
- Nothing
- Nothing
- Nil
- Nothing
- Nil

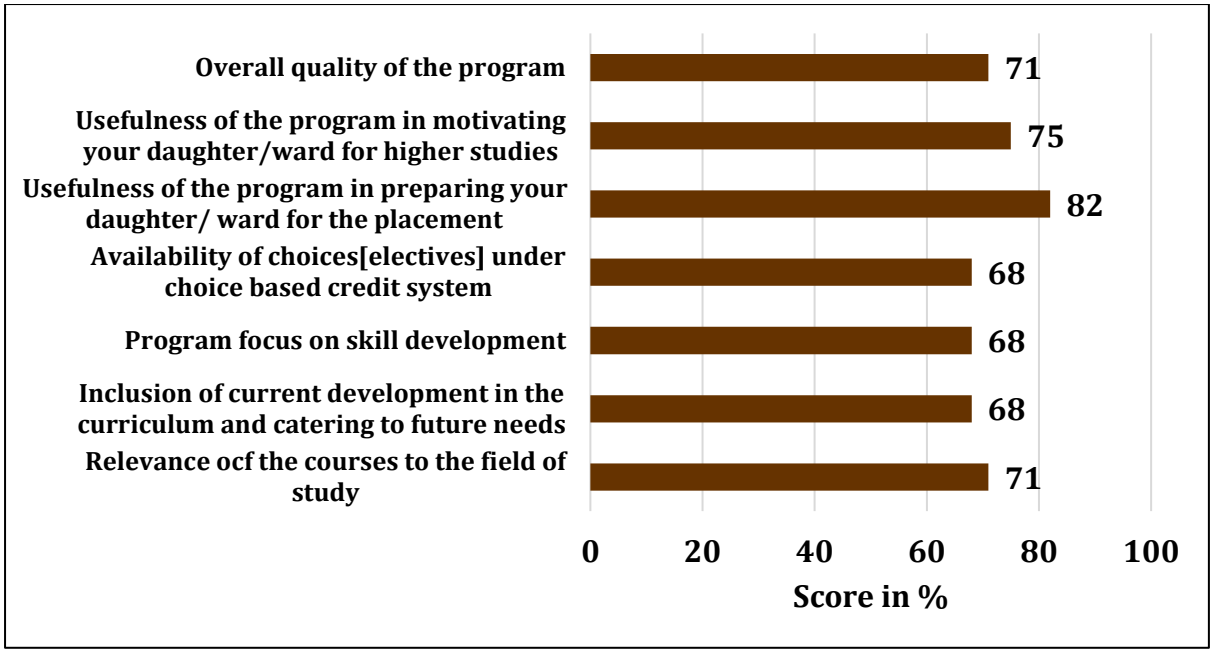
- Nothing
- Irrelevant optionals

What changes do you suggest to improve the Curriculum?

- Nothing
- More practical based education.
- Nothing
- Nothing
- Nil
- No changes needed. The existing curriculum itself was very impressive
- No changes needed.
- Hands on experience via Embassies and Consulates

* * * * *

II M.A. International Studies



What was the most useful part of the Curriculum?

- Inclusion of current affairs
- The student centric learning in few assessments of the subjects as well as the amount of self-learning being encouraged by the professors
- Knowledge
- She studied subjects that she wanted to.
- Department selection
- The conferences, events conducted by department and how professors motivate my daughter to take part in key activities in college.

What was the least useful part of the Curriculum?

- Nil
- Nothing
- Might be a little bleak but every thing. There are no placements, my daughter has not grown holistically as she did in her undergraduate infact the graph went down.
- Travelling
- Condonation fee

What changes do you suggest to improve the Curriculum?

- A more practical approach toward the subject, vis-a-vis field visits to consulates, embassies etc.
- Nothing
- Curriculum is fine, but the college environment and hygiene should be took into an effective care.

* * * * *

PIS ACTION TAKEN REPORT

1. Syllabus Change for Electives: One of the feedback put forth was in regard to the electives available for the students. The feedback stated that they were outdated and needed revision.
   Action Taken: Deliberations on including more contemporary electives have been discussed. All the teachers have been asked to submit a draft syllabus for at least one core elective, which can be incorporated after Board Approval.

2. Embassy Visits: More educational visits are being planned for the next academic year. However, consulate and embassy visits can be undertaken judicially dependant on practical considerations and security arrangements.

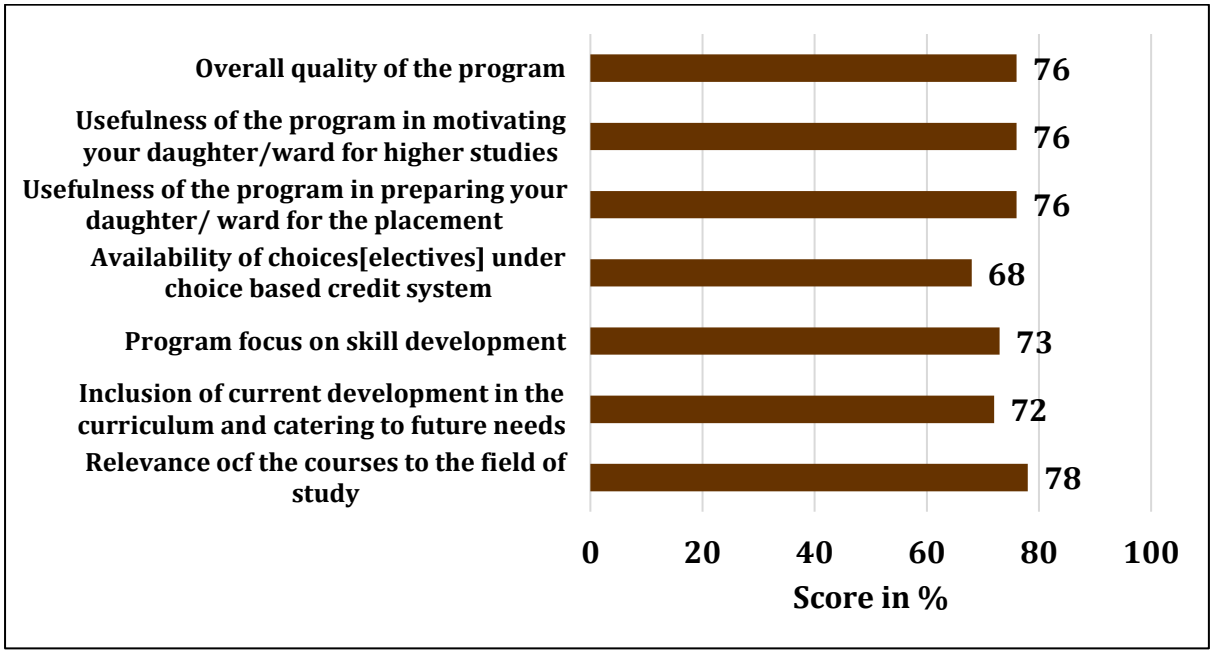
February 2023

I M.Sc. Mathematics



What was the most useful part of the Curriculum?

- Improving Seminars skills
- To keep the student in mind and involve them in learning.
- Conference
- Focus on skill development
- Conducting seminar in class
- Program focusing on skill development
- Placement
- Gain knowledge , communication skill
- Communication
- Keep learning in mind and involve them in process is the most useful part of the curriculum.
- SKB classes like communication skills would be more helpful
- Over all the curriculum is good
- Quality of education.
- Knowledge
- It is used to apply for positions within areas where a person's specific knowledge or expertise is required.
- Skills
- All are good
- Program focus on skill development
- Learning how to take seminar and gaining the knowledge of maths

- Communication
  Behavior
- Preparing the students for Campus Placement.

What was the least useful part of the Curriculum?

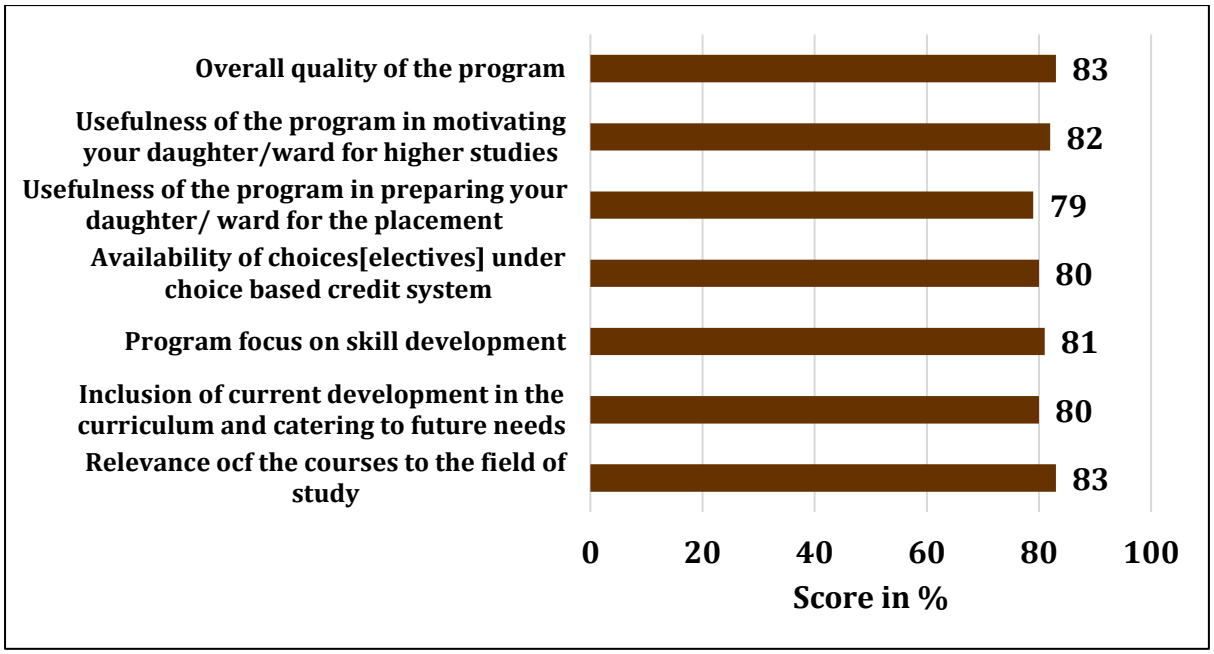
- Sections which do not connect them with real life.
- Nothing
- Nil
- None
- Nothing
- Nothing is least useful part of the curriculum because we learn anything new that's useful for our future.
- Nothing
- Nothing
- Want to train her lot.
- Nothing
- Curriculum aren't always accurate.
- Nothing
- Skill paper
- Managing Time
- Nil

What changes do you suggest to improve the Curriculum?

- Curriculum should be digitalized.
- They can teach us the 3 units and they can give other two units as seminar instead of giving all the three units
- Nil
- I am satisfied with the curriculum
- Can teach more better and to be sincere in their duty.
- All good
- Nothing
- I gain knowledge and improve our English so ,this i improve the curriculum
- No changes
- Need more Practice based learning
- The number of faculties, availability of teachers
- Want to train her as well as in studies and other activities
- Nothing
- Form Curriculum Development Team, Conduct Needs Assessment and Analysis.
- Nothing to change .all are good
- No
- All Good
- Nil

* * * * *

II M.Sc. Mathematics



What was the most useful part of the Curriculum?

- Research
- Gaining knowledge for research studies
- Seminar
- NME, SKB
- Library
- Assessments and OBE pattern of syllabus
- Syllabus
- SKB and NME
- Department activities and hands on experience on the current trends
- Program conducting on skill development
- To improve the student knowledge
- Good Knowledge of the course
- Having the student to apply what they have studied so far in a practical way as a project semester.

What was the least useful part of the Curriculum?

- NIL
- Nil
- Nil
- NA
- Nil
- Lack of application orientated studies
- None

- PG students were not involved in extra curricular activities like sports... Letting students to participate in events like that would make them feel free
- Attendance

What changes do you suggest to improve the Curriculum?

- NIL
- NA
- Nil
- Application oriented Learning could be encouraged
- NA
- Nil
- Practical based curriculum might be useful in this skillful society
- Conducting more events and participation
- Pratical knowledge
- Inclusion of current development in the curriculum rather than book reading

PG MATHEMATICS

Action Report - February 2023

Parents Feedback on Curriculum

PG Mathematic Department always focus more in the development of the curriculum by throwing light on the application of mathematics and development of skills through aptitude training and logical reasoning.

PG Mathematics Department encourage students to participate in extracurricular activities and cultural programs organized by the PG & UG Mathematics Association and also other Arts and Science and Engineering Colleges.

Placement in Women's Christian College has widely increased in the field of Mathematics. The Department organizes various special Lectures for placements, skill development and Research. The Students are placed in various sectors such as Industry, Organization and Educational Institutions. The Department motivates the students for Research and also train the student in all aspect to take up Higher Education for pursuing Research.

PG Mathematics Department focus on the skill development by offering Certificate course on Quantitative Aptitude and Logical Reasoning and also by offering Non Major Elective course and skill based courses.

- Availability of choices
- Nothing
- Nothing
- Nothing
- Lack of time management
- PE
- I don't think so, everything was fine.
- English

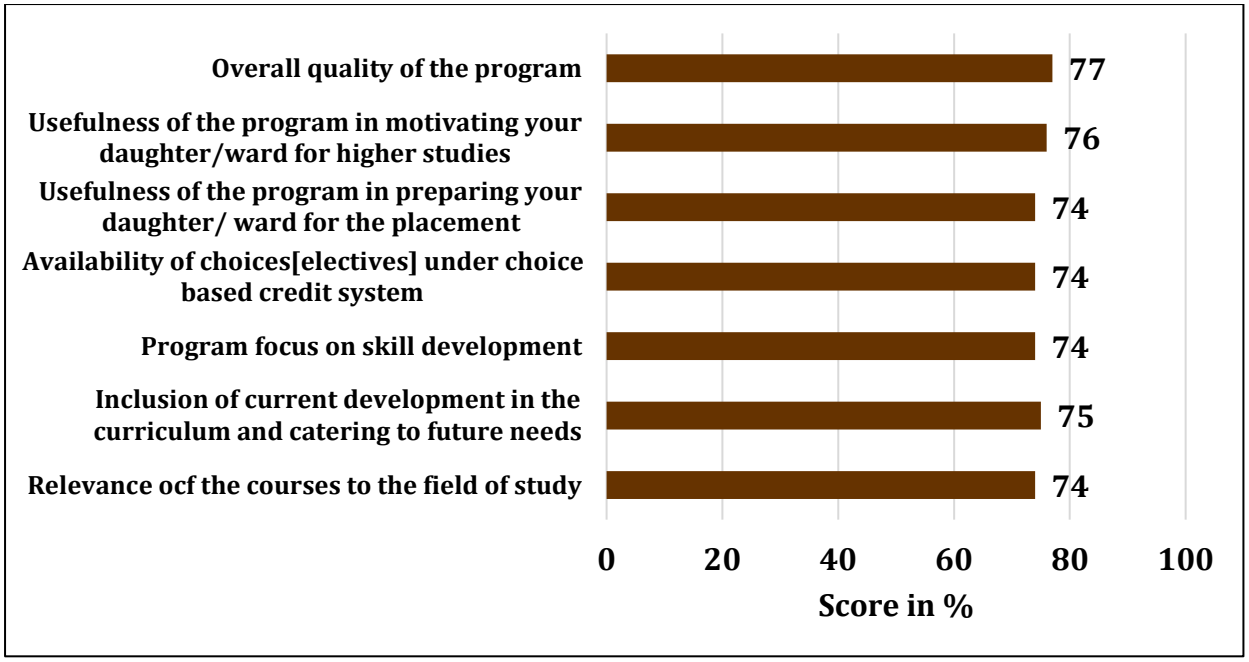
What changes do you suggest to improve the Curriculum?

- No changes
- Give more extra - curricular activities based on individual
- Nothing
- Coaching can be improved
- Give more entertainment , events and celebration
- Nil
- I expect the college to provide more importance to events and culturals
- Low the subject
- Nothing everything is fine
- Nothing
- Nil
- Nil
- No changes needed
- No changes
- Nothing
- Program focus on special skill development
- Offer more program for placement
- Please improve to the children co -curricular activities
- To arrange Internship for students during Final Year
- Program focus on skills development
- Nil
- Nothing everything is fine
- Still more improvement

- No changes
- Better narrative skills
- Instructing better based on the students needs
- For now, Everything was great and excellent.
- Do make English subject useful for speaking knowledge not continuous writing

* * * * *

II B.Sc. Mathematics



What was the most useful part of the Curriculum?

- Many extra activities
- Offering extracurricular activities
- Scripture- CEC
- Keeping the students involved in every part of curriculum
- Student
- Contains all facts and learning skills
- Clear purpose in learning
- Practical Application
- CIA
- Useful part of the curriculum would be the relevance of courses with current application in Data science.
- Library
- Teaching the subject
- About their understanding
- Conducting the sessions related to their curriculum
- Discipline
- Covering all the important aspects which is useful for recent trend
- Regularity
- Nil
- Young India
- Extension activities
- Learning values
- Development of thinking ability and good skills.

- Education system
- Gains more knowledge
- Learning values
- Easy way of teaching
- Placement
- Motivating and has increased speaking skills

What was the least useful part of the Curriculum?

- Nothing
- No
- None
- Students involvement in sports
- Nothing
- Nothing
- Not Applicable. All is Useful and relevant
- Nothing
- I feel conducting assignment tests through Google form wouldn't be useful because it students face a lot of discrepancies while attending it.
- Conducting more events
- Nil
- About how to conduct an event
- Extension activity for more hours and the stay back for it.
- Nothing
- Nothing
- Time
- Nil
- Everything is good
- Nope
- Value education
- Nothing
- Visual learning
- Students must know how to relate their subjects in their life.
- Nothing much
- Nil
- Can be more strict in students study
- Nil

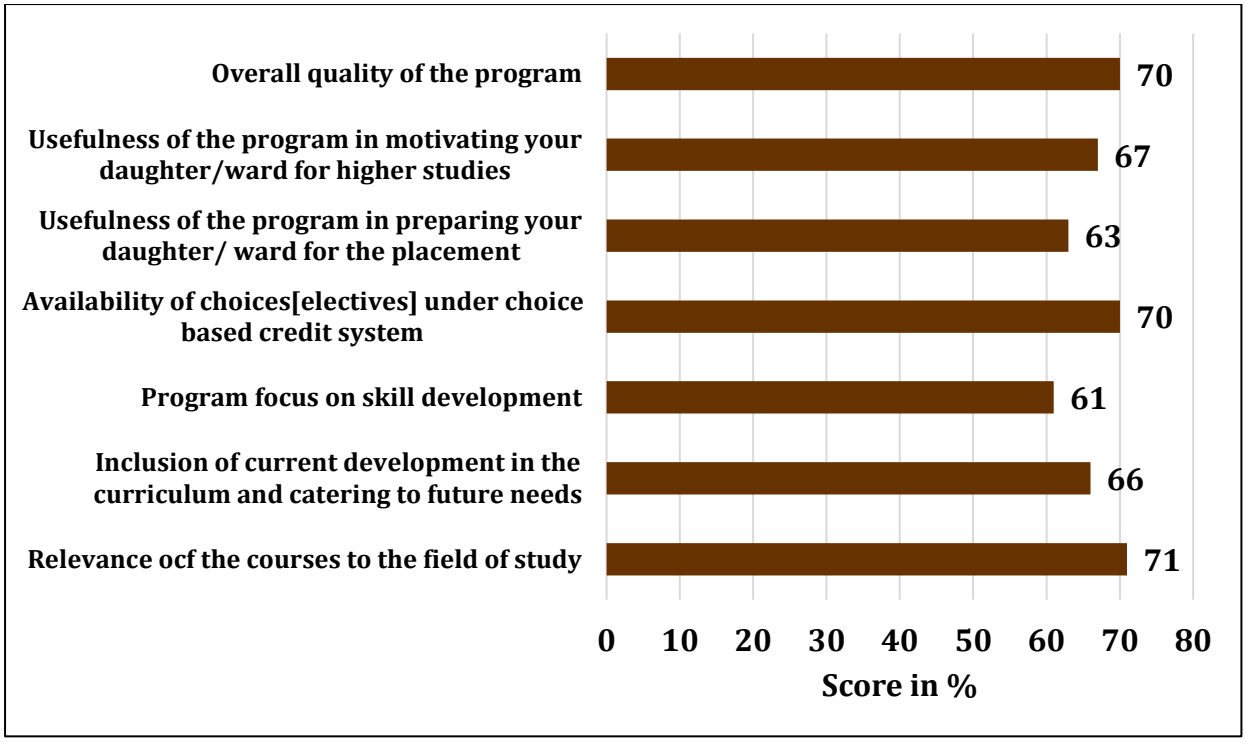
What changes do you suggest to improve the Curriculum?

- Nothing
- No changes
- None
- Nothing
- More application of the subject can be implemented

- Nothing
- Nothing
- Improve foreign language Skills
- No changes
- Kindly give the children a leave after each CIA exam so that they could prepare for next
- Rather than providing mark oriented teaching to students, application oriented teaching can be provided to students, so that students could get a greater exposure on the importance of theory papers too!
- Taking care of each and every students personally under department wise
- Nil
- Nothing to improve
- A bit more of effective teaching.
- To focus more on the seminar classes and to have an direct contact with industrial training program
- None
- No changes
- Don't have any problems
- Core papers with some more better knowledge with relevant books availability.
- Nope
- Give better elective courses
- How to apply the subject in different areas to be taught"
- More grounds
- Visual learning
- Advance technology should be brought into the curriculum.
- Extracurricular activities need to improve
- Everything is good with curriculum
- Improve knowledge
- Need extracurricular activities so that the students can actively participate
- Continue the same
- Include more extracurricular activities

* * * * *

III B.Sc. Mathematics



What was the most useful part of the Curriculum?

- Exposure to different topics from the core and elective papers
- The curriculum is very systematic and relevant to real life demands.
- It gives the understanding behind concepts of science.
- Language studies
- Education and discipline
- The most useful part of the curriculum is able to know her strength and weakness in the subject and her interest to study.
- Helping in physical growth
- It gives them deep concept about the required topic
- Departmental culturals
- Focussing on skill development
- You teaching students with good manner, we got knowledge about everything.
- Everything is good

What was the least useful part of the Curriculum?

- Nothing.
- Most of it are theoretical and it's practical application is not taught.
- Physical Education
- So far everything is useful.
- Least useful part of the curriculum is nothing all are good.
- No it's useful in every way

- The curriculum does not include the present applications of the courses
- There's nothing as such ! Everything is quite beneficial
- Nil
- Nil
- Everything is useful

What changes do you suggest to improve the Curriculum?

- Nil
- Increase presentation oriented seminars for students
- So far it is good
- No
- No changes, all curriculum are good.
- Keep doing the same as always
- To implement the applications and practical uses of the theoretical aspects of the curriculum
- It's good enough already
- More campus placement
- Nil
- Good, Keep it up

* * * * *

Student feedback on curriculum

(Open day 04.02.2023)

1. To offer special skill - development course
2. To have internship for students during final year
3. To give more choices for Elective courses
4. To train students to give seminars and presentations

Action taken report

1. The dept has been offering skill based courses – Statistics using R, Maxima. The dept will be considering this suggestion with TANSCHE syllabus.
2. The 22 batch students will be doing their internship in the summer holidays after the IV semester.
3. The dept will be considering this with TANSCHE syllabus.
4. Seminars and presentations were given by the students wherever the courses allow.

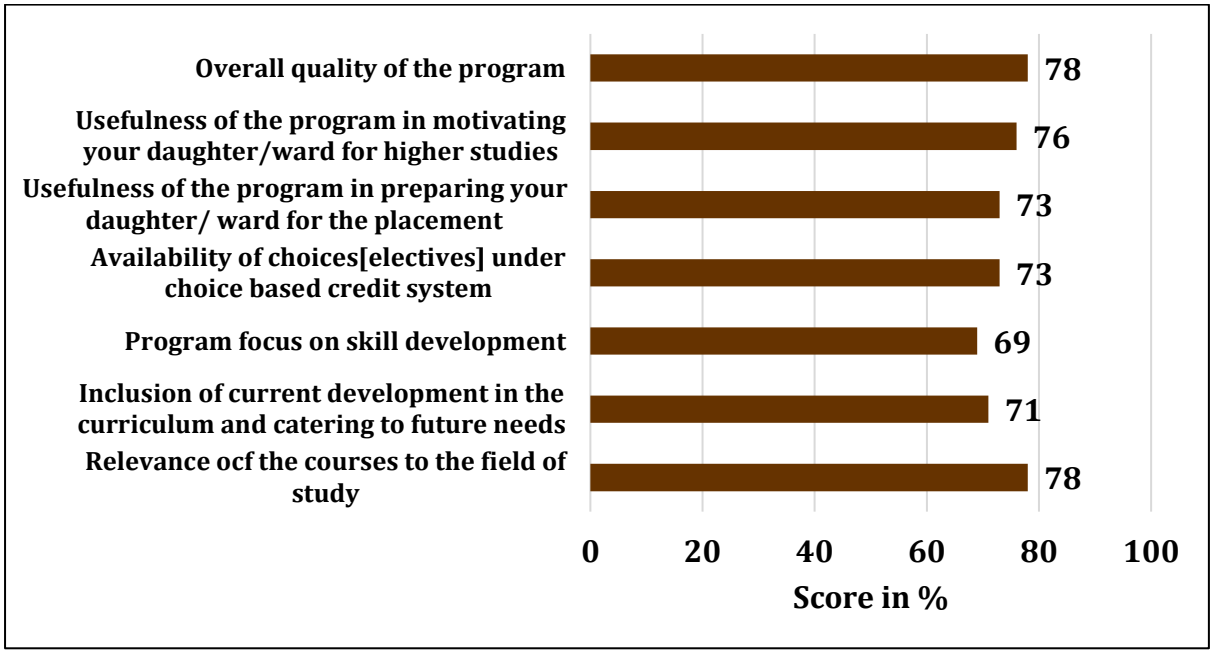
Parent Feedback on Curriculum
February 2023

I M.Sc. Physics



What was the most useful part of the Curriculum?

- Syllabus
- Elective papers (medical physics) are very useful in correlating the subject with its application.
- CEC - scripture
- Everything was very useful
- The focus on skill development and well framed syllabus
- Content on latest information
- It helps in preparation of competitive exams
- The basics are covered.
- The syllabus is framed in useful manner.
- Useful syllabus when compared to other colleges.
- understanding and learning
- Experienced faculties gives her best lectures
- The syllabus for all courses are well framed; more than scoring marks, overall knowledge outcome is good.
- Most specific level educational outcomes
- Nil
- Placement
- Through the course, my daughter got access to many useful resources for her higher studies as well as career opportunities.
- Theoretical classes

What was the least useful part of the Curriculum?

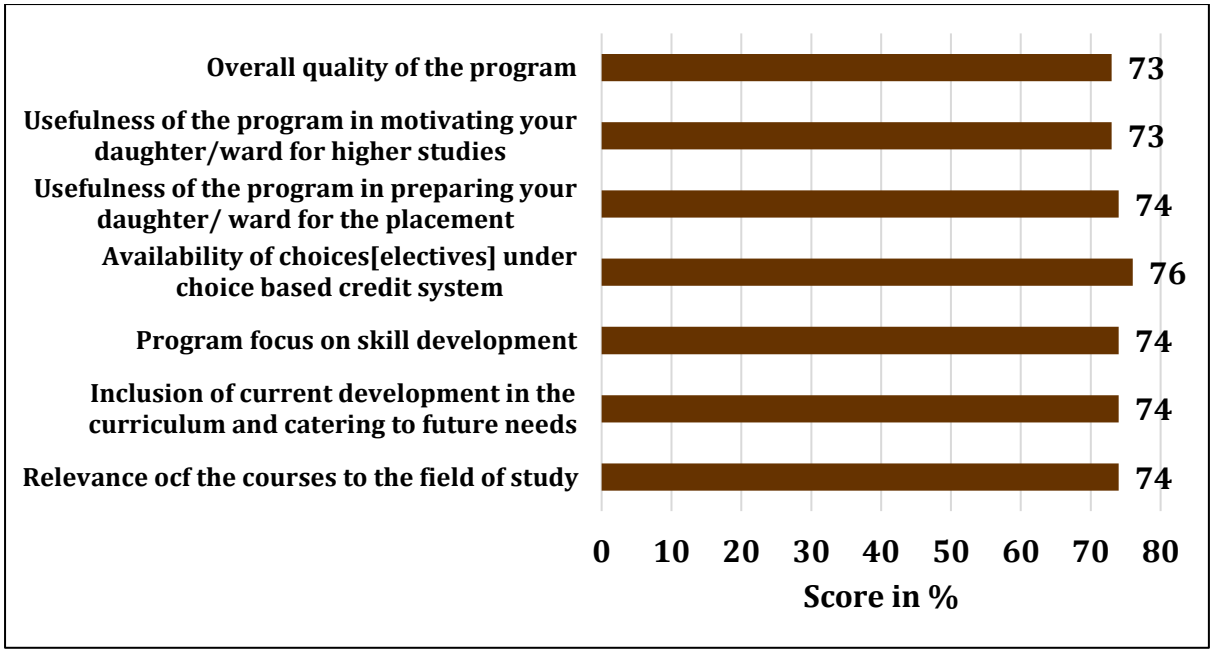
- Every part of curriculum goes hand in hand, so there is nothing as least useful.
- No
- Nil
- Nothing as such
- Seminars
- Nil
- Papers containing topics dealt in UG classes.
- Mark scoring is difficult in WCC
- Assignments could be reduced
- Nil
- Nil
- Nil
- Everything was helpful in one way or the other.
- SKB and NME Courses

What changes do you suggest to improve the Curriculum?

- No
- No changes
- There is nothing to suggest, because everything is really good and satisfied
- No changes
- Improve the guidance
- To make it more practical oriented
- Would be better if pg science departments are shifted to 1st shift
- Can be more applications based and not theory. Problems solving skills are to be instilled in the students . Theory and applications need to go hand in hand.
  The syllabus can be updated and improvised.
- Better if more practical oriented Papers are provided
- No changes
- Increment and efforts on marks scoring
- It's more efficient
- Nil
- Nil
- Nil
- Nil

* * * * *

II M.Sc. Physics



What was the most useful part of the Curriculum?

- A holistic education
- Usefulness of program in motivating our daughter for higher studies
- The elective papers are unique and elaborate.
- Use of PowerPoint presentations as teaching aid.
- Elective courses, NME, SKB classes
- All
- Boldness

What was the least useful part of the Curriculum?

- None
- Availability of choices
- Nil
- None
- Nil

What changes do you suggest to improve the Curriculum?

- None.
- Nil
- None
- Give some study holidays before the semester exam. Don't have college till semester exam.

* * * * *

PG Department of Physics

Action Report on the Parent Feedback on Curriculum

The Parents of 1st and 2nd M.Sc Physics students felt that the curriculum was relevant and well framed thereby making it suitable both for learning the basics as well preparing for competitive exams and with respect to the syllabus in other colleges. They also expressed that it was updated with the current developments. The quality of the degree, way of teaching and evaluation was also appreciated.

There was not much criticism on the curriculum except for very few suggestions.

1. Problems to be included.

   Action to be taken: Problems are included alongside with the theory being taught. If the student wants more problems to work the course teachers will give it to them.

2. Practical Oriented :

   Action to be taken: Two new Practical sessions which have been previously clubbed with theory has been made as individual practical papers alongside with the two previously existing General and Electronics Practical labs. Also for papers like Nanotechnology, Medical physics, Environmental Physics and Laser Physics the application oriented work is encouraged through internships and projects.

3. Syllabus :

   Action to be taken: The department has updated the syllabus to include a large percentage of the topics covered in the NET and GATE exam syllabus.

- Experiencing their practicals
- Lab and Practicals
- Laboratory
- Practical
- Field trip
- Google classroom

What was the least useful part of the Curriculum?

- Bioinformatics
- Nothing
- Not applicable
- Nothing
- Compulsory project work of final semester to be done in college

- Nothing
- Assignment
- None
- Everything seems to be useful
- None

What changes do you suggest to improve the Curriculum?

- More depth in subjects
- More practical teaching
- Industry Oriented
- No changes
- More of practical learning and increase recruiting companies
- Extra syllabus regarding competitive exams
- More specific details
- None
- More Project and Practical-based inclusions
- No suggestions
- More practical knowledge than theory and more placements should be there
- No changes

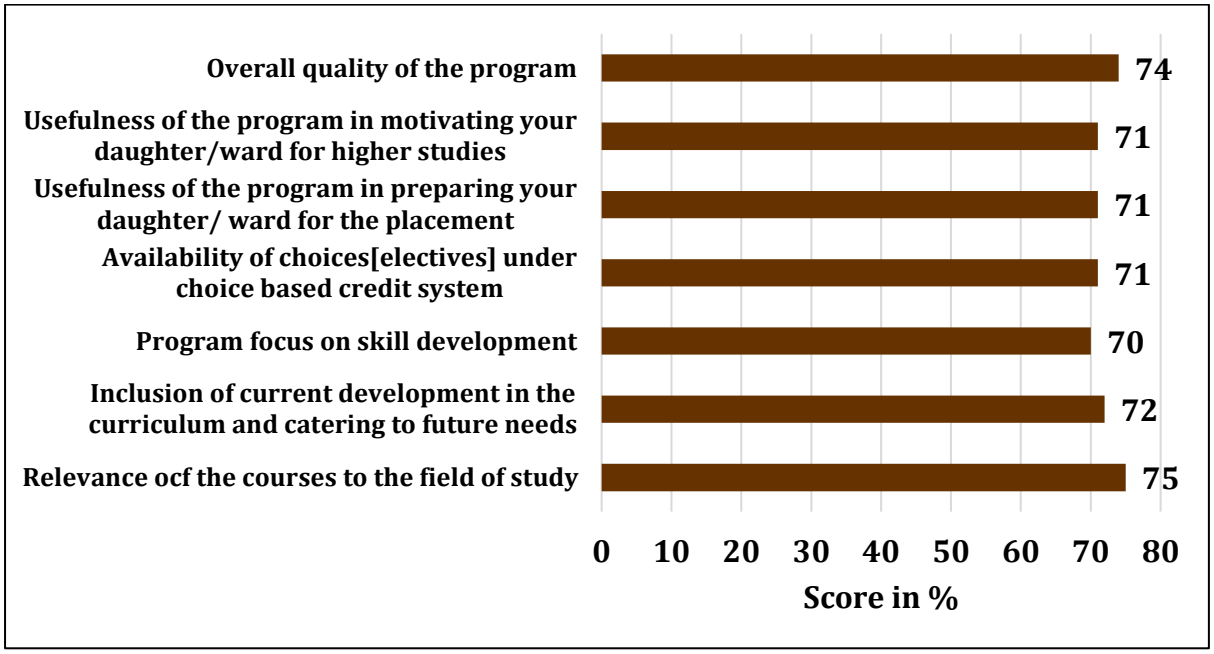
Parent Feedback on Curriculum
February 2023

I M.A. Human Resource Management



What was the most useful part of the Curriculum?

- Human resources
- Effective teaching
- It is a useful course with development on knowledge of human resources
- curriculum is well designed and proper focus is given on employability in the curriculum design.
- Presentations that was presented by my daughter
- Studies
- Diverse Subject Knowledge
- Motivating for higher studies
- Skill development
- Subject choice and internships
- All are equally useful
- Nil
- Excellent Academics
- Workshops
- Good proper education
- HR management
- Excellent academics
- All
- Development courses related to subject
- Way of teaching and syllabus

What was the least useful part of the Curriculum?

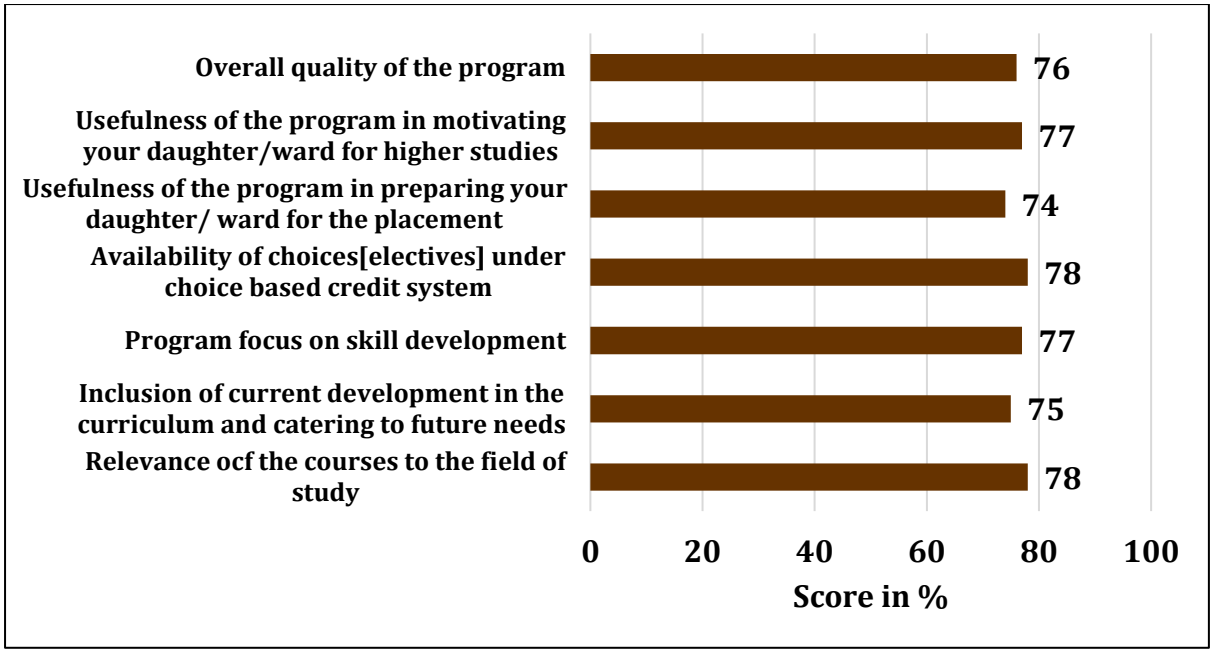
- Nil
- Nil
- It is helping her to know about various aspects of the organisation
- Nil
- Practical Skills
- Developments in the curriculum and catering to future needs
- Nil
- All are equally useful
- Nil
- NIL
- Nothing like that
- Facilities in wifi
- None
- Nil
- All
- Nothing
- Nothing

What changes do you suggest to improve the Curriculum?

- Nil
- Nil
- There is always scope for improvement. Campus interview is one area which needs lot of focus
- Nil
- More skill developing classes
- More field work
- More practical applications
- More motivation program related to their carrier and life structure.
- Nil
- Always be updated on industry requirements
- Nil
- NIL
- No suggestions
- No changes fully satisfy
- None
- Nil
- Nothing much
- Nil
- Provide some stress relief hours like library.

* * * * *

II M.A. Human Resource Management



What was the most useful part of the Curriculum?

- Project, internships
- I can notice that she has started taking up responsibilities
- Chapel ,choir ,studies,
- Discipline
- Scope to grow in various streams of study
- The electives
- NME and SKB
- Vast knowledge
- CIA
- The teaching process was very useful in curriculum
- Everything is fine
- Internship Training
- Communication knowledge has improved much
- Most of the topics are new and updated
- Regular sessions are conducted to help students understand current scenario in their field.
- CIA
- The syllabus
- Seminar
- Extra activities apart from core papers
- CIA
- Clarity on conveying the subject concepts are excellent

What was the least useful part of the Curriculum?

- Nil
- Nothing
- Placement
- Nothing
- Nil
- Nil
- Repetitive topics
- Nothing
- Everything is fine
- Nil
- Placement are less
- Some topics are outdated
- There are a lot of mosquitoes in the campus. Washrooms are not clean at all.
- Workshops and webinars
- Exams
- Learning
- Nothing
- None
- It would be great if innovative way of doing assignments is incorporated.

What changes do you suggest to improve the Curriculum?

- Nil
- Nthg everything is good
- Make everybody to get placed
- It is good
- Nil
- Nil
- Practical labs related to Hr can be included
- Everything was perfect
- All good
- More of practical training can be implemented.
- Improve the placement segment
- Frame curriculum that best fits the workplace for students to work
- Please rectify the above mentioned problems as soon as possible
- more campus interviews
- no suggestions
- Include cultural activity which reduce stress
- Field study, internship
- Conduct more workshop
- None
- It would be great if innovative way of doing assignments is incorporated

* * * * *

ACTION TAKEN ON THE PARENT FEEDBACK

REPORT

1. Parents have appreciated the following areas of the department
    - Teaching
    - Curriculum
    - Skill development
    - Internship
    - Excellent Academics
    - Workshops conducted by the department

2. Few Suggestions have been given by the parents to improve on areas of
    - Internship
    - More skill development courses
    - To update as per industry requirements frequently
    - To provide more library hours
    - To improve placements
    - To have more practical learning and innovative ways of doing assignments.

PLAN OF ACTION TAKEN BY THE DEPARTMENT

1. Summer internships have already been offered to the students as part of the curriculum . The department will encourage students to take more internships during the morning hours.
2. The department has always followed the practice of revamping syllabus frequently through the approval of the board of studies members in order to bridge the gap between curriculum & Industry requirements
3. The Curriculum of the department has already given topics that are more technology driven the same will be followed in the upcoming semesters.
4. The department ensures to conduct workshops frequently. Three technical workshops are conducted every semester . The same would continue in the fourth coming years .
5. 90% of the students of the department have been placed through campus placement,department placement & Off campus placements.
6. The students of the department have been given case studies ,role play exercises ,presentation ,interview exercises , Developing business models ,Cap stone projects and this would continue.

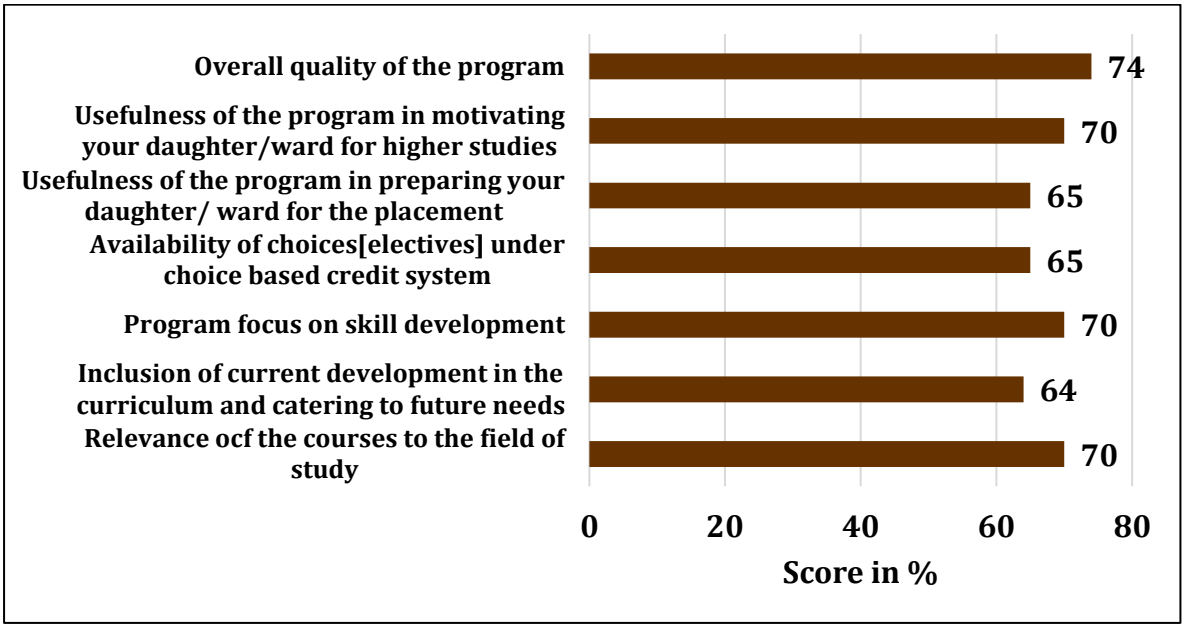
Parent Feedback on Curriculum
February 2023

I M.Com.



What was the most useful part of the Curriculum?

- Programs
- Curriculum must include the necessary goals, methods, materials and assessments to effectively support instruction and learning. Both the above definitions can apply to the learning
- The most useful part of the curriculum is development process.
- Skill development programme
- Relevance of the course related to the field of study
- Skill development
- Attending classes
- Exploring new information
- Programs focused on skill development
- New updates on real life
- Teaching
- Get to know about what has been taught
- Make me to think out of box.
- Academics
- Teaching
- Everything

What was the least useful part of the Curriculum?

- PG don't have sports

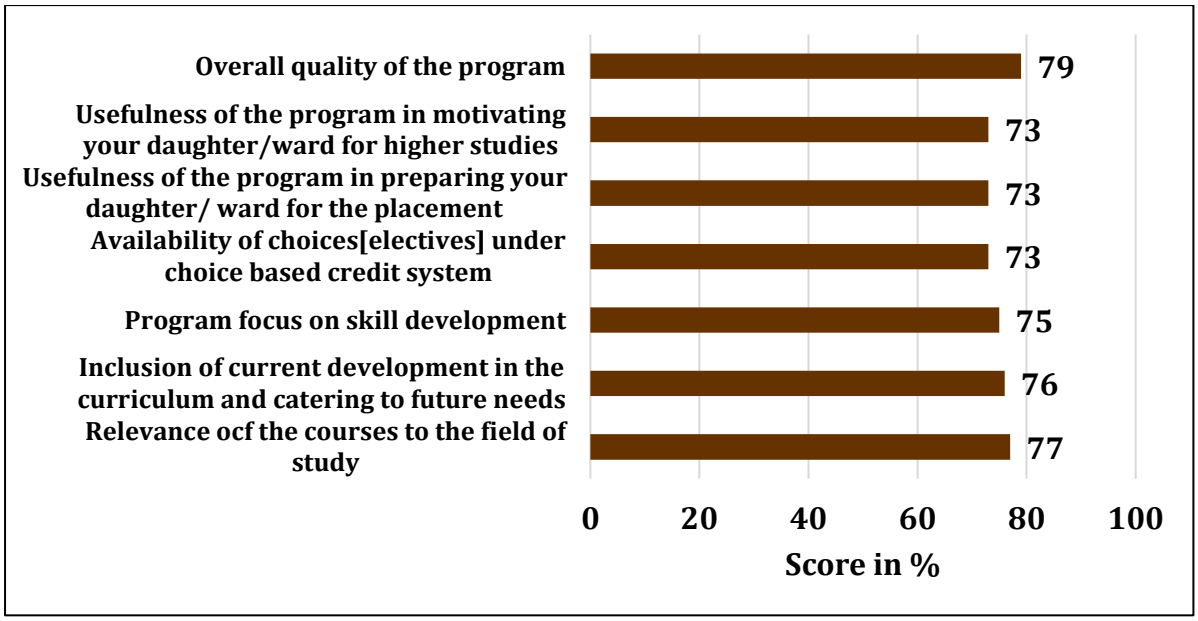
- Nothing much
- Nil
- Nil
- None
- Nil
- Not attending classes
- Nil
- Nil
- Old syllabus learning
- Nothing
- Nil
- The teachers are rushing to finish the syllabus
- Nil
- Skill development
- Nil
- No

What changes do you suggest to improve the Curriculum?

- Break time can be extended to 30mins
- Nothing much
- Nil
- Including all kinds of extra curricular activities
- More practical subjects
- No suggestion
- Hope all teachers would follow different teaching methods rather taking topics only in books
- Include Extra curricular activities
- Learning could be trend oriented
- No
- None
- Nil
- Can give more of written assignments so that students can surf and gain more through it
- Wish to have all professors who are practically teaching.
- Quality
- Nil
- Nothing
- Nothing to say

* * * * *

II M.Com.



What was the most useful part of the Curriculum?

- Workshop
- Internship
- Focus on skills development
- Everything was very beneficial.
- Interactive session
- All of the core and elective papers offered
- Studies, attendance
- No comments
- Format
- Rules
- Practical learning and building confidence in oneself.
- Overall quality of degree program

What was the least useful part of the Curriculum?

- Skills development
- Nothing
- Nothing
- Nil
- None
- Sports activities
- No comments
- Assessment
- Nil
- Nothing to mention
- Preparing my daughter placement

What changes do you suggest to improve the Curriculum?

- Nil
- More campus interview
- All the student want to talk in English.
- Nothing
- Nil
- Reducing the number of core papers in the final semester to help focus more on research
- Interview programs
- No comments
- Very thing is good
- Nil
- More practical learning and to have more live webinars and workshops.
- Placement classes for students

* * * * *

A Report on Parents Feedback on Curriculum – 2023

I M.com

The Overall quality of the program is graded as 74%

Based on the suggestions the department has planned to include skill enhancing papers apart from the curriculum as add-on course in the fore coming year.

Also parents had suggested to add recent trends in all the courses.

II M.Com

The Overall quality of the program is graded as 79%

The parents had suggested increasing more campus placements. Based on this suggestion, the department is planning to prepare an e-brochure of students resume, with all required information for placement. This brochure will be circulated among HR of known companies for enabling students to find a job even before their completion of the degree.

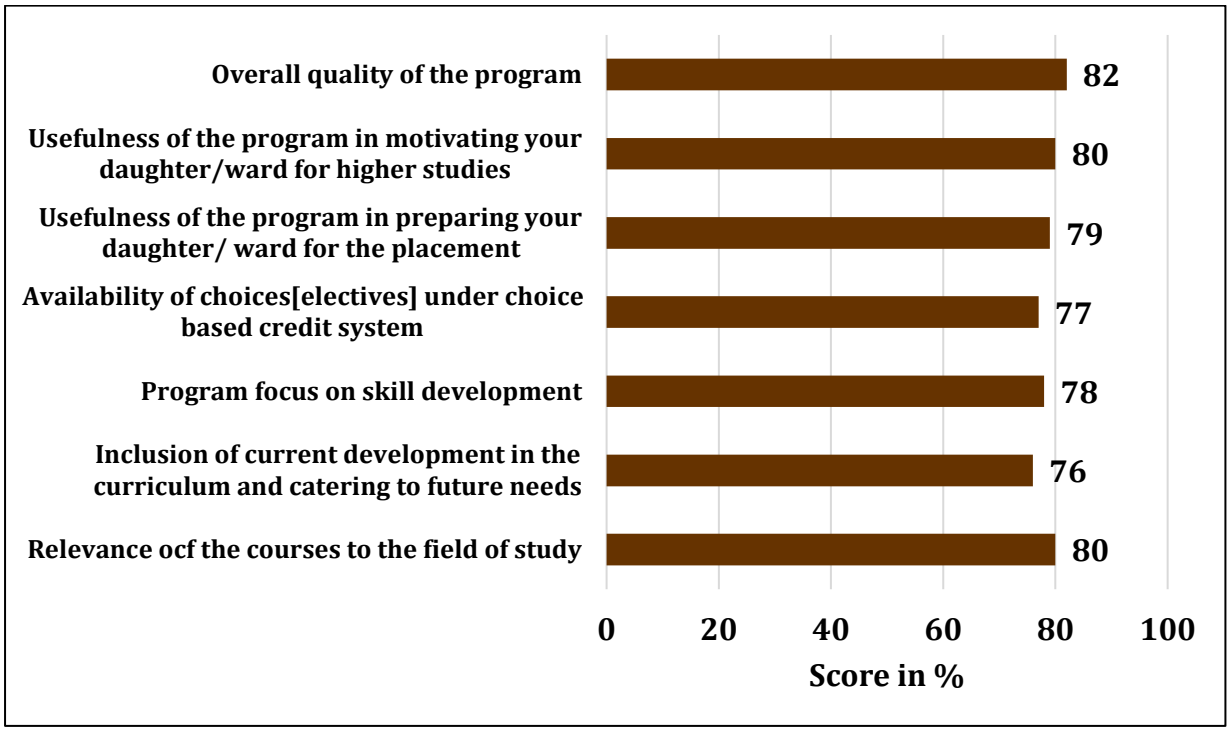
Parent Feedback on Curriculum
February 2023

I B.Sc. Physics



What was the most useful part of the Curriculum?

- It was most useful for daughter
- Practicals
- Assessment to effectively support learning
- Good
- Lab activities provided to her is really helping her to focus and she has better understanding of concepts
- None
- No comments
- Practical knowledge
- Lab discipline and conceptual learning to
- The structure of the syllabus
- The syllabus
- OBE pattern/SKB course
- Attendance
- Library
- Theory and Practical
- Scripture, Teaching
- Overall quality of the degree program
- Conducting Remedial classes for weak students.

- Education
- After the Covid time... They are sitting and studying because of the faculty... As they created a image in front of students in a good way
- New pattern of learning
- Particle knowledge
- Knowledge, skills
- Good teaching
- Everything is useful.
- Teaching methods
- Regular basis curriculum
- Teaching
- Education, Extra activities
- To apply the learned thing in ur practical life
- Usefulness of the program in motivating my daughter for higher studies
- Numerical solving and derivation
- Learning designing course LDC

What was the least useful part of the Curriculum?

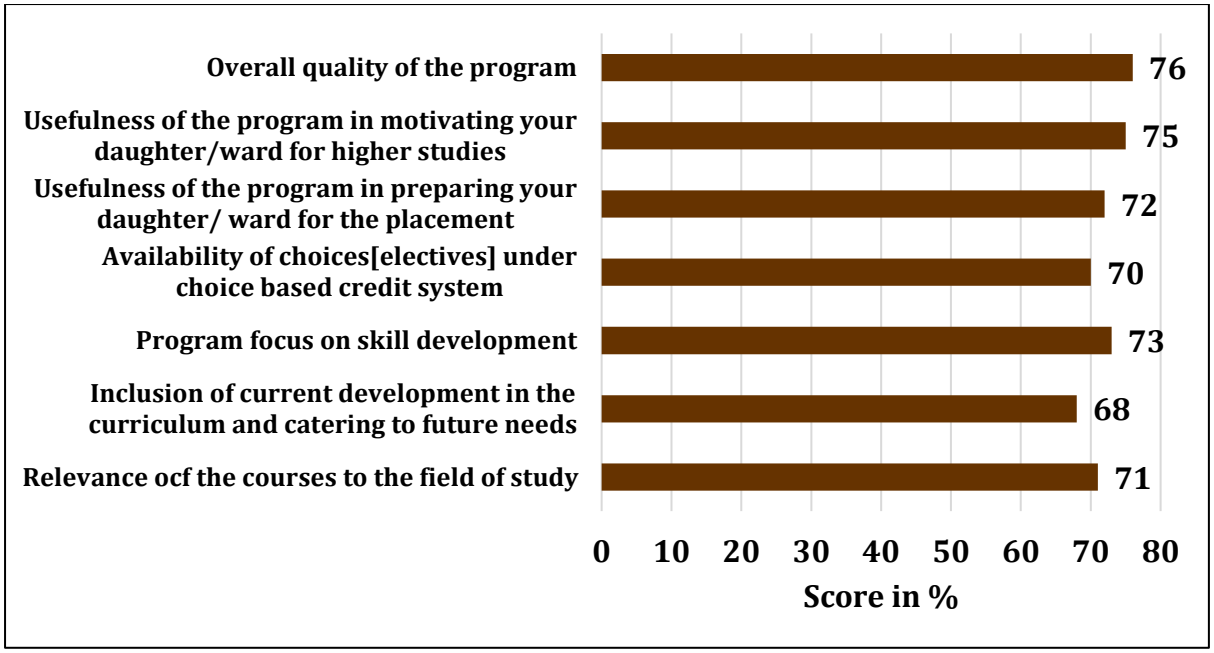
- All is good
- Nothing
- Excellent
- None
- None
- Nil
- Nil
- None
- Program focus on skill development
- Test
- Np commends
- Physical education
- No mention
- Nothing
- Programs focus on skill development is not enough
- Lack of skill development
- Nil
- None
- None
- Nothing
- Nothing
- Don’t misuse it in anyways
- Program focus on skill development
- Nil
- All programs which was conducted by the curriculum is best

What changes do you suggest to improve the Curriculum?

- No changes .all is good in curriculum
- Nothing
- Industrial visits must be included
- Good
- College should take initiative to take children on a field trip which is related to their syllabus.
- None
- Please Provide the corresponding books to the subjects and give more practice to the one words
- None
- Nil
- Nil
- None required
- Nothing
- All fine
- Should go smoothly like this
- Nil
- No changes
- Enough
- Nothing
- There should be more programs promoting their field
- Nil
- To take more care of student studies
- Learn more
- No Idea
- None
- Nothing
- To have more of derivation than theory
- No need to change .

* * * * *

II B.Sc. Physics



What was the most useful part of the Curriculum?

- Getting good exposure
- Good
- Developing confidence and improving skills
- Co curricular activities
- Co curricular activity
- Practical labs and workshops.
- Practical training
- Conducting exam,easily approachable teachers
- Smart Class Learning
- The necessary goals, methods and learning.
- The relevance of the course to the field of study.
- Library
- The inclusion of various courses in English
- Project
- Carrier skill
- Library
- Lab practice
- Core
- Special courses
- Elective courses

What was the least useful part of the Curriculum?

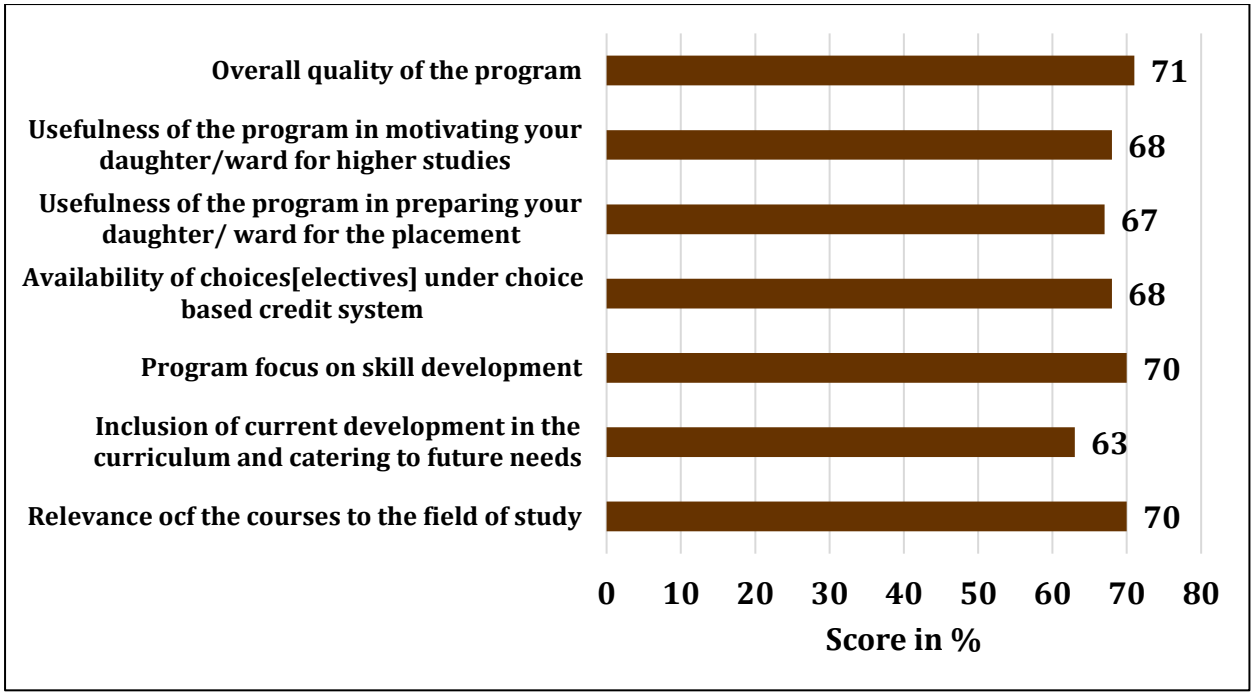
- Nil
- No
- None
- None
- Learning the theory behind the practicals an year later.
- None
- Nothing
- Nil
- Program focus on skill development.
- Gym
- Nothing
- Nothing
- Nothing

What changes do you suggest to improve the Curriculum?

- Better motivation in subject and career guidance
- Should avoid mosquito
- No suggestions
- Encourage the students to Participate in other curricular activities
- Encourage students in for co-curricular activities
- Include theory and practicals in a semester simultaneously. This would arouse the interest in the subject even if it's a dry topic.
- Nothing
- Can improve by arranging I.V .
- Improve extra curricular activities
- Nothing
- Doing well already
- Language

* * * * *

III B.Sc. Physics



What was the most useful part of the Curriculum?

- Practical accuracy
- Every aspect felt very useful and provoked the interest to learn in my daughter
- Seminars,special lectures, workshops.
- having a proper test and exam pattern
- Scripture
- Academics and practical knowledge
- All core papers
- Syllabus framed was good
- Doing experiments by herself in the lab was the most useful part. It boosted her confidence and trained her how to approach a problem and solve it logically
- Personality development
- NIL
- Several courses offered
- Learner designed course and NME
- Good teaching
- Teaching Method
- Campus interview
- The subject was really helpful for higher studies or else for the job
- More course available

What was the least useful part of the Curriculum?

- Nothing is like that.
- None
- Nill
- none
- Everything is useful
- None
- Nothing. I think everything is important
- NIL
- 2nd Language for 4 semesters is unnecessary
- Nil
- No Comments
- Nil
- Nothing
- Nil

What changes do you suggest to improve the Curriculum?

- Everything is fine with the curriculam
- None
- Nill
- none
- I'm satisfied with the present curriculum itself.
- No
- Maybe adding two or more core elective choices would be better
- NIL
- Industrial visits can be organized locally.
- Include more major papers by eliminating language papers, teaching in such a way that it helps students to appear for entrance exams.
- Nil
- No Comments
- Nil
- Nothing
- More career related programs

* * * * *

Department of Physics

Action taken on Parents' Feedback

Following are the comments and suggestions by the faculty of the department of Physics after going through the parents' feedback:

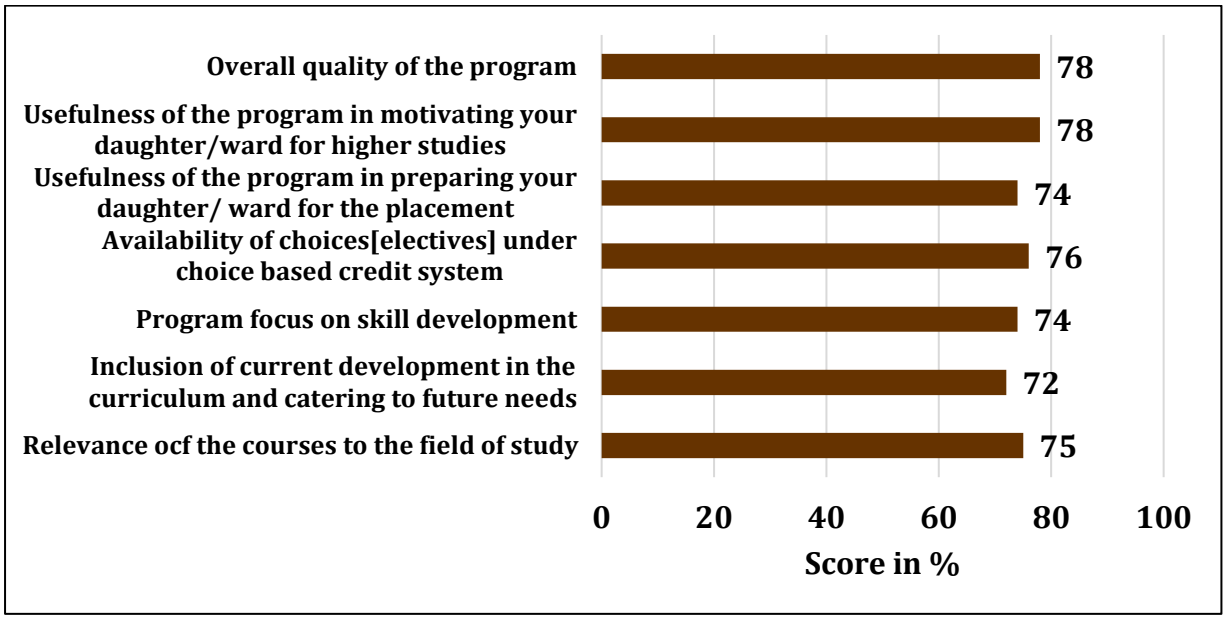
The overall quality and usefulness of the undergraduate physics program is highly commendable by most of the parents. The learner designed courses offered for the advanced learners are welcomed. The parents are satisfied and happy about the good teaching with remedial classes. In particular, the individual training given in physics lab sessions is highly appreciated. They also appreciate the variety of courses offered, and feel that it provides a broader scope for higher education. The participation of students in extracurricular activities are encouraged and more such opportunities are recommended.

Some expressed interest in inclusion of papers for skill enhancement. It was discussed in the department that already we are offering skilled-based papers such as Computing & entrepreneurial skills for physicists, Enhancing Personality, Practical Physics & Workshop practice and Numerical Physics. Few parents requested to conduct industrial visits for all the three year students. This academic year four industrial visits were arranged for the final year B. Sc. Physics students. The faculty of the department agreed that industrial visits could be arranged for all three years as requested from the next academic year. The concern of not learning the theory part of the practicals conducted in each semester was addressed to the students directly. The introduction of all the theory components or shuffling the experiments according to the theory is not practically feasible since each student is given individual apparatus for their labs and the sharing of equipment may not be advisable.

* * * * *

Parent Feedback on Curriculum
February 2023

I B.Sc. Chemistry



What was the most useful part of the Curriculum?

- Lab class for 1st year is most useful becoz most of the other colleges doesn't have lab class for 1st year.
- Outcome based curriculum.
- Live Practical teaching
- Practical teaching
- Usage of lab
- SYLLABUS PATTERN
- The most useful part of the curriculum is effectively support instruction and learning, classroom activities, materials, assessment, language skills, vocabulary, time and study skills are the most important curriculum.
- Excellent on Program focus on skill development.
- Regular examination
- Extracurricular event
- Skill based teachers
- Skill based learning is good
- Lab experiments
- Teacher
- Lessons have been taught clearly and more information about the subject has been given which is useful
- More scopes are available
- Choice based credit system
- ORGANIC CHEMISTRY

- Educational programs
- Chemistry
- Overall quality of the degree program

What was the least useful part of the Curriculum?

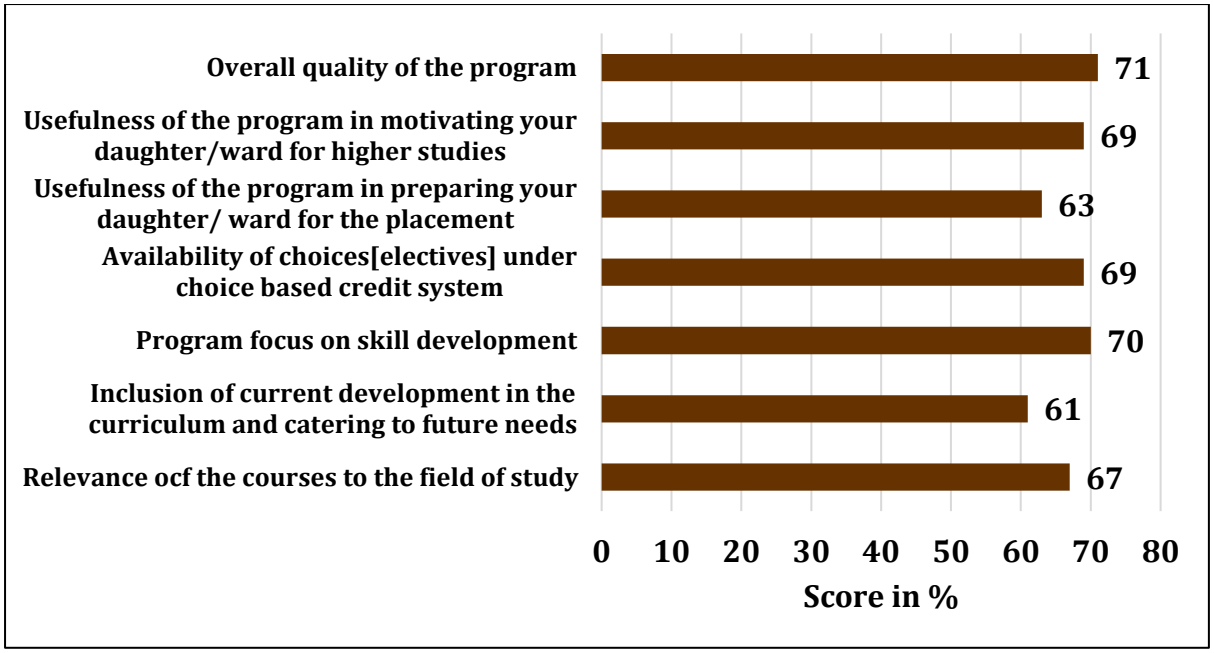
- Everything is useful in some way.
- Introduction of new subjects which aren't used in Practical life
- Nothing
- None
- PHYSICAL EDUCATION
- The least useful part of the curriculum is needs analysis students and teachers attitudes grammar, language skills and objectives these all are the least useful part in curriculum.
- Nothing
- Nil
- I do know
- Physical education
- I don't know
- Nothing is least useful , every little thing will help my daughter to upgrade herself in future
- Nothing
- Nothing
- English
- Nothing

What changes do you suggest to improve the Curriculum?

- Nothing
- To give suggested notes in hard copies.
- Giving space to study and to interact
- Subject Related field trips
- None
- No
- Nothing to suggest
- Need some more liberty
- Practical learning
- Coaching for UPSC
- Try to improve skills in curriculum
- Coaching for group exams
- No changes. Just expecting the best guidance for her future
- This is best
- CONCENTRATION OF THE ALL SUBJECTS
- Nothing
- Maths
- No suggestion

* * * * *

II B.Sc. Chemistry



What was the most useful part of the Curriculum?

- Practical classes
- All the programs and choices in the curriculum was useful
- Practical
- We can know about the facilities and we can share our thoughts about college by this.
- Subjects relevant to the demands of the industry
- Extra curricular
- Overall quality of the degree program is good and useful
- Nil
- Notes
- Conducting Cia exams and assignments
- Nil
- Inclusion of current developments in curriculum is the most useful part.
- Course was structured and it contains advance topics even in ug level.
- Test and project
- Many sources are available
- Laboratory
- SKB, Value education
- Quality of the degree
- Gaining knowledge in different aspects

What was the least useful part of the Curriculum?

- All are essential
- Nil
- NME
- None
- Nothing as such
- Some teacher's way of teaching
- Nil
- No fun interaction
- Newer and familiar topics regards to future aspects can be taught to the students in chemistry
- Nil
- Nil
- I don’t think so
- Nothing
- Auditoriums
- Nil
- Nothing
- Different methods of study

What changes do you suggest to improve the Curriculum?

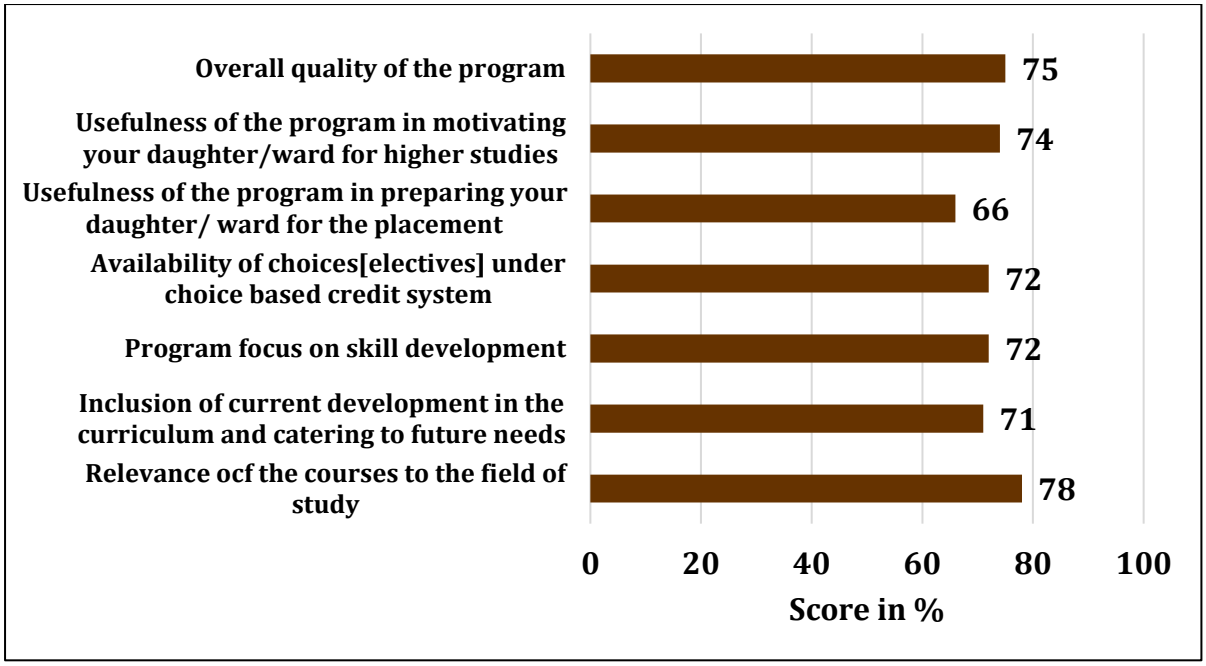
- No comments
- Nil
- Make it more job oriented
- Everything is good in my point of me.
- Matching the curriculum to global standards
- Changes has to be made
- Nil
- Improvise restroom in science block
- Rather than note taking students can use laptops and wifi and pictorial learning for more understanding of concepts
- Nil
- Nil
- It would be nice if you include lots of fascinating topics to the subjects because students could show more interest on subjects.
- Could pass information more prior
- Nil
- Auditoriums... because i would say both academics and entertainment is equally important each one should develop all the other skills in addition to academic a.... students should be capable of handling any situation in their life...for that they are supposed to be trained...since it's women's college there isn't any wrong to invite men into college... obviously they are going to face the world...I would suggest college should have more fun also I always see my daughter is totally stressed out with college works...that is fine but entertainment should also be there to make

the little ones' life more spicy... that's the reason i say auditoriums...so that many events should happen hereafter.

- Reduce the attendance percentage
- Extra coaching classes
- Taking them to various work field environment and enlightening with IV and educational labs and trips

* * * * *

III B.Sc. Chemistry



What was the most useful part of the Curriculum?

- The curriculum was very flexible. Skill based courses were very helpful. The professors were very supportive.
- Usefulness of the program in preparing for the placement
- Learning effectively through practicals
- Skill development
- Elective courses
- CIA
- Excellent teaching
- Nil
- Laboratory experience
- Inclusion of current developments in the curriculum and catering to future needs
- Structure of the syllabus
- Library
- Information

What was the least useful part of the Curriculum?

- Nothing as such
- Availability of choices under credit system
- NOTHING
- Practicals
- Nothing
- Nil
- No option to NME course for Hindi students other than Basic Tamil

- Program focus on skill development
- No
- Nothing
- Time management

What changes do you suggest to improve the Curriculum?

- The department can provide some time to go for internships that can give the students some industrial experience. The curriculum can also be placed in such a way that the students learn some concepts that they learn in their third year earlier to make it more familiar.
- Program focus on skill development.
- NOTHING
- No
- To include department internships and workshops. There were no workshops conducted under our department.
- The undergoing curriculum is Good
- None
- No changes
- Nothing. Everything is alright!
- Nothing
- No changes
- No

* * * * *

Action taken report on parent feedback on curriculum received on 4 February 2023.

Suggestions received from parents

- Matching the curriculum to global standards
- Coaching for UPSC
- Since its Women's Christian college, there isn't any wrong to invite men into college. College should have more fun also I always see my daughter is totally stressed out with college works. ….that's fine but entertainment should also be there to make the little one's life more spicy….that's the reason I say auditoriums….. so that many events should happen hereafter - College policy
- Extra coaching classes
- To give notes in hard copies
- Taking them to various work field environment and enlightening with IV and educational trips

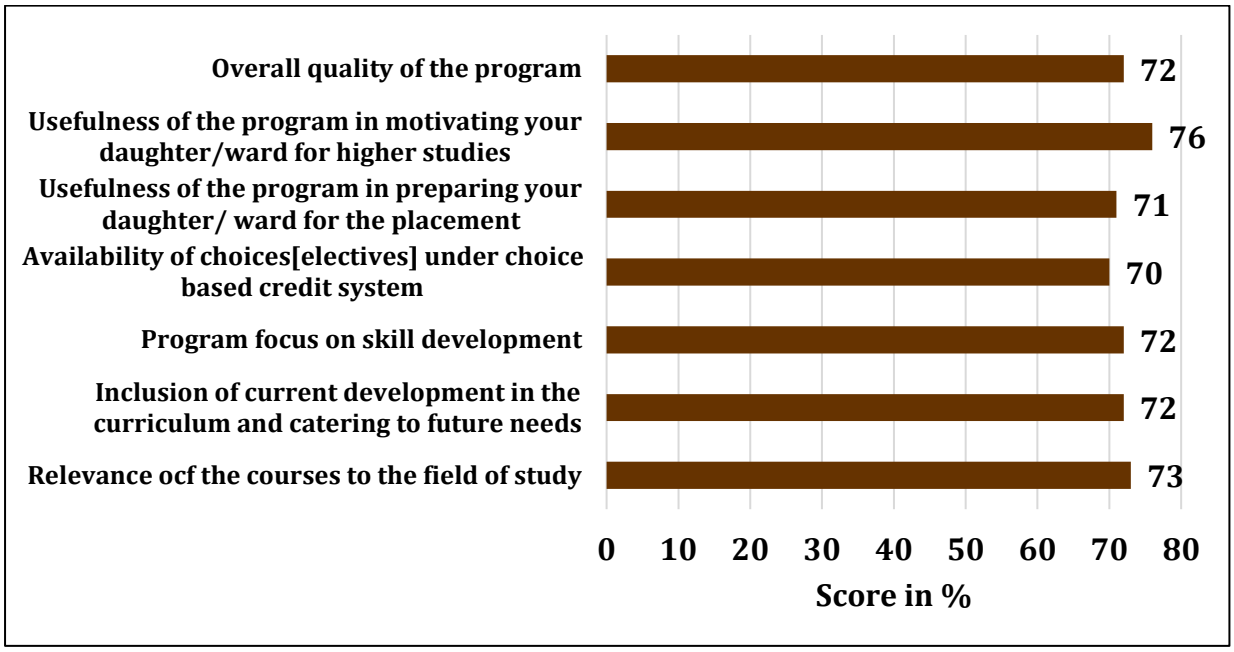
Action taken

- The curriculum is constantly updated by obtaining feedback from student representatives, subject expert from other colleges, Industry experts and alumni once in three years and hence on par with global standards. The revision currently in progress will introduce more skill based courses.
- Coaching classes for UPSC are conducted in college. Interested students can avail the opportunity
- Extra coaching classes are already in practice conducting remedial classes for the slow learners and those who opt for it
- Students are given hard copies for class notes
- Final year students are taken on a field trip. However, field trips will be planned for all the tree years.
- Webinar for parents will be conducted detailing career and job opportunities for Chemistry students in the beginning of the academic year and a separate session for final year students in February are planned.
- A feedback on various aspects of the curriculum offered was taken to address the issues highlighted in the parent feedback and action will be taken.

* * * * *

Parent Feedback on Curriculum
February 2023

I B.Sc. Plant Biology & Plant Biotechnology



What was the most useful part of the Curriculum?

- Taking student to field and teaching them...which helps them to improve their knowledge.
- Updating on current scenario
- Exposure to laboratories
- Not bad
- Usefulness of the program in motivating my daughter for higher studies
- Relevance of courses to the field of study
- Field trips
- Gaining general knowledge based on the course
- Usefulness of the program in motivating for higher studies
- Availability of choices
- Inclusion of current developments in the curriculum and catering to future needs
- Practicals
- Program focus on skill development
- The way it is related practically
- The theory syllabus and practicals correlating to it
- Teaching skills of teacher in lab
- Microbiology
- Help to know in detail about plants life
- Overall syllabus is useful

What was the least useful part of the Curriculum?

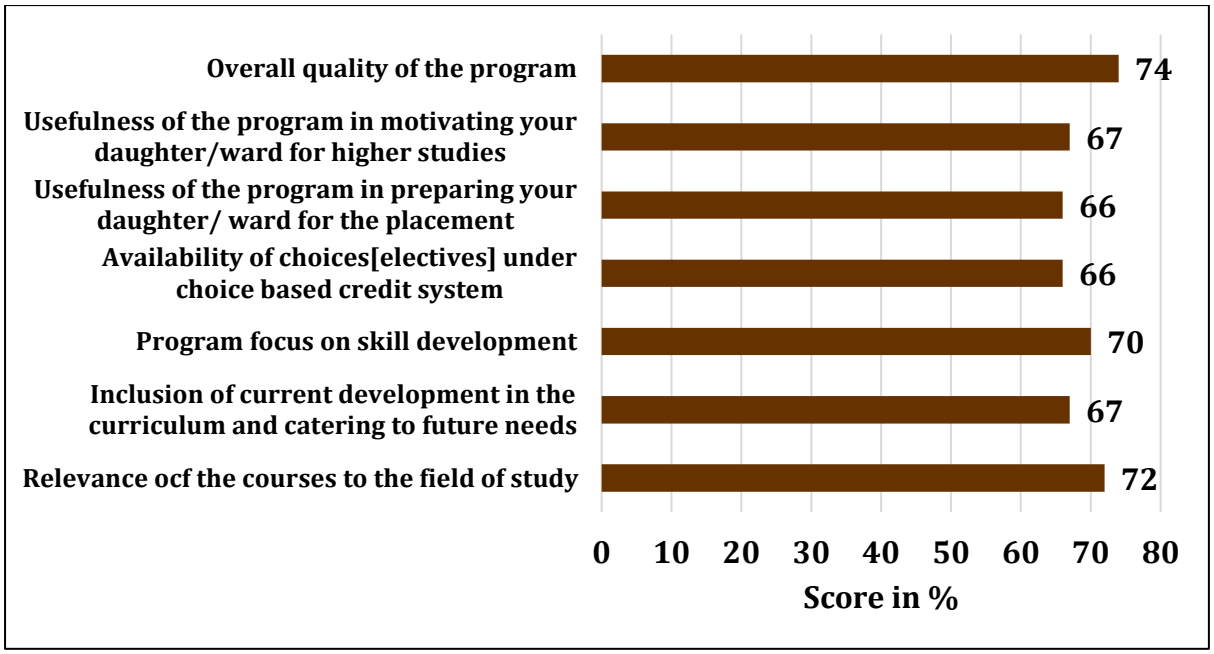
- I don't think there is soo
- Nil
- No comments
- Not interested
- Relevance of the courses to the field of study
- Skill development
- Usefulness of the program in motivating for higher studies
- Availability of choices under Choice Based Credit System
- All
- Program focus on skill development
- Assignments involving activities like sticking newspaper articles
- Overall quality of the degree program
- Nothing like that
- Tamil
- Nothing
- Nothing
- None

What changes do you suggest to improve the Curriculum?

- Making more lively learning
- Nil
- Suggest you include activities within college hours
- Fearless
- This is all ok. Nothing wants to be changes
- Degree program
- To encourage educational field trips often
- Timings are so soon
- Nothing
- Improvement of field trips
- Nothing
- Unuseless of programs
- Assignments designed in an easy way which triggers the students interest as they invest their time and energy, it should be more of learning
- Nothing
- No suggestions the present curriculum is well and good
- Instead of learning Tamil in 3rd &4th sem students can be trained more with some new reaches in basic level, it will improve their knowledge and career guidance.
- Nothing
- Nothing
- No
- College is taking all steps to maintain the standard and quality . Expertise of the team is well noticed

* * * * *

II B.Sc. Plant Biology & Plant Biotechnology



What was the most useful part of the Curriculum?

- Practical sessions
- Educational tour and practical teaching
- Skills and knowledge acquired
- The practical sessions
- The curriculum was good because it has every component related to the particular course that my daughter chosen
- Goals
- English classes
- Good faculties, good atmosphere and good discipline
- The way the course is designed.
- Creativity
- Field trips
- Syllabus and teaching
- Inclusion of recent studies and improvements in the field for the students to study
- No
- Teaching
- The practical classes
- Faculties encouraging the student to score more mark for getting good placement in future.
- Overall quality of the degree program
- Get to know about it
- Syllabus and teaching system
- Everything
- Focusing on skill development

- Got to know about more things.
- Teaching
- field studies and experimental research
- Skill
- Inclusion of current development
- Educated well
- Nil
- Studies

What was the least useful part of the Curriculum?

- No Nothing
- Nothing
- Conducting two Cia test in every semester before the end semester exam. It makes the Girls to learn the portion quickly and made them to remember and test the memory power of the children.
- Excessive theory components
- Nil
- Nothing
- Nil
- No
- Environment
- Everything is useful
- No sports coaching for interested students.
- Nothing
- Don't know the benefits of it
- Strict attendance system.
- Program
- Elective based courses
- Nothing
- Everything was fine
- Nil
- Ntg
- None
- Nil
- Nil

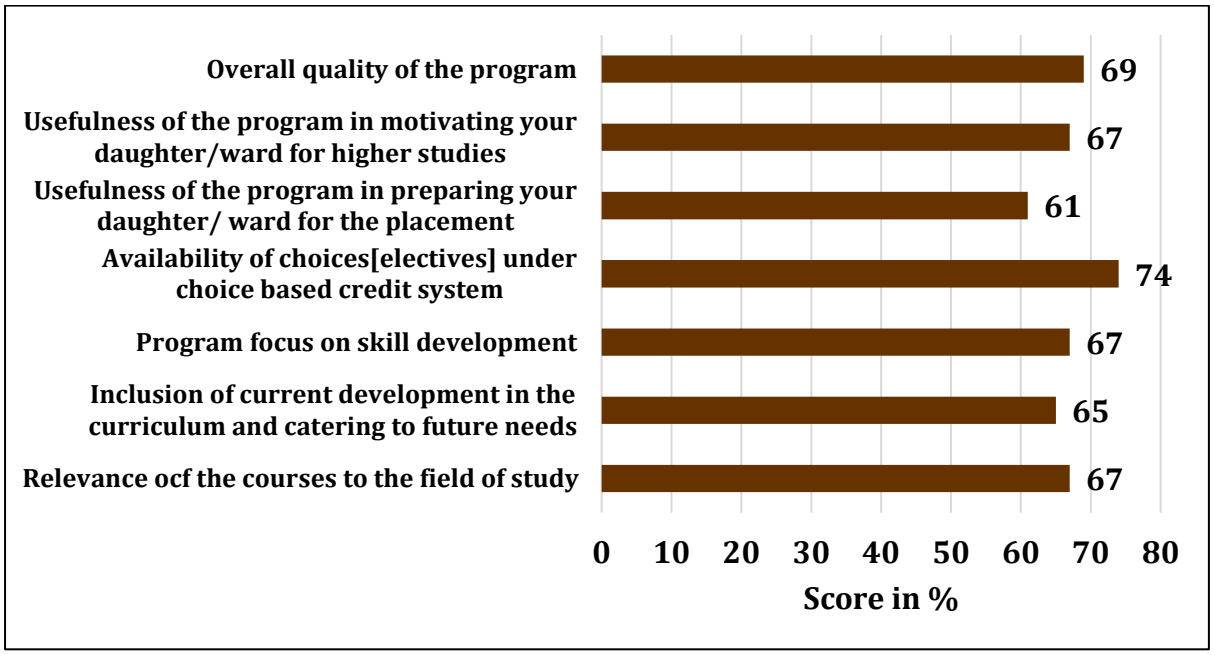
What changes do you suggest to improve the Curriculum?

- Nothing
- Coaching for competitive examination
- Improving or including technology according to the course
- More courses on biotechnology should be offered and there is not much option for certain courses and the NME courses should be offered for non Tamil students as well .it is unfair for them to lack an opportunity to explore a new subject.
- No suggestions

- Make advanced technology a constant in courses offered.
- More practical classes and information about classes, extracurricular and assignment prior to students and guardians
- Nil
- Maybe improvising in practical classes
- Nothing
- Introduce more physical methods of learning
- More practical teaching
- No
- Nothing
- Everything is good, Nothing to change
- For sports they only choosing students with coaching in outside. So they want coach all the students even who are all in basic levels so they can also achieve in sports.
- Conducting more useful program
- "There are many unavoidable circumstances that can cause a student to take leave. Our request is to give some relaxation in the attendance system and lower the required percentage.
- Make students involve in more practical works related to the course "
- Nothing
- No changes
- Notes have to be given then and then
- Nothing
- Make curriculum multiculture society , classroom management
- No
- None
- Time
- Nil

* * * *

III B.Sc. Plant Biology & Plant Biotechnology



What was the most useful part of the Curriculum?

- USEFULNESS OF THE PROGRAM IN MOTIVATING OUR DAUGHTER FOR HIGHER STUDIES
- having a structured syllabus
- The gardening component which is practical helps her to learn understand. The core elective Medicinal plants she finds interesting.
- Her experience in new subjects she finds is interesting
- The course is unique is I guess ,as I see only few colleges have master Program in the same course. I think pursuing her higher studies in the same curriculum will help her to place herself in a good position.
- Syllabus was found to be interesting for my daughter as she wants to pursue higher studies
- The elaborate syllabus for the courses
- Laboratory and field works
- Skill classes
- LDC and workshops
- Practical site visits
- Internships
- Almost I like all the curriculum activities.
- "Having a proper understanding of the course and learning many new topics and information.
- New guidelines for higher studies plus opportunities in many different fields of science.

- The practical part was too good, as she understands well enough by doing skilful things, and also by having seminars in class , she understands very well and also improves her presentation skills
- Availability of choices (elective) under choice based credit system
- Selection of different electives and its syllabus
- All the part of the curriculum
- Keeping students engaged
- Program focused on skill development
- My daughter improved a lot after joining WCC. Her behaviour and discipline changed now she's become silent and kind
- Studies
- Value education classes
- Overall the curriculum was useful for my daughter
- Internship
- Teaching was very good

What was the least useful part of the Curriculum?

- Nothing to be mentioned, everything was satisfactory.
- Not sure
- Nothing much
- Value education was not that much useful for my daughter
- Nil
- Taking average by conducting internals
- Not felt anything like that
- Botanical
- Nil
- Sometimes, the assembly program was not relevant and not related.
- Usefulness of program in preparing your daughter/ ward for placement
- Having a syllabus for scripture classes
- Nothing.
- Conducting several internals and taking average
- Nothing
- Nothing else
- Exams
- Not applicable
- Nil
- Nil
- Nothing

What changes do you suggest to improve the Curriculum?

- So far the curriculum is well designed
- Some portions have been studied in her secondary school. I suggest to introduce new syllabus and the she felt the portions in ecology were too much to study. That could have been reduced

- Just more advanced subjects and concentrate on getting practical knowledge rather than theoretical point.
- Encourage each students to participate in sports more
- More practical knowledge
- More placement opportunities
- More exposure in the way of field trips and practical learning and more labs
- often take to Practice
- More placements
- Nil
- If there is change in anything related to the courses or exams the students must be informed properly .The communication towards the students by the college management must be attended at utmost sincerity.
- Give notes
- In some courses, she felt that syllabus was not enough and sometimes she felt, the syllabus was too heavy for studying. So it would be better if you concentrate on syllabus which is very apt for the course.
- Principle of core of common subjects
- Nothing
- Follow the Internals test pattern like other college
- Nothing
- Treat every student equally don't show parpartiality. Respect students feelings. Motivate the students who needs a support of the teacher. Give opportunity to weak students because they're not good in academic but they have hidden talents. Give one day gap for CIA exam don't schedule the exam continuously it's affect the students health give some space to them what they learn in a classroom. Some teachers are dominating the students in front of other students it's actually a bad thing. Every student have different ability to understand the things. As a parent I suggest you that the college have to conduct some program for they're future. Please do some changes in attendance rules it's quite bad.

DEPT OF PLANT BIOLOGY AND PLANT BIOTECHNOLOGY

REPORT ON CURRICULUM FEEDBACK

BATCH 2022-2025

The parents of class I students of the Dept. of Plant Biology and Plant Biotechnology were satisfied with the overall quality of the program, rating it at 72%. The parents appreciated the program as the teachers were able to impart knowledge in the subject by updating according to the current developments, thereby encouraging students to pursue higher education. The curriculum is well planned in focussing on the fundamentals concepts of the course as well as catering to future needs. The lab sessions enabled the students to develop their practical skills. The theory and practical syllabi were correlating which gave the students an experience of balanced learning. Suggestions for improvement were to have activities conducted during the college hours. The parents commended that the overall syllabus of the degree program is useful. Parents have expressed their concern for not organising field trip during the academic year.

BATCH 2021-2024

The overall quality of Program has been marked to be very useful and motivating. Parents have reported that faculty catered to the future needs of the students by bringing out student talent and creativity. They nurtured students through the incorporation of current development into the curriculum. Parents appreciated teaching methodology, and the syllabi. The most useful parts of the curriculum are the practical sessions, educational trips and focus on skill development.

Parents are satisfied with everything, but need special consideration to relax strict attendance system, supplement sports coaching at college for interested candidates and need to include more elective based courses.

Parent's suggestion is also to improve the curriculum by including coaching systems for competitive examinations and improving /or including technology according to the course. More courses on biotechnology should be offered. Parents have also requested an increased practical classes and physical methods of learning.

BATCH 2021-2024

The parents were satisfied with the Curriculum and said that it was well designed. Based on the feedback given by the parents, it was observed that 74% said that there were choices available for Electives under Choice based Credit system. They cited that the most

useful part of the Curriculum was having a structured and interesting syllabi with practical, skill based courses, field trips, workshops and internships. They were appreciative of the Practical component as it developed their skill and also the seminars taken in class which improved their Presentation skills. The choices available for Elective courses were also considered as useful part of the Curriculum. 67% agreed that the program motivated their daughters for higher studies, focused on skill development and that the courses were relevant to their subject. 65% of the parents mentioned that the current development were included in the Curriculum which catered to the future needs of the students. 61% agreed that the program prepared their daughter for future placements.

The majority believed that the Curriculum did not have any least useful part. However, it has been mentioned that taking average for Internal Assessment was not useful and relevant.

The parents had suggested that the syllabus should be revised considering the topics that have been already studied in school, encourage all students to participate in sports, offer more placement opportunities, and give at least a day's break between CIA tests so that the students' health is not affected.

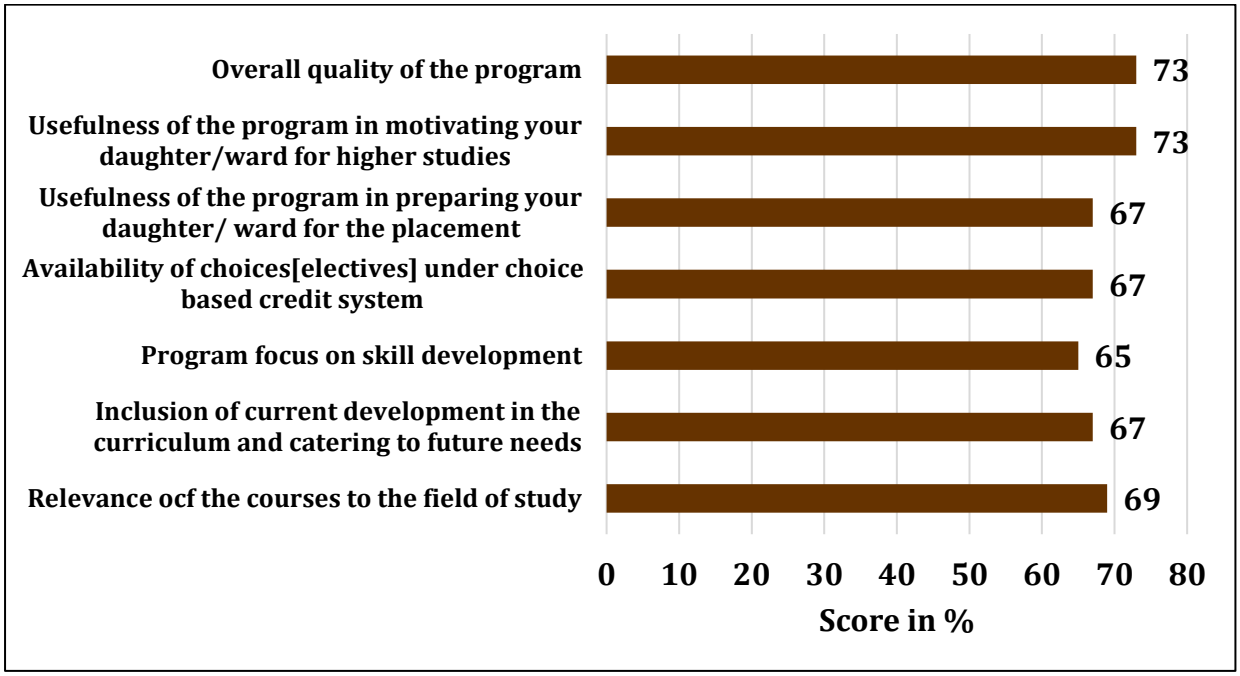
Parent Feedback on Curriculum
February 2023

I B.Sc. Advanced Zoology & Biotechnology



What was the most useful part of the Curriculum?

- Teaching
- Choices in curriculum
- Program focus on skill development
- With notes very usefull
- Knowledge in the topic is presented very well
- Conducting internal assessments
- Learning about diseases and practical classes
- Lab and practical classes
- Studying the basics of the core paper
- Program on skill development
- Practical
- LDC proves useful to students in the sense that it equips students with the ability to design a course around their own interests
- Skill development
- Good curriculum.
- Practicals
- Practical teaching and study materials
- Explaining with pictures videos...
- Almost everything

- Portions are relevance to the course
- Knowledge got about Animals.
- Knowledge
- Visual learning
- subject knowledge
- Practicals
- Relevance of the courses to the field of study
- Practicals
- Practical
- Annie mam
- Doing practicals and overall the curriculum is good
- Practicals
- Continuous internal assessment and it's publication of marks is good
- Monthly test
- Program focus on skill based
- To have kept the learner in mind and involve them in the process.
- The teaching by the teachers

What was the least useful part of the Curriculum?

- Field trip
- Field studies
- Nothing
- Nothing
- Conducting internal assessment for extra courses
- None
- supporting subject as botany
- Studying unrelated supporting subject to their course like botany
- Usefulness of the program in preparing our daughter for placements
- Null
- Instead of write ups, it could be in the form of in-class presentations
- Physical education
- Saturday classes seems to be not quite useful.
- Nil
- Excessive amount of portions
- Supporting subject was not relevant to this course
- Botany
- Seminars are less
- Nothing.
- Nothing
- Written Assignment
- English SKB in 2nd sem
- Nil
- Program focus on skill development
- Nothing
- Focusing only on theory

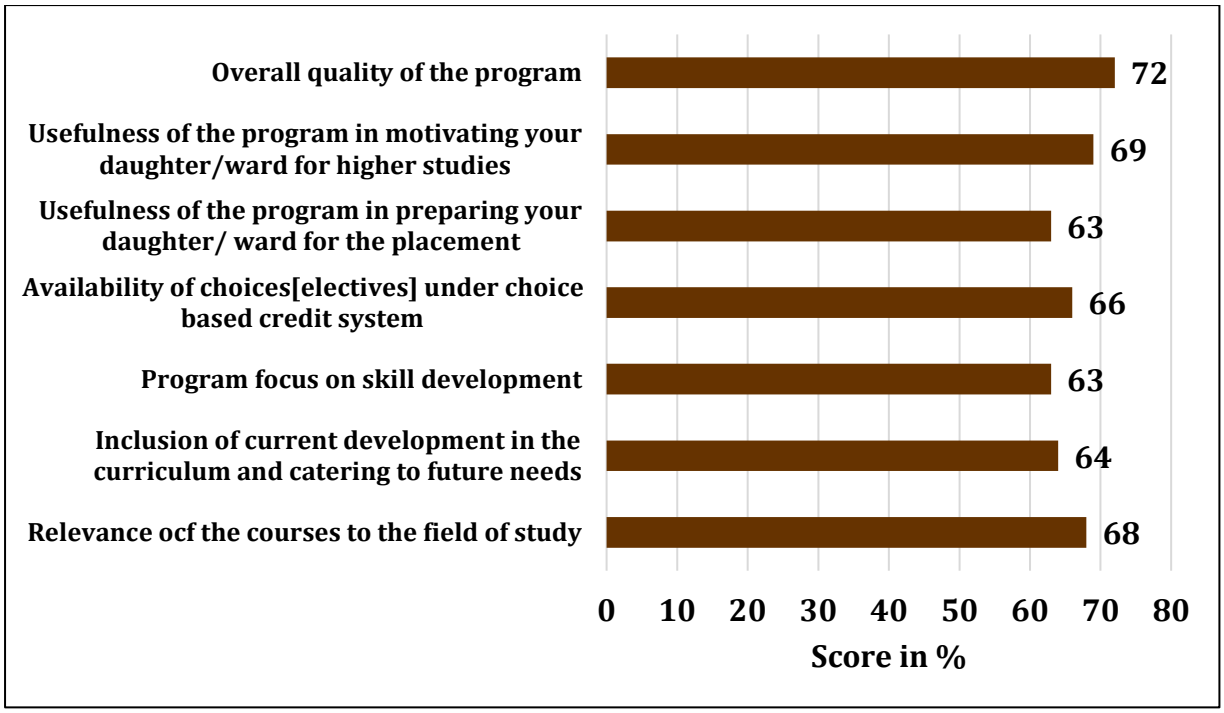
- Nothing
- Nothing
- Nil
- Everything was fine and nothing feels like least useful
- Need dissection practice to my daughter
- Availability of choices under choice based credit system
- Nil
- The practicals

What changes do you suggest to improve the Curriculum?

- Onsite learning and interactive session
- Extra field studies and practical works
- Regular notes
- More practical knowledge
- Effective practical learning then theory.
- To show more images of all species the students are learning about
- Focus more on everyday animals than microscopic ones.
- Improve the supporting paper skills and practicals
- Considering placements in this course
- Null
- Incorporation of more field visits to gain hands on experience; practicals can be made more dissection-centric; evolution as a concrete subject should be integrated back into the curriculum
- It's fine
- On Saturdays college should not work.
- Nil
- Need of objective type of test instead of descriptive
- Can increase practicals in dissections study in field trips
- Dissection can be done to improve the curriculum
- Improve studying and make the students more attentive for the course
- Include more field trips and tours.
- More practical knowledge
- Assignments can be in the form of presentations instead of written works
- more interaction and on site learning
- Nil
- Include field studies
- No such changes but supporting subject should we more related to zoology.
- increase the number of Field trips
- To increase more field visit
- Many field trips for their course and interesting features for their learning has to be brought in
- Dissection part should be included in the syllabus
- The current progress and I wish to continue this.
- Need Practical sessions in organisms
- Nil
- Improve the teaching skills

* * * * *

II B.Sc. Advanced Zoology & Biotechnology



What was the most useful part of the Curriculum?

- Everything
- Everything
- Promoting the students to participate in various service learning and internships
- Motivating students for higher studies
- Supporting practicals
- Nil
- Internships
- Genetics
- Overall quality of the programme
- Syllabus ,Question Pattern
- Keeping the monthly tests and giving extra coaching for the slow learners
- Up-to-date information and practicals. In-depth studies
- Practical teaching was very useful.
- Everything
- Giving more information about subject and life
- Education
- The curriculum has included a vast variety of topics that would be benefit my ward's future studies.
- Teaching is very good and we can imagine the things they thought
- Availability of choices under Choice Based Credit System.
- It's nice
- Motivating for higher studies m

- Improves skills
- The most useful Part is genetics and interactive teaching of the teachers

What was the least useful part of the Curriculum?

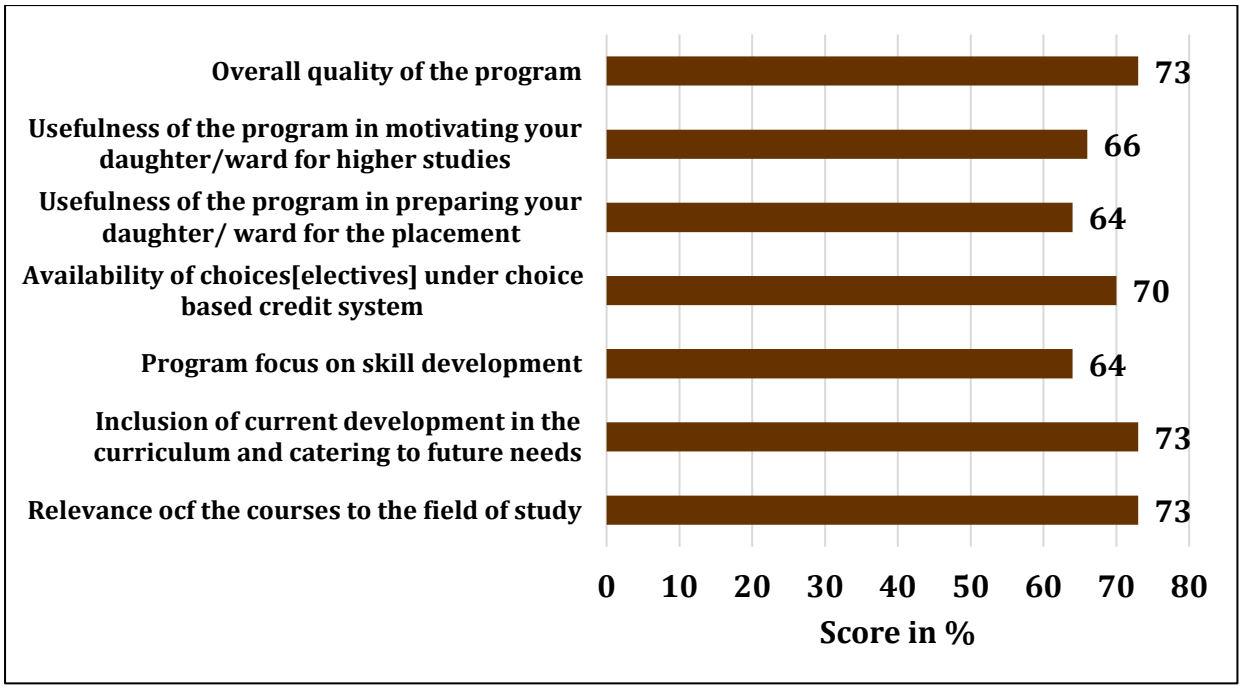
- NME
- No
- Nothing
- Inclusion of current development in the curriculum
- Theory classes
- Nil
- Syllabus is not upgraded
- Nil
- Since I see only positives, I do not search out for the least usefulness in it.
- None
- Internships and outreach program should be given for all the interested students
- NIL
- All used very well
- Giving information about the PG idea
- None
- Nothing
- Nothing
- None
- Nothing

What changes do you suggest to improve the Curriculum?

- No
- Nothing
- Relevance of courses needs improvement
- Theory classes could be more interesting and taught in a easy way.
- Nil
- Upgrade the syllabus
- More practical approach in the way of teaching could be better
- Students needs to be trained in employment generating techniques even as they study the course.
- None
- Practical teaching can be increased.
- No changes
- Tell students about the placement and PG options
- None
- More of practical and screening the picture of what they are teaching
- nothing
- No changes
- None
- Nothing

* * * * *

III B.Sc. Advanced Zoology & Biotechnology



What was the most useful part of the Curriculum?

- Nothing
- The practicals
- Internals
- Extension activities and NME
- Availability of choices (Electives) under choice based credit system.
- Program focus on skill development
- LDC
- Practical sessions
- The practical related studies was really good

What was the least useful part of the Curriculum?

- Nothing
- None
- Nothing
- Nil
- Supplementary Practicals
- Assignments
- none.

What changes do you suggest to improve the Curriculum?

- Nothing
- None
- Nothing
- Nil
- Give preference to latest technology related subjects
- I feel it would be better if CIA and assignments are not packed within the same duration. And also to take children on tours and trips for better exposure
- To plan the exams and other works in an orderly manner
- Can add computational related biology in syllabus

* * * * *

Department of Advanced Zoology & Biotechnology

Action taken report based on Parent's Feedbacks submitted for the year 2022-23.

I Years

1. **Field Trip**

Field trip to the Shell Museum, Mahabalipuram to show molluscan diversity was organized by the Department during the odd semester. A worksheet was prepared by the faculty incharge, for the student to observe and fill details for self-study.

2. **Botany as a Supporting Course**

General Botany at the supporting level is mandatory as given in the University Template.

3. **Preparing for placement**

a) Skill based course on Enhancing Personality prepares students to enhance presentation skills and face interview boards.
b) SKB Course on IT Tools for Biologists and Bioinformatics lays a strong foundation for working on documentation and presentation of scientific data.
c) Through CGC an opportunity to appear for placement interviews is given when they are in the final year.

4. **Physical Education** – University Guideline
5. **Focusing only on theory:** Practical Course in core and supporting was offered in semester one. Practicals are offered from semester III to VI.
6. **Availability of CBCS:** Already available for NME, SKB, CE and SE.

II Years

1. **Syllabus not upgraded**

Syllabus is periodically revised and approved by the BOS.

2. Internships to be made compulsory: From 2022 batch onwards, internship has been made compulsory.
3. Giving information about PG: This is done every year during semesters V & VI

III Years

To plan exams in an orderly manner:

Test schedule is planned and fitted in the Academic Calendar even before the commencement of the semester. This is accessible in the college website and also displayed in the department notice board.

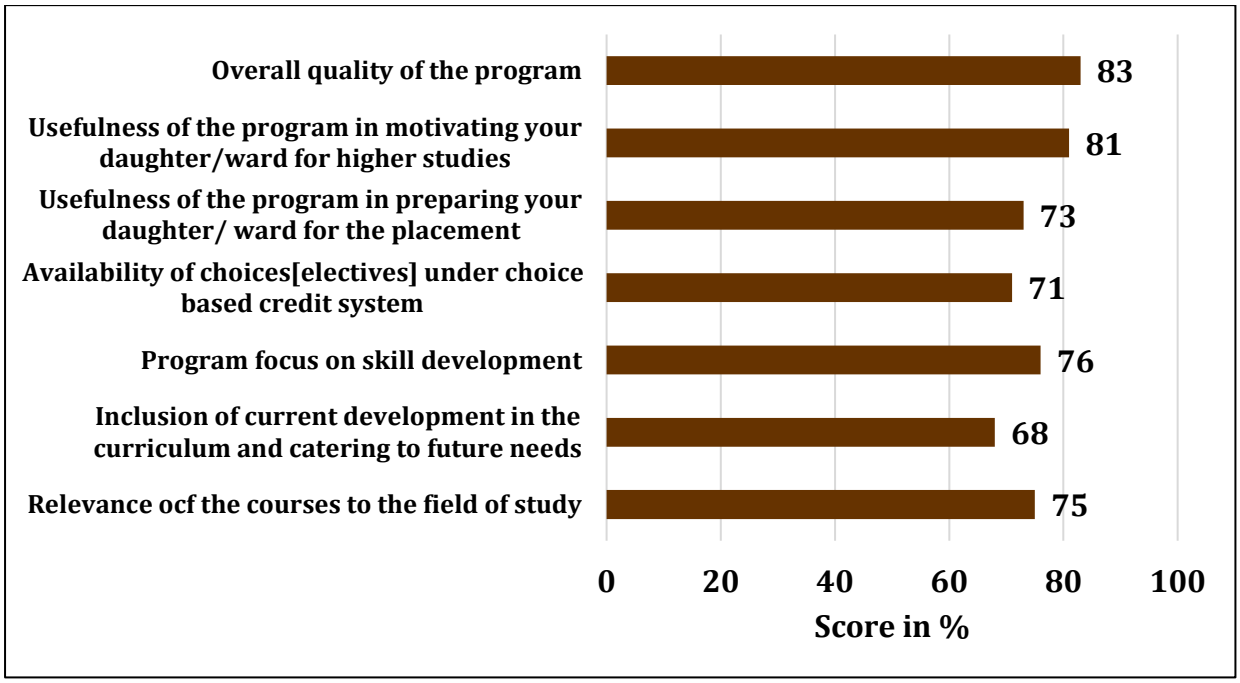
Parent Feedback on Curriculum
February 2023

I B.Sc. Nutrition, FSM & Dietetics (Vocational Stream)



What was the most useful part of the Curriculum?

- She is very disciplined and environment of her curriculum is very good.
- Focus on practicals (related to studies) and physical education
- Useful on everything needed on day to day basis
- Our child gets to know her ability to do her higher studies
- Overall quality of the degree program
- Teaching
- Continuous internal tests
- Encouraging students to present seminars
- Practicals
- PPT presentation
- Learning and self assessing, gaining knowledge
- She learn some new things
- seminars are very useful
- Program focus on skill development
- CIA exams
- Basic cookery was very useful
- Value education
- Practical experiences
- Practicals

- Practicals
- COMMINUCATION SKILLS
- Staffs
- To have a wholesome of knowledge

What was the least useful part of the Curriculum?

- Nothing.
- None
- None
- Nothing
- Nil
- Physical education
- Nothing
- Nothing
- Nil
- She developing her skills
- Nil
- Nothing like that
- Nil
- None
- Nothing
- Nothing
- PHYSICAL EDUCATION
- None
- Convenience

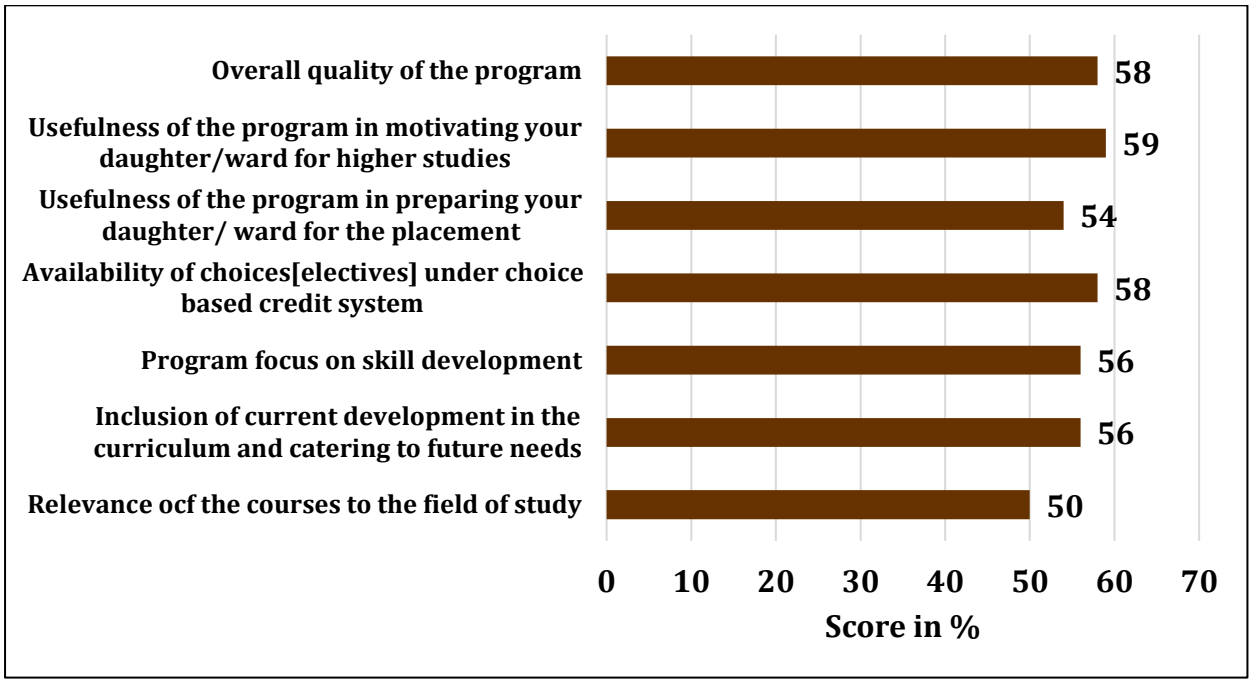
What changes do you suggest to improve the Curriculum?

- Conducting skill programs.
- None
- Including books
- None
- Increasing the syllabus and subjects may be
- Nil
- More practical syllabus
- MOOC
- Nothing
- More Seminars and interactive sessions can be given to the student
- Nothing
- nothing i would say
- Nil
- Ask them questions while taking class

- Nil
- More advice sessions
- None
- MOOC compound
- MOOC components
- NONE
- Should make the students enjoy in any festivals program and do not put over rules then students can be free
- To do more practical work and get place in good heights.

* * * * *

II B.Sc. Nutrition, FSM & Dietetics (Vocational Stream)



What was the most useful part of the Curriculum?

- Studies
- Vale education
- Studies
- Elective courses
- Learning happens within the class
- Teaching
- Skill development
- The other aspects of studies and education apart from the core subjects is very useful as it gives the girls an insightful knowledge on various other options they have and opportunities they can use with what they have studied.
- Credit system and program focused on skill development

- All relevant to the field of study.
- Inclusion of current developments in the curriculum and catering to future needs
- Specific details provided regarding the coarse
- Matches with field of interest

What was the least useful part of the Curriculum?

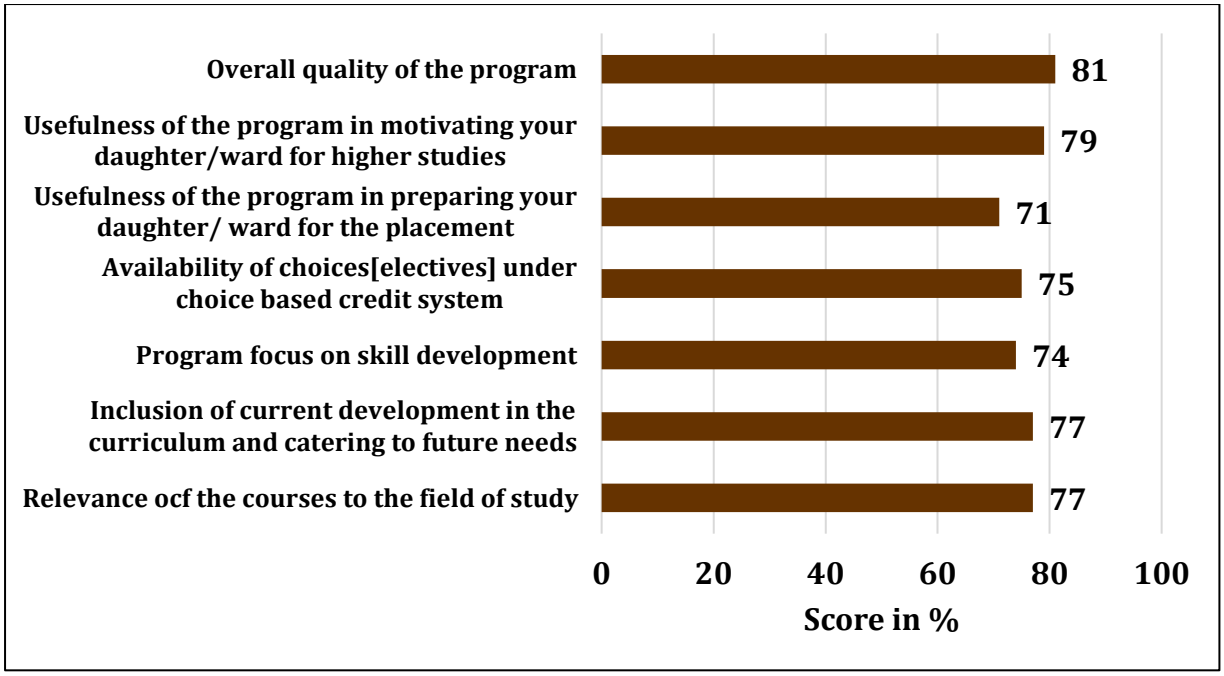
- Nil
- Extracurricular
- Tamil
- About attendance issues
- Nothing
- None
- The non major electives being compulsory for certain girls as Tamil, especially when the student struggles with language. They should be given the choice to pick what they would like to study.
- Irrelevant courses to the degree like PAID , TEXTILES ETC
- Availability of choices (Electives) under Choice Based Credit System
- Could have asked the parents opinion about the open day meeting prior fixing it

What changes do you suggest to improve the Curriculum?

- Change the timing of the college because my daughter couldn't able to reach your campus on time. So that she is getting poor attendance in 1st hour. So kindly consider our opinion
- Physical education
- Courses
- Choice for selecting NME and SKB
- About attendance issues it can be increased above 85/. And condonation fees can be avoided
- Nothing
- No suggestions
- The curriculum could be a bit more advanced as the students are capable of easily catching up with the current syllabus. Curriculums could be a good motivating challenge for them.
- To focus more studies and activities related to the course
- Field trips can be included.
- Suggestion for the opinions on college rules

* * * * *

III B.Sc. Nutrition, FSM & Dietetics (Vocational Stream)



What was the most useful part of the Curriculum?

- That it had extra courses and electives
- Conducting monthly tests
- She can manage for food
- Higher studies
- Core Subjects
- The overall curriculum is good
- Degree
- Presentation
- Seminar sessions and learning
- Seminars, group discussion
- Got to know about the quality of the system
- Sports
- Dietetics
- Including new developments in the courses
- Lots of career opportunities
- The workshops

What was the least useful part of the Curriculum?

- Nil
- Interior designing
- Degree program
- Nothing

- Nil
- Assignment
- Repeated classes
- Nil
- Nil
- Consumer Economics
- None
- Nothing

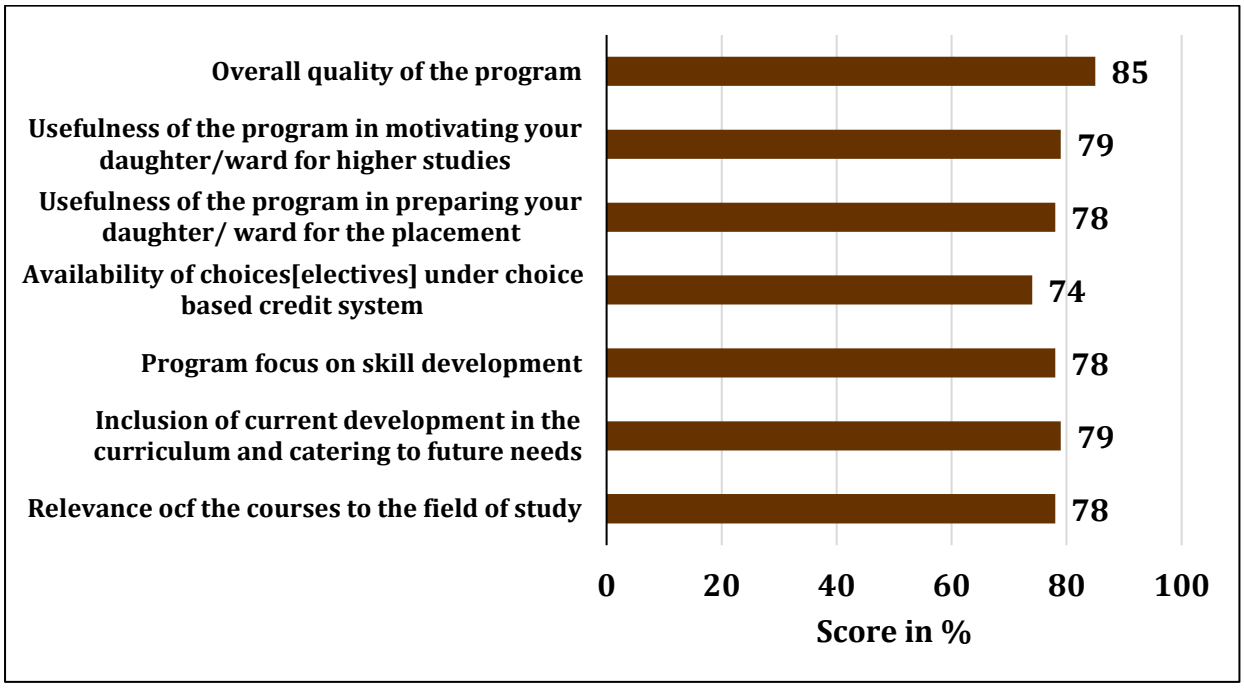
What changes do you suggest to improve the Curriculum?

- Nothing
- Its good
- Nothing
- No
- No changes
- No need
- More practical knowledge has to be provided
- Provide placement opportunities related to degree of study
- No changes
- Can make more clarity on the subjects offered
- Nil
- No idea
- None
- Extra training programs can be included

* * * * *

Parent Feedback on Curriculum
February 2023

I B.Sc. Nutrition, FSM & Dietetics



What was the most useful part of the Curriculum?

- Overall quality of degree
- Interaction between students and teachers
- To improve the talent of the students
- Program focus on skill development
- Practical classes are useful
- It helps in higher studies
- Seminars and assignment most useful part
- She getting exposed to various fields of that particular course and apply it on day to day basis.
- Improving basics
- Easy to understand by PPT presentation
- To developing the course knowledge
- Communication skills
- Placement
- Placement
- Nutritionist
- Everything
- Motivating students to higher studies
- Program focused on skill development
- They are trying to update themselves
- Communication skill

- Communication Skills
- Helps in achieving appropriate learning outcomes
- Scripture classes

What was the least useful part of the Curriculum?

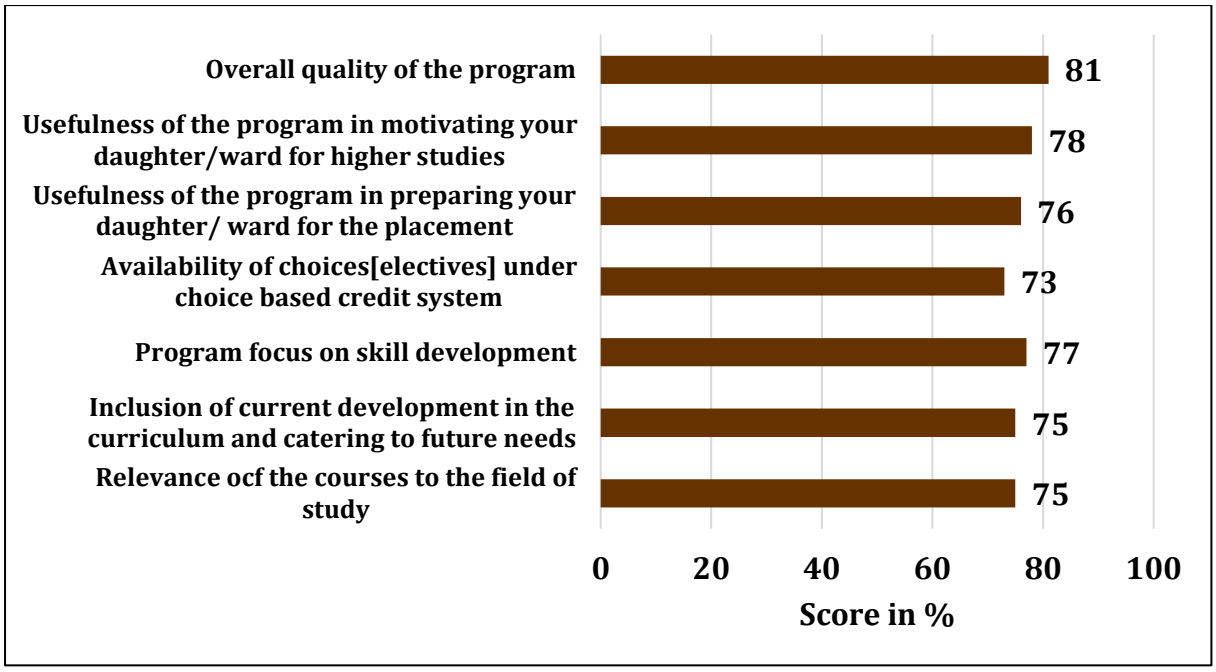
- Availability of the choices
- There was nothing which was least useful
- Nothing
- Availability of choices
- No opportunity given to all students
- Skill development
- Compulsory physical education and attendance system is not really applicable.
- Irrelevant subjects
- Doing Practicals use to understand the concept
- Some times curriculum is not understanding
- Nil
- Nothing
- Current development of catering for future needs
- Overall quality of the degree program
- Not yet
- NIL

What changes do you suggest to improve the Curriculum?

- Nil
- Practical application of theory part. Guidance about future and teaching about how to build future with the course
- Nothing
- Nothing
- Nil
- Involvement of everyone and giving equal rights to everyone without bias.
- Motivate them in studies
- Nothing
- Field trips and practical practice
- Explain in students comfortable language
- To allow more time in tutorial like weekly trice
- Focus in high quality assessment
- Nil
- Everything is good, no separate suggestions.
- No suggestions
- Improve programs for skill based development
- Not yet
- Continuous assessment
- May include Educational Field trips to various organisations.

* * * * *

II B.Sc. Nutrition, FSM & Dietetics



What was the most useful part of the Curriculum?

- Mobile phones banned on campus
- Content relevant to the study
- Most useful part would be the syllabus of different subjects. How well it influences our everyday lives effectively and helps to take proper precautions.
- Good understanding and learning
- They tend to know how to take seminars by their own.
- Providing students with hands on experience was really useful
- The most useful part of the curriculum is conducting seminars and developing skills among students.
- Seminars in the Core papers
- To make children focus on skill development
- Best part is Seminars, this helps in removing the stage fear and gives confidence in public speaking.
- Seminars and teachers are friendly to approach
- Food Science
- Programs focus on skills development
- Students interaction with the faculty and during class hours
- Program focus on skill development
- She learns how to keep our health fit and she teaches me like what type of food should I take. She used to tell us about nutrition content about the food she learnt from human Nutrition and Food Science.
- The test which was held by the management
- Seminar Presentations

What was the least useful part of the Curriculum?

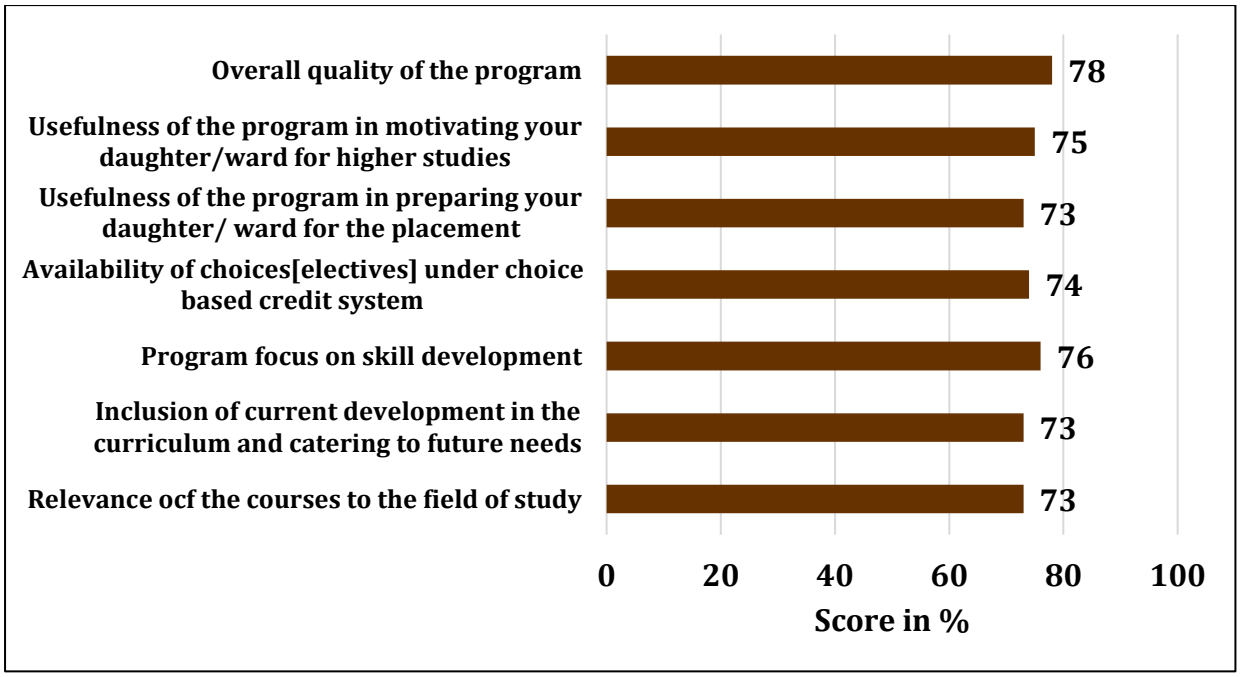
- Classroom changing for every one hour
- Everything was good.
- Nil
- Inclusion of certain unrelated lessons in language paper
- Maybe the availability of choices (elective) based credit system
- Webinar of professionals
- Chemistry
- Usefulness of the program in motivating your daughter/ward for higher studies
- Nil
- Supporting subjects by the management
- Nil

What changes do you suggest to improve the Curriculum?

- Students who are coming from long distance, they find it difficult to reach college by 8.
- Nil
- Keeping options for supporting subjects atleast for 1 or 2 semester rather than making all the students studying the same subject.
- Internship should be included to the students f to get experience.
- Nil
- Remove literature part in language. Literature does not prepare the student for the course. Include field visits.
- To re-evaluate more on goals or objectives.
- The attendance percentage should be decreased to 75%. Sometimes, by chance it is necessary to take leave for unavoidable reasons. So students find difficult in some courses which have 2 days of cls per week. It will be nice, if it is reduced to 75%, as it will help to prevent from lack of attendance or increase the number of classes
- Nil
- To motivate the student and don't do shame by their marks
- Nil

* * * * *

III B.Sc. Nutrition, FSM & Dietetics



What was the most useful part of the Curriculum?

- Core subjects
- Sports department, SKB, name & scripture classes
- Continuous assessment system
- Where they had supporting subjects to expand their field.
- Internship, teaching activity in Rotaract club, nursery practical (Human Growth and development)
- Program focus on skill development
- The student progress is easily monitored.
- The parent does not have to rely on her own preparations and resourcefulness; she can just follow the teacher's manual
- Industrial visits
- Core
- Nil
- Field work
- Nutrition courses and cooking labs
- Promoting for higher studies

What was the least useful part of the Curriculum?

- Nothing
- None
- Written submissions of work.
- Nil
- Nil

- Nil
- The curricula does not cover everything a student needs to know.
- Nil
- Nil
- Principles of interior design
- Nothing
- Nil
- Nothing

What changes do you suggest to improve the Curriculum?

- Nil
- None
- Bringing in the choice of choosing the best of the continuous assessment marks for internals.
- A holiday per week except Sundays.
- Nil
- Nothing
- Job trends should be taken into consideration.
- Nil
- Career advice
- Placement required
- Remove the ban on mobile
- More practical work
- More practical classes
- Nothing

* * * * *

Department of Home Science

Action Taken Report based on parent feedback-2022-23

Nutrition Food Service Management and Dietetics (General Stream)

Based on suggestions and feedback from parents the following changes have been made:

- The Curriculum has ben revised taking into account current developments and foreseeing future needs
- Internships have been made mandatory for students from the 2022 batch. Students will be sent on internships to hospitals, diet clinics, fitness centres, food processing units, hotels and the hospitality industry for minimum of 2 weeks to get an exposure to the industry. For other students who would still like to undergo an internship, a 2 week internship can be arranged for extra credits.
- Students are being taken on Field trips and industrial visits which are already part of the curriculum of many courses. It was not possible to take students on field trips earlier due to COVID 19 restrictions, but this is now being implemented.
- Workshops on Enteral Nutrition, Sports Nutrition, liquid embroidery, baking , Nutrition entrepreneurship and motivational counselling have been organised by the Department .Experts like Community Nutritionists, Clinical Nutritionist, sports nutritionists have also spoken on career opportunities in these fields

Nutrition Food service Management and Dietetics (Vocational Stream)

Based on suggestions and feedback from parents the following changes have been made:

- Students are being taken on Field trips and industrial visits which are already part of the curriculum of many courses. It was not possible to take students on field trips earlier due to COVID 19 restrictions, but this is now being implemented.
- Courses like Principles of Art and Interior Decoration and Textiles are courses that provide scope for entrepreneurship and are also mandated as compulsory for the Home Science Syllabus prescribed by the University Grants Commission
- The Curriculum has been revised taking into account current developments and foreseeing future needs
- Several of our courses are oriented to skill development or have a practical component to teach application of concepts learnt Internships have been made mandatory for students from the 2022 batch. Students will be sent on internships to hospitals, diet clinics, fitness centres, food processing units, hotels and the hospitality industry for minimum of 2 weeks to get an exposure to the industry. For other students who would still like to undergo an internship, a 2 week internship can be arranged for additional credits.
- Workshops on Enteral Nutrition, Sports Nutrition, liquid embroidery, baking , Nutrition entrepreneurship and motivational counselling have been organised by the Department .Experts like Community Nutritionists, Clinical Nutritionist, sports nutritionists have also spoken on career opportunities in these fields
- Placements are facilitated through the career guidance cell

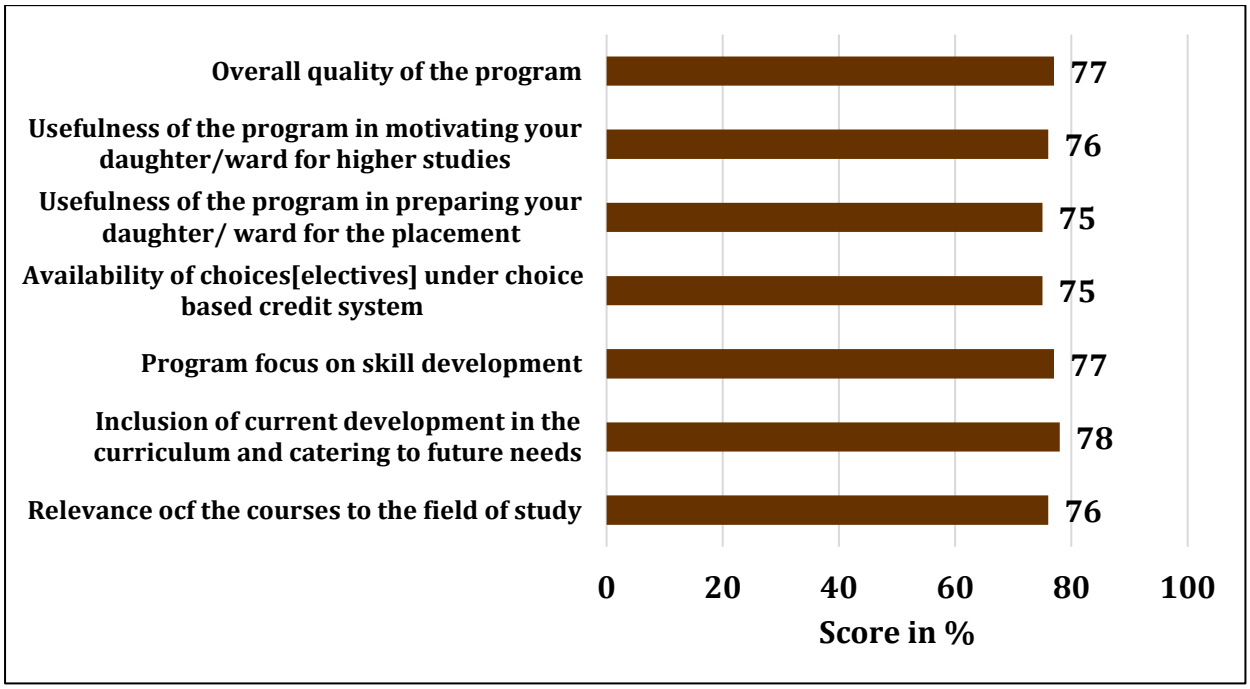
Parent Feedback on Curriculum
February 2023

I M.Sc. Food Service Management & Dietetics



What was the most useful part of the Curriculum?

- Curriculum is vast and updated
- All of the courses
- Its really helpful in knowing more about the course.
- All of them
- Practicals
- Making skillful and knowledgeable
- Useful in day to day life
- Health care aspects
- Skill development
- Good teaching skills
- Can be useful in day to day life
- All
- Seminars
- Aware about their activities
- Skill development
- Practical session
- Library
- Everything

What was the least useful part of the Curriculum?

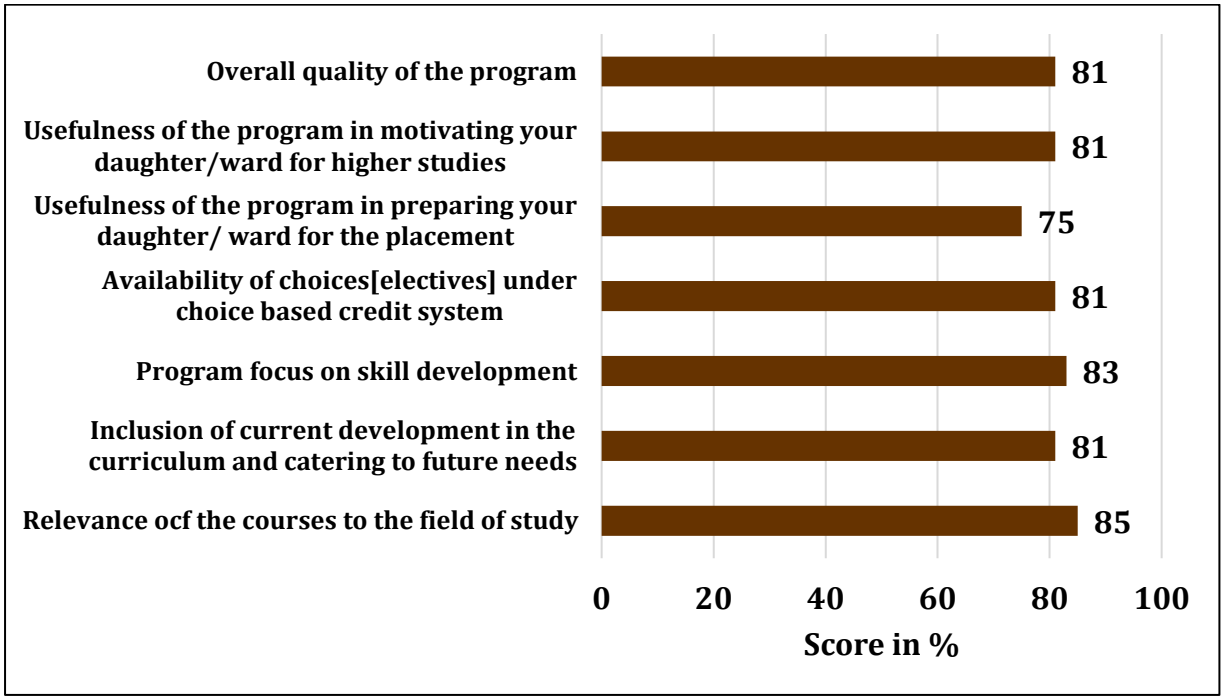
- Nil
- Nil
- Nil
- Nothing
- Nil
- None
- None
- No industrial visits
- Nil
- All
- Nothing
- Very nice maintenance of college
- Nothing
- Not allowing to use phones

What changes do you suggest to improve the Curriculum?

- No
- You could try to provide more skill and practical knowledge.
- Nil
- Nil
- Give some space to students
- Nil
- To include more hands on learning
- May be do practicals more and industrial visits
- Nil
- Nil
- It's good in its own way
- Co-curricular activities
- Improve more in practical session and industrial visit
- More campus placement according to the core of the subject

* * * * *

II M.Sc. Food Service Management & Dietetics



What was the most useful part of the Curriculum?

- Learning and applying what we learn which is usual for the society
- Scientific writing and community nutrition project nutrition education program
- Improve self-learning , More field trips for PG's in FSM
- Practical work
- Food sales, catering management field visit to Yercaud, Dietetics, one on one counselling sessions.
- Practical oriented classes
- Seminars, hands-on experience

What was the least useful part of the Curriculum?

- Less relevant courses and less practical courses
- IV based learning is required
- Nothing
- The PG Food Science curriculum can be updated keeping in line with the recent findings and improvements.
- Internship
- Online internship

What changes do you suggest to improve the Curriculum?

- Inclusion of more practical exposure, IV, field trips, internships

- Nothing
- Nothing
- Can be taken to field visits like food industry, hospitals, CMC Vellore, more internships. Mou with hospitals and food industries to improve placement and with NABL certified labs to enhance the research studies.
- More practical session
- Please provide NET coaching for students who want to appear for NET after the college hours like the college already has TNPSC coaching mentioned in the portal

Department of Home Science – PG

Feedback on Curriculum Received from Parents

Action Taken Report

1. I M.Sc. Foods and Nutrition and Food Service Management & Dietetics

a) What was the least useful part of the curriculum ?

Program to focus on skill development

ATR - Skill Based Courses come in the next semester.

b) What changes do you suggest to improve the curriculum?

Include field trips and practical application

ATR – Students are taken on field trips, visits were not permitted due to the pandemic.

2. II M.Sc Food Service Management and Dietetics and Foods and Nutrition

a) What was the least useful part of the curriculum

PG Food Science curriculum to be updated.

ATR – Food science syllabus has been updated.

b) What changes do you suggest to improve the curriculum.

Include field trips, internships and provide NET coaching

ATR – Field trips have been included, students are already taken on trips as part of community nutrition course. NET Coaching is provided to all the students. Details of conferences will be put on the notice board. Placement options are informed to all the students, it will be enhanced.
